## CERTIFICATE ENVIRONMENT/ENERGY/GREEN AUDIT

We, certify that this report is based on the site visits and evidence collected from the site. Any modifications, changes, omissions after the site visit shall be exclusive. All attempts have been made to evaluate the scope for development and inculcate green practices in the campus and extended to out of campus. The focus is also laid to make positive impact on the society for a better living. In case the institution needs demonstration, we shall be happy to do so. We present this report to fulfil the citizens moral responsibilities much more than the legal or mandatory compliances.

Work order : Ref No. Cha/Vel/Belgavi/KuSaKaa/2020-21/2451/1  
dated 7<sup>th</sup> Oct 2020

Date of Audit : 24<sup>th</sup> Feb 2020 to 29<sup>th</sup> Feb 2020.

Place of Audit : JNMC Medical college Campus.

This Report is presented in two parts.

Part 1 : Energy Use Evaluation (Audit) in the College campus.

Part 2 : Environment Impact Audit.

ENERGY AUDIT REPORT - 2021

---

THOUGHT FOR EVERY MOMENT

**ATTESTED**

There are about 19,00,00,000 students in INDIA. If every student saves one sheet per day, 19,00,00,000 sheets of paper meaning 988 tons of paper will be saved every day.

This is equivalent to saving 2748.54 tons of wood a day. This will lead to saving about 33,00,678 trees per year,  
SO LET US ALL USE BOTH SIDES OF THE SHEET even better adopt E-CORRESPONDENCE.

### Certificate For Certified Energy Manager

This is to certify that Mr./Mrs./Ms. Mallikarjun A Kambalyal .....  
 Son/Daughter of Mr./Mrs. Andanappa V Kambalyal ..... who has passed the National  
 Examination for certification of energy manager held in the month of April 2006 ..... is  
 qualified as certified energy manager subject to the provisions of Bureau of Energy Efficiency  
 (Certification Procedures for Energy Managers) Regulations, 2010.

This certificate shall be valid for five years with effect from the date of award of this certificate  
 and shall be renewable subject to attending the prescribed refresher training course once in every  
 five years.

His /Her name has been entered in the Register of certified energy manager  
 at Serial Number 2838 ..... being maintained by the Bureau of Energy Efficiency under the  
 aforesaid regulations.

Mr./Mrs./Ms. Mallikarjun A Kambalyal ..... is deemed to have qualified  
 for appointment or designation as energy manager under clause (i) of Section 14 of the Energy  
 Conservation Act, 2001 (Act No. 52 of 2001).

Given under the seal of the Bureau of Energy Efficiency, this 7<sup>th</sup> day  
 of February, 2013.

**Compliance status**

The report is supplementary to the original report and should be read and compared to the observations made accordingly.

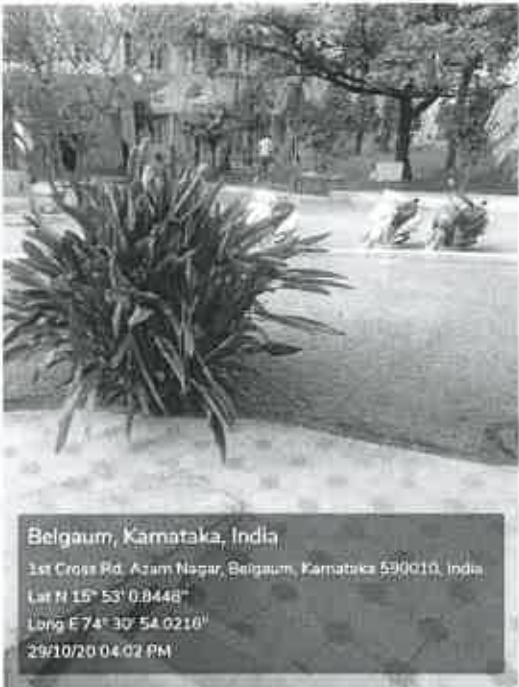

ENVIRONMENT AUDIT	
<p>Green Pledge</p>	<p>Complied, photo poster presented as below.</p>  <p>The poster features a row of hands at the top, each holding a different environmental symbol like a recycling symbol, a leaf, a water drop, a bicycle, and a tree. Below this is a dark banner with logos for KLE, KLE Academy of Higher Education and Research, and another logo. The main text reads: 'CARBON HANDPRINT - GREEN PLEDGE'. Below that, it says: 'CARBON HANDPRINT is a way to conserve our energy resources, keep the environment clean, follow eco-friendly measures and physically challenged and specially skilled personal's manoeuvrability friendly.' There are three paragraphs of text detailing the college's commitment to environmental safety, energy conservation, and social contribution. At the bottom, there is a signature line for the Principal, J.N. Medical College, KAHER, Belagavi, Karnataka, India, with a tree logo and hand graphics.</p>
<p>Window glass see through</p>	<p>Need to be relooked into as we found lapses.</p>

Organic waste composting	Complied. 
Green asset treats	Not identified.
classified waste collection bins	Complied however need to label them.
Rainwater management.	Not complied, however it is proposed to take up soon.
Water conservation	Partially complied, need organised harvesting plan.
Battery management	Not complied. As per the briefing, since the proposal is capital intensive, the same is expected to be budgeted in the coming academic year.
LPG Gas storage and utilisation.	Not initiated due to PANDEMIC issues.
HACCP compliance	The college remains in operational partially, hence it is said that the action would be taken soon after commencement of regular classes.
Utility Management	Needs budgeting.
Food waste	It is briefed that it is not in operation as the canteen/mess is not in operation. But the same has been planned.
Indoor Air Quality	Need to be addressed once college starts.
Fire safety devices	In place but no information on its refill and use has been displayed.

**ACKNOWLEDGEMENT:**

SUNSHUBH TECHNOVATIONS PVT LTD., is pleased to express its sincere gratitude to the management of **KLE's JNMC Medical College, BELAGAVI**, for entrusting SUNSHUBH TECHNOVATIONS PVT LTD., with the assignment on Green Earth practices based on Educate, Practice, Advocate & Manage the resources in their educational organization.

We also wish to thank the officials and the maintenance staff for the help rendered during the energy flow study.

We would fail if we neglect to appreciate the sincere efforts put in by the Faculty

- Dr. Mahantshetti N S (Principal),
- Dr Manasi Gosavi. (Project Co-Ordinator)
- Dr. Manisha More

and the Students who against all odds have kept the college premises clean to the possible limits. Without the crucial and significant support from the fellow teaching team the energy savings and carbon footprint reduction would not be a reality.

We appreciate the Coordinated effort of Mr. V. Nishandar Chief Engineer, Mr.Prasad Thorat Electrical Engineer and his team of electrical staff, Mr. C K Patil, Civil Engineer and his team. Not to forget Mr. Anil Amminabhavi who took special interest in showing us the campus and the problems encountered in the campus.

With the motivational support of the management, ground realistic support from teaching team and sincere efforts of the students in incorporating the change (habits) and instructions, the college could effectively declare the reduction in Carbon footprint and optimize the waste reductions.

We are not in a position to compute the carbon foot print at this point of time as the basic information from each of the students is yet to be collected; however, **we will discuss the Carbon Foot print in the follow up compliance report.**

Wishing the team, a great success we deeply express our gratitude and heartfelt "THANKYOU" for allowing us to assess the energy flow scenario there by the GREEN STATUS.

Mallikarjun A. Kambalyal. B.E.(E&C).

**1. LIMITATIONS:**

Our observations and recommendations tabled above are in the interest of conservation of Electrical Energy and Green Culture i.e. the reduction in CARBON FOOTPRINT. The compliance to the recommendations are to be reviewed and improved upon for the safety of the work staff and compliance of legal requirements as per Environmental rules and guidelines.

**2. AUTHENTICATION & DATE OF COMPLIANCE ENERGY AUDIT:**

This ENERGY Audit has been carried out on 26<sup>TH</sup> December 2020 under the instructions of Dr. Mahantshetti N S (Principal), and in the presence of supporting staff. The compliance audit has been carried out on various dates and the same should reflect in the geotagged photos.

**3. ABOUT ENERGY AUDIT:**

**KLE's JNMC Medical College, BELAGAVI**, has asked SUNSHUBH TECHNOVATIONS PVT LTD., Hubli., to conduct the ENERGY Energy Audit for their Institution.

In this context, the management of the Institute represented by Dr. Mahantshetti N S (Principal) entrusted us the task of conducting the feasibility study to reduce energy consumption and adopt green habits.

SUNSHUBH TECHNOVATIONS PVT LTD., represented by Mr. Mallikarjun A. Kambalyal made a detailed study and readings of various appliances were taken and carried out the ENERGY audit along with the safety parameters.

Based on the information available and the requirements put before us, it was decided to submit the report in two parts,

1. GREEN AUDIT where in pollution Preventive measures are necessary
2. ELECTRICAL ENERGY EFFICIENCY – CONSERVATION within the college

We hope the points presented will be self-explanatory, if there is need for any clarification, we are open for discussions.

#### 4. ONGOING STATUS:

It's an optimistic & highly dedicated team effort lead by the Principal & the senior staff who have initiated corrective measures and continue to dedicate all their wits & time to initiate Green Carpeting the entire college premises. It is also a fact that there do exist, few more short comings which however is unintentional & on further training & education.

With all due appreciation to the management , staff involved & cooperation by the students, we have made few suggestions which on implementation, will reduce, demand for water & electrical power. It will also reduce the existing level of pollution to bear minimum.

There is high potential among the students to be educated and spread the knowledge of going ZERO waste generation in their respective colonies and society they dwell in, contributing positively to the cause of

**NO WASTE – NO POLLUTION – NO HEALTH HAZARD.**

THOUGHT FOR EVERY MOMENT

There are about 19,00,00,000 students in INDIA. If every student saves one sheet per day, 19,00,00,000 sheets of paper meaning 988 tons of paper will be saved every day. This is equivalent to saving 2748.54 tons of wood a day. This will lead to saving about 33,00,678 trees per year, **SO, LET US ALL USE BOTH SIDES OF THE SHEET** even better adopt **E-CORRESPONDENCE**.

Belagavi-590 010,Karnataka

Facilitate admission of differently-abled persons in various courses.

Provide guidance and counselling to differently abled individuals.

Create awareness about the needs of differently abled persons and other general issues concerning their learning

Assist differently-abled graduates to gain successful employment in the public as well as private sectors.

THE MAJOR FUNCTIONS OF THE INSTITUTION SHOULD BE,

- To provide counselling to differently - abled students on the types of courses they could study at the higher education institutions.
- To ensure admission of as many differently-abled students as possible through the open quota and also through the reservation meant for them.
- To gather orders dealing with fee concessions, examination procedures, reservation, policies, etc., pertaining to differently-abled persons.
- policies, etc., pertaining to differently-abled persons.
- To assess the educational needs of differently abled persons enrolled in the higher education institutes to determine the types of assistive devices to be procured.
- To conduct awareness programmes for teachers of the institute about the approaches to teaching, evaluation procedures, etc, which they should address in the case of differently-abled students.
- To study the aptitude of differently-abled students and assist them in getting appropriate employment when desired by them after their studies.
- To celebrate important days pertaining to disability such as the World Disabled Day, White Cane Day, etc., in the institute and also in the neighbourhood in order to create awareness about the capabilities of differently-abled persons.
- To ensure maintenance of special assistive devices procured by the higher education institute under the HEPSN scheme and encourage differently-abled persons to use them for enriching their learning experiences.

THOUGHT FOR EVERY MOMENT

There are about 19,00,00,000 students in INDIA. If every student saves one sheet per day, 19,00,00,000 sheets of paper meaning 988 tons of paper will be saved every day. This is equivalent to saving 2748.54 tons of wood a day. This will lead to saving about 33,00,678 trees per year, SO, LET US ALL USE BOTH SIDES OF THE SHEET even better adopt E-CORRESPONDENCE.

Dr. V.A. Kothiwale  
Registrar

KLE Academy of Higher Education and Research,  
(Deemed-to-be-University u/s 3 of the UGC Act, 1956)  
Belagavi-590 010, Karnataka

- To prepare annual reports with case histories of differently-abled persons who are benefited by the HEPSN scheme sanctioned to the higher education institute.

#### Providing Access to differently-abled persons

It has been felt that differently-abled persons need special arrangements in the environment for their mobility and independent functioning. It is also a fact that many institutes have architectural barriers that disabled persons find difficult for their day-to-day functioning. The colleges are expected to address accessibility related issues as per the stipulations of the Persons with Disabilities Act 1995, and ensure that all existing structures as well as future construction projects in their campuses are made disabled friendly. The institutes should create special facilities such as ramps, rails and special toilets, and make other necessary changes to suit the special needs of differently-abled persons. The construction plans should clearly address the accessibility issues pertaining to disability. Guidelines on accessibility laid out by the office of the Chief Commissioner of Disabilities.

#### Providing Special Equipment to augment Educational Services for Differently abled Persons

Differently-abled persons require special aids and appliances for their daily functioning. These aids are available through various schemes of the Ministry of Social Justice and Empowerment. In addition to the procurement of assistive devices through these schemes, the higher education institute may also need special learning and assessment devices to help differently-abled students enrolled for higher education. In addition, visually challenged students need Readers. Availability of devices such as computers with screen reading software, low-vision aids, scanners, mobility devices, etc., in the institutes would enrich the educational experiences of differently-abled persons. Therefore, colleges are encouraged to procure such devices and provide facility of Readers for visually challenged students.

#### THOUGHT FOR EVERY MOMENT

There are about 19,00,00,000 students in INDIA. If every student saves one sheet per day, 19,00,00,000 sheets of paper meaning 988 tons of paper will be saved every day. This is equivalent to saving 2748.54 tons of wood a day. This will lead to saving about 33,00,678 trees per year, SO LET US ALL USE BOTH SIDES OF THE SHEET even better adopt E-CORRESPONDENCE.

**Internal audit guidelines.****Audit Process**

This section discusses the planning and implementation of the actual audit. The planning for the audit should cover:

- The core audit team
- Media management
- Overall coordination

**The Core Audit Team**

- The audit team should assemble outside the venue in advance to discuss the process of the audit.
- The attendance sheet should be signed by all the members of the assembled team.
- The team members should know the parts of the building they are to audit.
- The appropriate part of the audit checklist should be used for each section of the building audited. It is important to address each item of the checklist.
- The group should assess the area taking all kinds of disability into account.
- The photographer must be briefed and be guided by a member of the core audit team.
- The results of the different parts of the audit must be compiled.
- The audit team should meet the authorities of the organization, with the media, to inform them of the findings of the audit and submit a representation. The team must get a commitment to incorporate the changes necessary to make the building disabled-friendly.

**Media Management**

The media members should be asked to assemble at one place from where they will be transported to the venue of the audit or they should assemble at the site of the audit. A person must be appointed to coordinate with the media. A press briefing should be held and the media provided with a press kit. The media must be invited to join the team when it submits its representation to the head of the organization.

**Overall Coordination**

Since the audit process involves many people, a well-defined programme for the audit has to be drawn up. The following must be kept in mind:

- A schedule. A person should be nominated to monitor adherence to the planned programme.
- A designated Coordinator for overall synchronization of the audit goals

The following items must be carried by the audit team:

THOUGHT FOR EVERY MOMENT

There are about 19,00,00,000 students in INDIA. If every student saves one sheet per day, 19,00,00,000 sheets of paper meaning 988 tons of paper will be saved every day. This is equivalent to saving 2748.54 tons of wood a day. This will lead to saving about 33,00,678 trees per year, SO, LET US ALL USE BOTH SIDES OF THE SHEET even better adopt E-CORRESPONDENCE.

Registrar

KLE Academy of Higher Education and Research,  
(Deemed-to-be-University u/s 3 of the UGC Act, 1956)  
Belagavi-590 010, Karnataka

- copies of the audit checklist
- pens and hard boards
- attendance sheets
- copy of The Disability Act, 1995
- awareness materials
- copy of the representation to be submitted to the organization audited
- press kits

#### Post Audit Reporting And Follow-Up

The reporting of the audit is in 2 parts:

- a. Report on the building being audited, for submission to the organization which houses the building; and
- b. Complete report containing all the details relevant to the entire audit exercise.

#### Reports To Be Submitted To The Organization Audited

The data collected during the audit must be compiled and a report must be prepared. The report would be based on the following points:

- name of the place audited
- date of the audit
- members of the audit team
- observations on the areas audited, and the main conclusions of the audit
- suggestions for short-term and long-term improvement, based on the CPWD guidelines
- follow-up guidelines

A time-frame can be suggested for adopting the suggested changes. This report must be handed over to the audited organization, with a letter of appreciation for courtesies and cooperation extended, a copy of the completed audit checklist used to audit the institution and a copy of the relevant CPWD guidelines (sample formats)

#### Report Of The Access Audit Project

A report of the audit itself must be drawn up. It should include the aims, the details of the audit process, i.e., the pre-audit preparation, the process itself and the post audit reporting and follow-up, including the results of the audit and suggestions for improvement, which have been made. The report should include photographs and copies of news clippings of the audits. This report must be archived for future reference and follow-up action.

THOUGHT FOR EVERY MOMENT

There are about 19,00,00,000 students in INDIA. If every student saves one sheet per day, 19,00,00,000 sheets of paper meaning 988 tons of paper will be saved every day. This is equivalent to saving 2748.54 tons of wood a day. This will lead to saving about 33,00,678 trees per year.

## Brief Description Of The Essentials Of A Building That Are Evaluated

### *Entrances/Exits*

The main entrances and exits of buildings must be clearly identifiable and easily accessible. They must be wide enough to accommodate wheelchair users. Steps and ramps must have hand railings of contrasting colours. Building should have automatic sliding doors. In multistorey buildings, the entrance should permit access to a conveniently located elevator. Emergency exits should be easily identifiable and accessible.

### *Parking*

Parking for people with disabilities should be available near the building. It should be accessible to cross-disability groups equally. Accessible indoor parking spaces should be located closest to the elevators and within 50 metres of building entrance. The parking slots reserved for people with disabilities should be marked with the international symbol of accessibility. There should be procedures in place to make sure that non-disabled people do not use parking spaces reserved for people with disabilities. Drop off areas should be marked by a well-defined signage system and an accessible travel path from this area to the building should be available.

### *Ramps*

Complementary ramps should be available next to stairs. The gradient of ramps should allow easy use by wheelchair users. Appropriate landings should be available and the ramps should be wide enough for use by wheelchair users. Ramps surfaces should be slip-resistant and clear of obstacles. They should be protected on both sides. Ramps should be marked with the international symbol of accessibility.

### *Elevators*

Elevators should be easily accessible and identifiable. The doors should be wide enough to accommodate wheelchair users and the space inside should be sufficient for them. Elevators should have handrails of contrasting colours on three sides and be at appropriate heights. Visual and audible signals indicating the arrival at different floors should be available. Emergency intercoms should be usable without voice communication in emergencies. Tactile/ Braille instructions should be provided for the communication systems.

### *Stairs*

Stairs should be easily accessible and identifiable. The minimum width of the stairs should be wide enough and the landings have enough space at the top and bottom. The stair surfaces and nosing should be slip resistant. Handrails should be provided for staircases.

### *Corridors*

The minimum unobstructed width of corridors should be wide enough for wheelchair users and should allow manoeuvring through doors along the length of the corridor. The corridors should have guiding blocks along its length.

THOUGHT FOR EVERY MOMENT

There are about 19,00,00,000 students in INDIA. If every student saves one sheet per day, 19,00,00,000 sheets of paper meaning 988 tons of paper will be saved every day. This is equivalent to saving 2748.54 tons of wood a day. This will lead to saving about 33,00,678 trees per year, SO LET US ALL USE BOTH SIDES OF THE SHEET even better about E-CORRESPONDENCE

ATTESTED  
Dr. V.A.Kothiwale  
Registrar

KLE Academy of Higher Education and Research,  
(Deemed-to-be-University u/s 3 of the UGC Act, 1956)  
Belagavi-590 010,Karnataka

*Washrooms, Toilets And Bathrooms*

Separate toilets should be available for people with disabilities. They should be clearly identifiable and accessible. The doors should be wide enough and should be lockable from inside and releasable from outside. There should be enough manoeuvring space inside. All floor surfaces should be slip resistant. Mirrors, flushing arrangements, dispensers and toilet paper should be mounted at appropriate heights. They should be equipped with alarm systems for emergencies.

*Public Telephones*

There should be at least one telephone accessible to wheelchair users and should be equipped with hearing aids. The numbers should be embossed to allow easy identification. The coin slots should be at appropriate heights.

*Counters*

This includes reception counters, ticket counters, cash counters and administration counters. Counters should be easily identifiable and accessible to wheelchair users. Counter staff should be able to communicate with persons with hearing and visual disabilities.

*Drinking Water Facilities*

They should be easily accessible and the fountain head accessible to wheelchair users.

The area around the fountain should be dry to prevent falls. Glasses should be provided at drinking water facilities. The taps should be easily manoeuvrable.

*Eating Outlets*

Accessibility of eating outlets for people with various kinds of disability must be assessed. Tables, service counters and cash counters should be at appropriate heights. There should be enough place inside for easy movement by wheelchair users. A menu card should be available in Braille. Facilities should be available for people with speech impairment to place orders.

*Audit Of Specific Areas Of Buildings*

Some buildings have areas specific to them and different aspects must be looked when auditing them.

*Hospitals*

Patients have to visit the examination and sample collection rooms of hospitals and may get admitted to wards in them.

*Examination Rooms*

Examination rooms should be easily identifiable and accessible. The examination tables should be of the right size and height.

*Sample Collection Rooms*

Sample collection rooms should be easily identifiable and accessible. The rooms should be large enough to enable easy mobility within them. The toilets attached to sample collection rooms should be easy to use. The sample collection tables should be easily accessible.

THOUGHT FOR EVERY MOMENT

There are about 19,00,00,000 students in INDIA. If every student saves one sheet per day, 19,00,00,000 sheets of paper meaning 988 tons of paper will be saved every day. This is equivalent to saving 2748.54 tons of wood a day. This will lead to saving about 33,00,678 trees per year, SO LET US ALL USE BOTH SIDES OF THE SHEET even better adopt E-CORRESPONDENCE.

ATTESTED  
Dr. V.A. Kothiwale  
Registrar

KLE Academy of Higher Education and Research,  
(Deemed-to-be-University u/s 3 of the UGC Act, 1956)

*Wards*

Wards should be easily identifiable and accessible to people with different disabilities. Space in wards should allow easy mobility by wheelchair users. All fixtures should be at accessible heights. They should be obstacle free. Guiding lines should be available for people with visual impairment.

*Banks*

All counters should be easily identifiable and accessible. Counters should be at appropriate heights. The staff at the counters should be able to communicate with people with hearing impairments. The manager's office should be easily identifiable and accessible. Various forms should be placed at accessible counters and space should be available for the clients to fill the forms easily.

Automatic Teller Machines (ATM) should be easily accessible to clients with various types of disability. They should be placed in areas, which allow mobility for wheelchair users. They should be slip resistant and have grab bars.

*Hotel Rooms*

At least one room easily accessible should be located on the ground floor to enable rapid evacuation in case of emergencies. The room should be equipped with an alarm system. All fixtures and controls should be at accessible heights. The space in the room should allow mobility for a wheelchair user. The windows should allow unobstructed viewing for wheelchair users. Room facilities, like phones, fire alarms, wake-up alarms, etc., should be accessible to people with different disabilities.

*Cinema Halls*

Tickets counters and the hall should be easily accessible. Specific seats should be allocated to wheelchair users.

*Government Offices*

The public areas should be accessible to people with different disabilities. The counter staff should be able to guide people with different disabilities. Letter boxes should be accessible.

*Historical Sites*

The site details should be available in Braille. Trained guides should be available for people with different disabilities. Shops should be accessible.

*The Disability Access Audit Checklist*

The disability access audit checklist includes details that have to be looked into for carrying out a disability access audit. They must be completely and accurately filled out to carry out a meaningful audit.

The checklist has been divided into two parts. Part 1 (A to K) is for areas common to all buildings audited, while Part 2 (L to Q) deals with areas specific to locations, like banks, cinema halls, etc. It is non-exhaustive and should be adapted to specific needs.

The checklist must be filled in by answering " **yes** ", " **no** ", or " **not applicable** " to the

Sl No.	Observation	Compliance remarks with evidence.
1	GREEN ENERGY PLEDGE	Executed as below.
 <p><b>CARBON HANDPRINT - GREEN PLEDGE</b></p> <p>CARBON HANDPRINT is a way to conserve our energy resources, keep the environment clean, follow eco-friendly measures and physically challenged and specially skilled personal's manoeuvrability friendly.</p> <p>We the Principal, the Staff and Students, adopt responsible practices in our daily activities with due regard to the environment. We set and continually review objectives and targets for achieving our goal to protect our entire college premises in front, backyard and all other non-approachable areas of all primary and secondary pollutions.</p> <p>We seek to compile with safety and environmental regulations to implement inhouse standards to improve our environmental performance. We commit ourselves to the safe operation of all our working habits, be it in classrooms, library, canteen, on road, off road, in-campus out-campus as well as at our place of stay. We adhere to reduce environmental load by efficiently using resources, saving energy, reducing waste, encouraging material recycle, with special emphasize to minimising emissions of greenhouse gases, ozone depleting substance and particle matter.</p> <p>We endure to minimise environmental loads and adopt environmentally friendly technologies when ordering and purchasing necessary products and resources. We endure to attend educational programs and promulgate our close friends and colleagues to follow suite. We endure to ensure that we recognize the essence of this Green policy by actively and aggressively conducting workshops and training to all in environmental concepts. We make wide ranging social contribution to close association with the students, teaching staff, administrative staff, housekeeping staff by disclosing environmental information and supporting environmental consumption.</p> <p style="text-align: center;">Principal J.N. Medical College, KANER, Belagavi, Karnataka, India</p>		

THOUGHT FOR EVERY MOMENT

**ATTESTED**

There are about 19,00,00,000 students in INDIA. If every student saves one sheet per day, 19,00,00,000 sheets of paper meaning 988 tons of paper will be saved every day. This is equivalent to saving 2748.54 tons of wood a day. This will lead to saving about 33,00,678 trees per year, SO. LET US ALL USE BOTH SIDES OF THE SHEET even better adopt E-CORRESPONDENCE.

**DISCUSSIONS:**

GOOD PRACTICES:

Partially complied.

Renewable energy

The institute has been promoting Green Energy by purchasing renewable energy through third party initiatives. The agreement signed and the Utility bills indicate that the institution plans of increasing the stake in green power.

**OFFICIAL MEMORANDUM**

**Subj:** Allotment of wheeled energy generated by M/s. Daddanavar Global Energy Pvt. Ltd. 4 MW WTP at Chikkodi Tq, Belgaum Dist., for the month of September - 2020.  
**Ref:** 1. The Firm's 'C' Form No: DGEPL/9&B/C-Form/HESCOM/20-21/96-A Dated: 19.08.2020

As per the consent vide letter under reference approval is hereby accorded to wheel the energy to the following installation to the extent noted against it for the month of September - 2020.

S/No.	Name & Address of the Consumer	Division/ Sub-Division	Captive / New-Captive	RR No.	Time Slots	Units allotted in KWH
1.	M/s. Southern Ferro Steels Ltd. Belur Indl Area, Dharwad.	Dharwad/ RSD	Non-Captive	DRHT-13	8AM to 10AM 10AM to 6PM 6PM to 10 PM 10PM to 6 AM	1,40,000 2,80,000 80,000 0
2.	M/s. Tata Marcopolo Mines Ltd., Belur Indl Area, Dharwad.	Dharwad/ RSD		DRHT-14	8AM to 10AM 10AM to 6PM 6PM to 10 PM 10PM to 6 AM	71,680 1,36,160 26,160 0
3.	M/s. Tata Mines Ltd., Belur Indl Area, Dharwad.	Dharwad/ RSD		DRHT-24	8AM to 10AM 10AM to 6PM 6PM to 10 PM 10PM to 6 AM	22,000 36,000 25,000 67,000
4.	The Chairman, Arjun Sahakar Jeebh Gresi Trust.	Chikkodi/ Satalaga		SINGHT-36	8AM to 10AM 10AM to 6PM 6PM to 10 PM 10PM to 6 AM	
5.	The Principal, DNRC, Nohar, Nagan, Belagavi.	CSD-3 / Belagavi		HTS-46	8AM to 10AM 10AM to 6PM 6PM to 10 PM 10PM to 6 AM	
6.	Vijaykenth Dairy & Food Products Ltd.	Bathregal		BHLHT-43	8AM to 10AM 10AM to 6PM 6PM to 10 PM 10PM to 6 AM	

- This allotment of wheeled energy is subject to the following conditions:**
1. Rebate on scheduling units is not applicable as per tariff order.
  2. This quota of energy does not require billing as it is allotted from the energy banked by WTPs from their power plants. This quota of energy does not attract fuel escalation charges also.
  3. This is however subject to verification of post audit/ HT audit.
  4. This wheeled energy allotted does not attract any additional Z SMD charges.
  5. This quota of energy wheeled to those industrial consumers for whom KPTCL / HESCOM Ltd. has permitted to pay arrears in installments or at a later date and paid in time. But this should not be wheeled to installations having arrears due to pending Court Cases, appeals etc., and also to those installations having arrears for which KPTCL / HESCOM has not permitted installment facility.

## 1. ACKNOWLEDGEMENT:

SUNSHUBH TECHNOVATIONS PVT LTD., is pleased to express its sincere gratitude to the management of **KLE's JNMC Medical College, BELAGAVI**, for entrusting SUNSHUBH TECHNOVATIONS PVT LTD., with the assignment on Green Earth practices based on Educate, Practice, Advocate & Manage the resources in their educational organization.

We also wish to thank the officials and the maintenance staff for the help rendered during the energy flow study.

We would fail if we neglect to appreciate the sincere efforts put in by the Faculty

- Dr. Mahantshetti N S (Principal),
- Dr Manasi Gosavi. (Project Co-Ordinator)
- Dr. Manisha More

and the Students who against all odds have kept the college premises clean to the possible limits. Without the crucial and significant support from the fellow teaching team the energy savings and carbon footprint reduction would not be a reality.

We appreciate the Coordinated effort of Mr. V. Nishandar Chief Engineer, Mr.Prasad Thorat Electrical Engineer and his team of electrical staff. Mr. C K Patil, Civil Engineer and his team. Not to forget Mr. Anil Amminabhavi who took special interest in showing us the campus and the problems encountered in the campus.

With the motivational support of the management, ground realistic support from teaching team and sincere efforts of the students in incorporating the change (habits) and instructions, the college could effectively declare the reduction in Carbon footprint and optimize the waste reductions.

We are not in a position to compute the carbon foot print at this point of time as the basic information from each of the students is yet to be collected; however, **we will discuss the Carbon Foot print in the follow up compliance report.**

Wishing the team, a great success we deeply express our gratitude and heartfelt "THANKYOU" for allowing us to assess the energy flow scenario there by the GREEN STATUS.

Malikarjun A. Kambalyal. B.E.(E&C).

Certified Energy Auditors (EA-3485)

**2. LIMITATIONS:**

Our observations and recommendations tabled above are in the interest of conservation of Electrical Energy and Green Culture i.e. the reduction in CARBON FOOTPRINT. The compliance to the recommendations are to be reviewed and improved upon for the safety of the work staff and compliance of legal requirements as per Environmental rules and guidelines.

**3. AUTHENTICATION & DATE OF COMPLIANCE GREEN AUDIT:**

This GREEN Audit has been carried out on 26<sup>TH</sup> December 2020 under the instructions of Dr. Mahantshetti N S (Principal), and in the presence of supporting staff. The compliance audit has been carried out on various dates and the same should reflect in the geotagged photos.

**4. ABOUT GREEN AUDIT:**

**KLE's JNMC Medical College, BELAGAVI**, has asked SUNSHUBH TECHNOVATIONS PVT LTD., Hubli., to conduct the GREEN Audit for their Institution.

In this context, the management of the Institute represented by Dr. Mahantshetti N S (Principal) entrusted us the task of conducting the feasibility study to reduce energy consumption and adopt green habits.

SUNSHUBH TECHNOVATIONS PVT LTD., represented by Mr. Mallikarjun A. Kambalyal made a detailed study and readings of various appliances were taken and carried out the GREEN audit along with the safety parameters.

Based on the information available and the requirements put before us, it was decided to submit the report in two parts,

1. GREEN AUDIT where in pollution Preventive measures are necessary
2. ELECTRICAL ENERGY EFFICIENCY – CONSERVATION within the college

We hope the points presented will be self-explanatory, if there is need for any clarification, we are open for discussions.

There are about 19,00,00,000 students in INDIA. If every student saves one sheet per day, 19,00,00,000 sheets of paper meaning 380 tons of paper will be saved every day. This is equivalent to saving 2748.54 tons of wood a day. This will lead to saving about 33,00,678 trees per year. SO LET US ALL USE BOTH SIDES OF THE SHEET even better adopt E-CORRESPONDENCE

## 5. ONGOING STATUS:

It's an optimistic & highly dedicated team effort lead by the Principal & the senior staff who have initiated corrective measures and continue to dedicate all their wits & time to initiate Green Carpeting the entire college premises. It is also a fact that there do exist, few more short comings which however is unintentional & on further training & education.

With all due appreciation to the management , staff involved & cooperation by the students, we have made few suggestions which on implementation, will reduce, demand for water & electrical power. It will also reduce the existing level of pollution to bear minimum.

There is high potential among the students to be educated and spread the knowledge of going ZERO waste generation in their respective colonies and society they dwell in, contributing positively to the cause of

**NO WASTE – NO POLLUTION – NO HEALTH HAZARD.**

THOUGHT FOR EVERY MOMENT

ATTESTED

There are about 19,00,00,000 students in INDIA. If every student saves one sheet per day, 19,00,00,000 sheets of paper meaning 988 tons of paper will be saved every day. This is equivalent to saving 2748.54 tons of wood a day. This will lead to saving about 33,00,678 trees per year, SO LET US ALL USE BOTH SIDES OF THE SHEET even better adopt E-CORRESPONDENCE.

THOUGHT FOR EVERY MOMENT

There are about 19,00,00,000 students in INDIA. If every student saves one sheet per day, 19,00,00,000 sheets of paper meaning 988 tons of paper will be saved every day. This is equivalent to saving 2748.54 tons of wood a day. This will lead to saving about 33,00,678 trees per year, SO LET US ALL USE BOTH SIDES OF THE SHEET even better adopt E-CORRESPONDENCE

**OFFICIAL MEMORANDUM**

**Subj:** Allotment of wheeled energy generated by M/s. Doddanavar Global Energy Pvt. Ltd. (DMW) WPP at Chikkodi Tq, Belagavi Dist., for the month of September - 2020.

**Ref:** 1. The Firm's 'C' Form No. DGEPL/W&B/C-Form/HESCOM/20-21/100A Dated: 19.09.2020

As per the consent vide letter under reference approval is hereby accorded to wheel the energy to the following installation to the extent noted against it for the month of September - 2020.

Sl No.	Name & Address of the Consumer	Division/ Sub-Division	Captive / Non-Captive	RR No	Time Slots	Units allotted in KWh
1.	M/s. Southern Ferro Steels Ltd Belar Indl. Area, Dharwad	Dharwad/ RSD	Non-Captive	DRHT-03	8AM to 10AM	1,40,000
					10AM to 4PM	1,40,000
					4PM to 10 PM	80,000
					10PM to 8 AM	0
2.	M/s. Tata Metropolis Mines Ltd, Belar Indl Area, Dharwad	Dharwad/ RSD	Non-Captive	DRHT-74	8AM to 10AM	71,680
					10AM to 4PM	1,56,160
					4PM to 10 PM	28,160
					10PM to 8 AM	0
3.	M/s. Tata Mines Ltd, Belar Indl Area, Dharwad	Dharwad/ RSD	Non-Captive	DRHT-24	8AM to 10AM	22,000
					10AM to 4PM	36,000
					4PM to 10 PM	25,000
					10PM to 8 AM	47,000
4.	The Chairman, Ardhant Sahakar Evadi Girani Nivaran	Chikkodi/ Satalage	Non-Captive	SDGHT-36	8AM to 10AM	
					10AM to 4PM	
					4PM to 10 PM	
					10PM to 8 AM	
5.	The Principal, INMC, Nehru Nagar, Belagavi	CSD-3/ Belagavi	Non-Captive	HTS-46	8AM to 10AM	
					10AM to 4PM	
					4PM to 10 PM	
					10PM to 8 AM	
6.	Vijaykarnth Dairy & Food Products Ltd.	Ballhanga	Non-Captive	RHL-HE-43	8AM to 10AM	
					10AM to 4PM	
					4PM to 10 PM	
					10PM to 8 AM	

**This allotment of wheeled energy is subject to the following conditions:**

1. Rebate on wheeled units is not applicable as per tariff order
2. This quota of energy does not require billing as it is allotted from the energy banked by IPTs from their power plants. This quota of energy does not attract fuel escalation charges also.
3. This is however subject to verification of post audit/ HT audit
4. This wheeled energy allotted does not attract any additional 2.5MSD charges
5. This quota of energy wheeled to those industrial consumers for whom KPTCL /HESCOM Ltd, has permitted to pay arrears in installments or at a later date and paid in time, but this should not be wheeled to installations having arrears due to pending Court Cases, appeals etc., and also to those installations having arrears for which KPTCL / HESCOM has not permitted installment facility

	On Energy use evaluation.	Complied as per review on site  
	Unbalanced Load	Presumed to be complied by above observation. Needs to be reverified on commencement of college.
	Energy use (ABUSE): Need based Lighting. Occupancy sensors etc.,	Learnt that the indent has been raised and work allotment is in progress.
	Labtechnician training on Energy Use	On site traing is planed and should be possible on normalisation of the situation.
	See through windows	Partially opaque glasses have been done and rest of the areas the work is in progress.
	Personal Protective Equipment.	Complied as per below illustrations.

**1. ACKNOWLEDGEMENT:**

SUNSHUBH TECHNOVATIONS PVT LTD., is pleased to express its sincere gratitude to the management of **KLE's JNMC Medical College, BELAGAVI**, for entrusting SUNSHUBH TECHNOVATIONS PVT LTD., with the assignment on Green Earth practices based on Educate, Practice, Advocate & Manage the resources in their educational organization.

We also wish to thank the officials and the maintenance staff for the help rendered during the energy flow study.

We would fail if we neglect to appreciate the sincere efforts put in by the Faculty

- Dr. Mahantshetti N S (Principal),
- Dr Manasi Gosavi. (Project Co-Ordinator)
- Dr. Manisha More

and the Students who against all odds have kept the college premises clean to the possible limits. Without the crucial and significant support from the fellow teaching team the energy savings and carbon footprint reduction would not be a reality.

We appreciate the Coordinated effort of Mr. V. Nishandar Chief Engineer, Mr.Prasad Thorat Electrical Engineer and his team of electrical staff. Mr. C K Patil, Civil Engineer and his team. Not to forget Mr. Anil Amminabhavi who took special interest in showing us the campus and the problems encountered in the campus.

With the motivational support of the management, ground realistic support from teaching team and sincere efforts of the students in incorporating the change (habits) and instructions, the college could effectively declare the reduction in Carbon footprint and optimize the waste reductions.

We are not in a position to compute the carbon foot print at this point of time as the basic information from each of the students is yet to be collected; however, **we will discuss the Carbon Foot print in the follow up compliance report.**

Wishing the team, a great success we deeply express our gratitude and heartfelt "THANKYOU" for allowing us to assess the energy flow scenario there by the GREEN STATUS.

Mallikarjun A. Kambalyal. B.E.(E&C).

Certified Energy Auditors (EA-3485)

## **2. LIMITATIONS:**

Our observations and recommendations tabled above are in the interest of conservation of Electrical Energy and Green Culture i.e. the reduction in CARBON FOOTPRINT. The compliance to the recommendations are to be reviewed and improved upon for the safety of the work staff and compliance of legal requirements as per Environmental rules and guidelines.

## **3. AUTHENTICATION & DATE OF COMPLIANCE ENERGY AUDIT:**

This ENERGY Audit has been carried out on 26<sup>TH</sup> December 2020 under the instructions of Dr. Mahantshetti N S (Principal), and in the presence of supporting staff. The compliance audit has been carried out on various dates and the same should reflect in the geotagged photos.

## **4. ABOUT ENERGY AUDIT:**

KLE's JNMC Medical College, BELAGAVI, has asked SUNSHUBH TECHNOVATIONS PVT LTD., Hubli., to conduct the ENERGY Energy Audit for their Institution.

In this context, the management of the Institute represented by Dr. Mahantshetti N S (Principal) entrusted us the task of conducting the feasibility study to reduce energy consumption and adopt green habits.

SUNSHUBH TECHNOVATIONS PVT LTD., represented by Mr. Mallikarjun A. Kambalyal made a detailed study and readings of various appliances were taken and carried out the ENERGY audit along with the safety parameters.

Based on the information available and the requirements put before us, it was decided to submit the report in two parts,

1. GREEN AUDIT where in pollution Preventive measures are necessary
2. ELECTRICAL ENERGY EFFICIENCY – CONSERVATION within the college

We hope the points presented will be self-explanatory, if there is need for any clarification, we are open for discussions.

## 5. ONGOING STATUS:

It's an optimistic & highly dedicated team effort lead by the Principal & the senior staff who have initiated corrective measures and continue to dedicate all their wits & time to initiate Green Carpeting the entire college premises. It is also a fact that there do exist, few more short comings which however is unintentional & on further training & education.

With all due appreciation to the management , staff involved & cooperation by the students, we have made few suggestions which on implementation, will reduce, demand for water & electrical power. It will also reduce the existing level of pollution to bear minimum.

There is high potential among the students to be educated and spread the knowledge of going ZERO waste generation in their respective colonies and society they dwell in, contributing positively to the cause of

**NO WASTE – NO POLLUTION – NO HEALTH HAZARD.**

THOUGHT FOR EVERY MOMENT

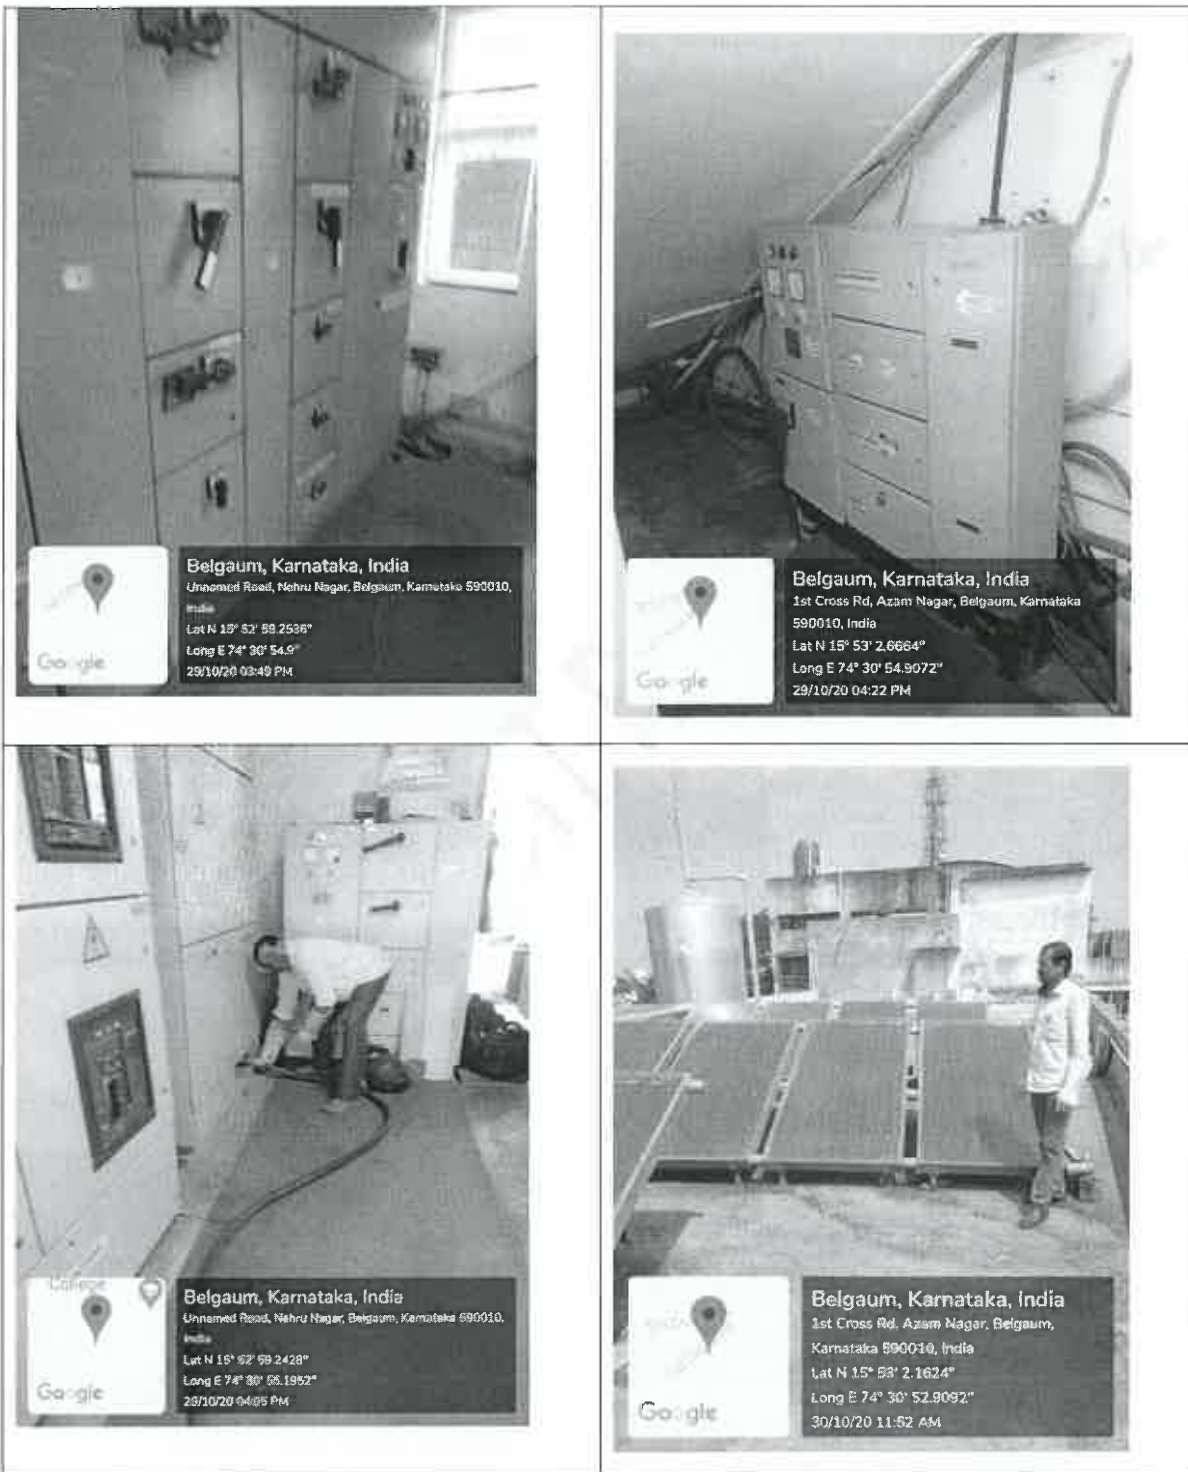

There are about 19,00,00,000 students in INDIA. If every student saves one sheet per day, 19,00,00,000 sheets of paper meaning 988 tons of paper will be saved every day. This is equivalent to saving 2748.54 tons of wood a day. This will lead to saving about 33,00,678 trees per year.  
**SO. LET US ALL USE BOTH SIDES OF THE SHEET even better adopt E-CORRESPONDENCE.**

## GREEN AUDIT REPORT

Sl. No	Items	Observations	Remark / suggestions
1	Energy conservation	Appropriate measures are taken University. Like solar water heater/lighting, water recycling system/rain water harvesting etc.	Suggestions for further conservations are annexed.
2	Solar panel	Solar panels are efficiently being used to provide 24 hours hot water facility to patients of KLE Dr.Prabhakar Kore Hospital, KLE Ayurveda Hospital and all Hostels of KLE University. Solar panels are also used for lighting purpose at KLE Ayurveda Hospital.	Suggested to install solar street lights in the KLE University Campus.
3	Water harvesting	KLE Ayurveda Hospital and KLE Pharmacy College Bangalore are having water harvesting system.	Suggested to provide water harvesting system for rest of the buildings of KLE University.
4	Air quality/Efforts for carbon neutrality	Adequate green area developed by university and its constituent units to neutralize air pollution.	Suggested to maintain the green area as it is or improve if possible.
5	Green Area & Plantation	Adequate medicinal as well as ornamental plants are planted at all the green areas of campuses of university as well as constituent units. Regular vanamohatsava programmes are being organized.	Suggested to continue vanamohatsav programmes periodically
6	Habitat conservation and creation	KLEU Shri B.M.K.Ayurveda Mahavidyalaya established Punarnava Nursery under the Department of Vrukshayurveda. The nursery is conserving rare and endangered medicinal plants.	Suggested to extend conservation activities to other constituent units.
7	Waste generation, management and disposal	Scientific method of collection segregation and disposal system adopted by KLE University as well as its constituent units including hospitals	-
8	Bio hazardous waste management	Bio hazardous waste is being managed as per the standards of Pollution Control Board under due certification.	-
9	Radioactive waste	Radioactive waste at KLE Dr.Prabhakar Kore Hospital is being disposed as per the guidelines of BARC.	-
10	E-waste management	Auctioned to certified company	-
11	Effluent treatment and recycling plant	Effluent treatment plant is available and is being maintained.	Suggested to provide similar plant at Shri.B.M.K.Ayurveda Mahavidyalaya, Campus.
12	Water management and economy of use	Automatic water level systems were adopted maximum. Water conservation messages / posters are being displayed at prominent places.	-

13	Environmental education	Community Medicine dept. of JNMC, Community Dentistry of VKIDS, Department of Swasthavritta of Shri.B.M.K.Ayurveda Mahavidyalaya and community department of other faculty and NSS Units of constituent unit conduct regular awareness & training program about Environment	Suggested to introduce radio programmes in respect to environment education through KLE University's Venu Dhavani.
14	Transportation and travelling practices	At prime areas of university campus, vehicle movement is banned and provided ecofriendly transport system for transportation of people. University also developed guidelines to minimize vehicle usage and given wide publicity for adaptation	Guidelines to conserve vehicle usage is annexed
15	Recognition/certification for environment friendliness	Certification was obtained from appropriate agencies for disposal of various types of wastes	Relevant certificate copies annexed.
16	Infection control measures	Appropriate infection control measures are adopted like periodical water testing, OT Swab testing etc.	-
17	NABL, NABH accreditation	KLE Dr.Prabhakar Kore Hospital's Diagnostic Lab Accredited by NABL. NABH Accreditation of KLE Dr.Prabhakar Kore Hospital and KLE Ayurveda Hospital is under process.	-

**General remarks** – KLE University is actively involved in promoting green campus. The efforts undertaken by the constituent units are remarkable. Like academic progress made by the university towards academic excellence, the University is also targeting to achieve total green campus and preservation of natural habitat. The efforts and steps taken by the University are satisfactory; however suggestions are made for further improvement.

### Green Audit - 2014

K. L. E. University, Belgaum, is taking strides in multidimensional progress and growth of society. A University with difference that takes social accountability and involves itself for social, environmental, intellectual and overall development of society. University through its constituent units entrusts environmental issues and controls the possibility of damage likely to occur. It actively controls the waste output and manages its suitable disposal. Unique initiatives are taken by developing green building and campus and reducing pollution at its end and setting example to others. University has its distinctive objective by way of its environmental accountability.

1. To provide an appropriate ambience for Institutes, which will help in maintaining environment friendly surrounding and developing green areas.
2. To further develop eco- friendly green campus
3. To preserve the habitat and nurture for further improvement
4. To promote and conserve energy, harvest rain water, reduce waste production
5. To educate all about importance of protection and preservation of environment.

### **Energy conservation**

University through its constituent units takes appropriate steps to reduce consumption of energy. LED bulbs and tubes are used in campus. 80% of conventional light fitting is replaced with T5 fitting and CFL. Remaining will be replaced within short period of time. AC and other electrical equipment installed are with 2 star rating. Hostel and staff quarters are installed with solar system. All the rooms are fitted with large size window to provide adequate light and ventilation, which reduces consumption of electricity. Every room is placed with request notice to switch off fans, tubes, AC when not in use. Electronic chock, regulators fitting also helps to reduce energy consumption. Use of solar panel and battery operated cart are the important initiative taken up by the University. Restricted and appropriate use of lift is also practiced. Total demand of power by University campus is 750KVA, however it never utilized to the maximum. University hospital uses HRU, Heat pumps, LPG for steam generation and running boilers and paperless office.

### **Solar panel**

Solar system is installed in all University hospitals, hostels and staff quarters which reduce use of geyser. The solar system utilized for water heating. Plan to install the solar panels for street light is under consideration.

## Water harvesting

Waste water is recycled after treating and is used for gardening and other purpose. Rain water harvesting is under consideration in all the new and old buildings and has already been installed in one of the constituent unit.

## Air quality/Efforts for carbon neutrality Plantation

University hospital has air pollution control equipment with wet venturi scrubber for arresting air pollutants. Campus has 4154 trees & avoids open burning of waste material in campus. Most of constituent units conduct vanmahotasva every year. On birthday of staff/students, constituent units encourage plantation of trees saplings. Use of 2/4 wheeler vehicles are banned for the students. Parking area for staff vehicle developed far from main building. Battery cart is made available to reduce the exhaust from vehicle. A passive air sampler is placed in the campus of one of the constituent units to detect the quality of air.

## Plantation of tree saplings

University campus has total 4154 trees. Most of constituent units conduct vanmahotasva every year. On birthday of staff/students constituent units encourage plantation tree saplings.

Area /institute	Number of trees

KLE Dr Prabhakar Kore Hospital and MRC, Belgaum	883
Shri BMK Ayurveda Maha vidayala, Sahapur, Belgaum	6343
Grand total	11387

### Green area

Total 1,05,288 m<sup>2</sup> green area is available in campus. Area is known as lung of campus having 5044 trees, plenty of herbs, shrubs, and grass land. Green area in KLEU College of Pharmacy Hubli is 1600sq mt, in Bangalore 6850 sq ft Maxican lawn and 6000 sq ft Elephant grass. Trace garden and courtyard garden is special feature of constituent institutes. 18,000m<sup>2</sup> Green areas are present in the University hospital.

### Habitat conservation & creation

Trees, which were cut for expansion, are being replaced by 10 fold saplings in number within the campus. Planned landscaping helps to maintain and restore the habitat within the campus. Some fossils, corals, plant samples, herbariums are conserved and placed in museums of Pharmacy College, Bangalore.

### Waste generation, management & disposal

Waste produced by constituent units is separated at source as biodegradable and non- biodegradable and disposed appropriately. Biodegradable wastes are composted & non-Biodegradable wastes are used as landfill. Recyclable wastes are disposed to authorized vendors. The administration is ICT assisted helping to reduce use of paper, which indirectly reduces burden on environment. Dust bins are placed at every nook and corner in the campus for waste collection and disposal.

## Biohazardous waste management

Segregation of waste done as per OSHA guidelines and collected in colour coded bags. Incinerator is used for disposal of biohazardous waste and ash generated is disposed in landfills. Hospital generates solid waste of approximately 282Kgs/day. Separate service block and waste segregation area created in University Hospital. Separate lift for transporting biomedical waste is available in University Hospital.

## Radioactive waste

Radioactive waste produced by the University Hospital is managed as per guidelines framed by government (BARC) and sent to authorize re-processors.

## E-waste management

University and its Constituent units minimize e-waste by proper maintenance and repair. For scrapping the waste condemnation committee thoroughly scrutinizes the need for scrapping the hard ware of computer and if found necessary, it is auctioned to certified companies for recycling or disposal.

## Effluent treatment & recycling plant

University campus has an effluent treatment and recycling plant (STP) of 1000M<sup>3</sup>/day capacity. The unit helps in recycling of 6 lakh liters of water /day and waste produced is used as compost for green area.

Registrar

KLE Academy of Higher Education and Research,  
(Deemed-to-be-University u/s 3 of the UGC Act, 1956)  
Belagavi-590 010, Karnataka

## Water management & economy of use

University has water treatment plant with capacity of purifying 2.25million Lt/day and similar arrangements are also made available in off campus institutions. The maintenance work is taken up round the clock by skilled plumbers to minimize leakages and waste of water. Recycled water is used for flushing in toilets, cleaning and gardening. Awareness programs and rallies are conducted on World Water Day by constituent units. Taps, showers, flush and other outlets are fitted with water saving arrangements. Each toilet in constituent units is fixed with display cards requesting to close the tap after use. Rain water is used for washing and gardening.

## Environmental education

The University has introduced 'Environmental Studies' as a core course for UG program in Pharmacy. The journal 'Earth' is subscribed by constituent units. Constituent units and Community medicine dept. and NSS Units conduct regular awareness & training programs about Environment conservation. World Environment day is observed every year. The campus is declared plastic free, smoking free and mobile free zone/area.

## Environmental information publicity

Awareness program like rally, Vanmahotsava, World No Tobacco day to save environment are conducted every year. Community medicine dept. and NSS cell conducts regular awareness & training program about Environment. Display of posters regarding water conservation, save electricity and other recourses in premises is done in prominent areas.

## Transportation & travelling practices

Mass transportation system is adopted by constituent units. All personal vehicles are banned inside the campus & provided with battery operated vehicles for transportation. Parking for vehicle is provided away from main working area. Bicycle use was introduced and 100 bicycles for the same made available to campus commuters. Walking is encouraged, and use of staircase in place of lift is encouraged in campus.

Staff and students are encouraged to commute to college in bus instead of own vehicle. Use of 2/4 wheelers are banned for students.

### **Recognition/certification for environment friendliness**

University hospital has received certificate for achieving efficient use of energy by conserving during the year 2008-09. Waste management has been appreciated by Health department. Hospital Garden received 1<sup>st</sup> prize for institutional garden from Department of Horticulture, Government of Karnataka. Garden of KLEU COP, Hubli has won many prizes; KLEU VKIDS garden also won many prizes and recognition. KLEU COP Bangalore has won Best Maintained Campus award from dept of Horticulture for 3 consecutive years. Main Garden of University also won certificates & trophies in various competitions.

### **Infection control measures**

Hospital has I C C for supervision and infection control. Fumigation is conducted in all the units' campus every month on regular basis, record of which is maintained by engineering department. Water testing conducted round the clock to assess purity by dept. of Microbiology, Pest control measures are taken up regularly, monthly Hostel and canteen inspection is done by Dept. of Community Medicine. All the constituent unit and University building are kept clean, by daily use of disinfectant used for cleaning floors and toilets.

### **NABL, NABH accreditation**

University hospital has acquired NABL accreditation for its labs, and NABH accreditation is under process.

### RAIN WATER HARVESTING

To conserve & augment the storage of ground water

To reduce water table depletion

To improve the quality of ground water

To arrest sea water intrusion in coastal areas

To avoid flood & water stagnation in urban areas

### **Storage Tank**

It is used to store water collected from the roof through filter. For small scale water storage plastic buckets, jerry cans, clay or cement jars, ceramic jars, drums may be used. For larger quantities of water, the system will require a bigger tank with cylindrical or rectangular or square in shape constructed with Ferro cement or cement rings or plain cement concrete or reinforced cement concrete or brick or stone etc. The storage tank is provided with a cover on the top to avoid the contamination of water from external sources. The storage tank is provided with pipe fixtures at appropriate places to draw the water to clean the tank & to dispose extra water. A provision for keeping the vessel to collect the water is to be made.

Sl. No	Items	Details
1	Energy conservation	Measures are taken by using CFL, T-5, LED etc.
2	Solar panel	All hostels & Quarters are fitted with solar heating systems
3	Water harvesting	Waste water is being recycled after treating
4	Air quality/Efforts for carbon neutrality	Planting of trees & avoiding open burning in campus
5	Plantation	4154 trees (Medicinal and botanical trees excluding bushes, herbs, Shrubs, flower pots))
6	Green area (in sq mtr)	105288 m2 in JNMC campus excluding Hospital area
7	Habitat conservation and creation	Trees which were cut for expansion are being replaced 10 fold in nos. within campus
8	Waste generation, management and disposal	Biodegradable wastes are composted & non Biodegradable wastes are land filled.
9	Biohazardous waste management	Incinerator is used at KLES Dr. Prabhakar Kore Hospital and MRC
10	Radioactive waste	Not applicable
10	E-waste management	Auctioned to certified company
11	Effluent treatment and recycling plant	Available 1000M3/day capacity
12	Water management and economy of use	Raw water is taken & treated in own water treatment plant 2.25 million Lt/day Round the clock skilled plumbers appointed to minimize leakages Recycled water is used for flushing in toilets
13	Environmental education	Community Medicine dept. and NSS Unit conduct regular awareness & training program about Environment
14	Environmental information publicity	-do-
15	Transportation and travelling practices	All personal vehicles are banned inside the campus & instead provided with battery operated vehicles.
16	Recognition/certification for environment friendliness	Garden has received certificates & trophy's in various competition
17	Infection control measures	Fumigation all the campus every month Water testing round the clock, Pest control measures is taken up. Water filters at mess, hostel, college, canteen inspected regularly by Dept. of Community medicine.
18	NABL, NABH accreditation	Hospital accredited by NABL and under process of NABH

2	Solar Panel	•Solar heaters are installed in hostels & quarters within campus.
3	Water Harvesting	-----
4	Air quality/efforts for carbon neutrality	University has taken steps to make campus carbon neutral by avoiding vehicles emitting carbon and using eco-friendly vehicles in the campus for transportation. Also, abundant trees have been planted in the campus for improving air quality.
5	Plantation	101 Trees
6	Green Area	3000Sq Ft
7	Habitat conservation and creation	Nil
8	Waste generation, management and disposal	Segregation of waste at source is done. Yes waste papers collected and sent for recycling. Garden waste used as compost
9	Bio hazardous waste management	Segregation of waste as per OSHA guidelines, Color coded bags for disposal, Waste sent to KLE Hospital incinerator.
10	Radioactive waste	Not applicable
11	E waste management	Old computers of college are collected at central stores. These computers are repaired and redistributed at schools located at rural areas for computer coaching purpose.
12	Effluent treatment and recycling plant	University has a centrally located water recycling unit where effluent or sewage water is recycled for the purpose of reuse. Compost
13	Water management and economy of use	All the efforts are made to make a judicious use of water. The sewage water is recycled and used for gardening to keep the campus green.
14	Environment education	Awareness by celebrating World environment day, Planting of saplings by public health dentistry and NSS Unit
15	Environment information publicity	Participation in garden competition conducted each year by State Horticulture Department
16	Transportation and travelling practices	Campus is No vehicle zone, use of battery operated cart, bicycles, walking is encouraged.
17	Recognition/certification for environment friendliness	College Garden is well maintained and has won awards from the horticulture department.
18	Infection control measures	As per OSHA guidelines, use of disposables when required, adequate sterilization, Barriers etc.
19	NABL, NABH accreditation	-----

Sl. No	Items	Details
1.	Energy conservation	Institute building is Eco-friendly with good ventilation and natural lighting as it is designed for maximum utilization of natural resources. The Institute uses CFL tubes & bulbs to conserve energy. All the rooms have display boards instructing to switch off fans, lights, and AC & computer terminals when not in use
2.	Solar panel	Installed in hostels and staff quarters campus
1.	Water harvesting	College building has rain water harvesting facility, which tracks water from the roof to the ground.
2.	Air quality/ Efforts for carbon neutrality	Plants in and around the Institute campus are planted to neutralize the carbon. The Institute is under the process of developing terrace garden for better absorption of carbon released. The staff & students are encouraged to use local transport system for commuting to & fro from Institute. Institute provides bus services for clinical postings & discourages use of personal vehicles.
3.	Plantation	There are 15 Old botanical trees. Plan to plant 40 new evergreen trees in premises. Terrace garden will be developed of 1200 sq ft.
4.	Green area (in sq mtr)	3000 sq ft under progress
5.	Habitat conservation and creation	Plan to plant more trees in green area to create natural habitat.
6.	Waste generation, management and disposal	Dry non hazardous waste generated at institute premises, Which is collected and disposed through local waste disposal facility.
7.	Bio-hazardous waste management	The Physiotherapy OPD located in the hospital manages the bio hazardous waste as per the University Hospital policies. The bio hazardous waste produced by Physiotherapy department is negligible and sent to the incinerator at KLE Dr Prabhakar Kore Hospital & MRC.
8.	Radioactive waste	Not applicable
9.	E-waste management	E-waste is auctioned for recycling to related agencies, for the purpose of disposal and/or for reuse in future. The maintenance of computers & instruments are done on regular basis to reduce E-waste.
10.	Effluent treatment and recycling plant	Not applicable. Common facility available at KLE Hospital.
11.	Environmental education	World Water Day rally held on 22 <sup>nd</sup> March 2014 and water harvesting awareness was done.
12.	Environmental information publicity	Awareness on water harvesting through placards along with lecture by Shree Mallikarjun Shetty
13.	Transportation and travelling practices	Institute bus provided to reduce use of individual vehicle. Two wheelers & four wheelers are prohibited for staff & student
14.	Recognition/ certification for environment friendliness	Nil

15.	Infection control measures	The OPD of Physiotherapy is located in hospital and follows the safety measures as per the guidelines made by the hospital. Hand hygiene is strictly followed for infection control. Barrier Physiotherapy is used to prevent infection to both the therapist as well as the patients. Pest control measures and fumigation of the staff quarters and student hostels are done on regular basis. Water purity analysis is undertaken frequently to control water borne infections.
16.	NABL, NABH accreditation	Teaching hospital KLES Dr.P.K Hospital and MRC has been accredited by NABL and is in process of accreditation by NABH.

Sl.No	Items	Details
01	Energy conservation	Each faculty member is allotted with rooms of Institute who will report any leakage in water or electricity. Compact fluorescent light bulbs are used in Institute. There are strict instructions to staff and students to switch off fans lights and computers when not in use.
02	Solar panel	Solar panels are installed in student hostels and the same is under process for staff quarters.
03	Water harvesting	The various models are available in the institute to educate the students and the society regarding rain water harvesting. In consultation with civil engineering department plan to install rain water harvesting facilities at student hostels and staff quarters for the effective use of water.
04	Air quality/efforts for carbon neutrality	Institute has taken many efforts in maintaining air quality and carbon neutrality like : <ul style="list-style-type: none"> <li>➤ Institute is well ventilated and curtains and other items are used less to avoid air block in the building.</li> <li>➤ Energy saving bulbs are used in the institution.</li> <li>➤ Institute has good library facility which prevents the students to purchase more books which will helps to protect trees.</li> <li>➤ Institute has strict policy in preventing paper waste like reverse side of the paper is used for printing.</li> <li>➤ Institute has a good indoor and outdoor garden and observes "Green Day", in most of the occasions plants are gifted to the faculty members</li> </ul>
05	Plantation	Institute observes Green Day, World Environment day. The NSS unit organizes many environmental awareness programmes for the public. Every year more than 200 trees are planted in many schools and road side of Belgaum.
06	Green area	
07	Habitat conservation and creation	Institute plan to plant sapling to conserve habitat.
08	Waste generation, management and disposal	KLE Hospital has well organized waste management and disposal plant.
09	Biohazardous waste management	Biohazardous waste of hospital is managed well by use of incenerator.
10	Radioactive waste	Not Applicable
11	E- waste management	Institute has a committee which inspects and decides to repair or reuse of electronic goods or to be condemned.
12	Water management and economy of use	Water literacy programmes have been organized in the Institute and in rural areas to create awareness and waste water is utilized for gardening.
13	Environmental Education	Institute has many active groups like NSS, Department of Community Health Nursing and Student Council which regularly conducts programmes like World environmental day, tree plantations, green day celebration, save tree programmes for public, donating plants to schools ect..
14	Environmental information publicity	By observing the environment related programmes, by organizing water literacy programmes in schools in villages and to farmers the institute creates awareness among

		public.
15	Transportation and travelling practices	There is a facility of battery cart for use within campus. Institute has its own vehicle for students to pick and drop which prevents the students to use their vehicles and there are strict rules to not bring vehicles to the college. Most of the faculty members are staying within campus which further prevents them from using vehicles. Use of bicycles is encouraged.
16	Recognition/certification for environment friendliness	Institute conducts emission tests of college bus regularly
17	Infection control measures	Institute actively participates in infection control programmes in KLE's Dr. Prabhakar Kore charitable Hospital and MRC Belgaum.
18	NABL, NABH accreditation	KLE's Dr. Prabhakar Kore charitable Hospital and MRC has NABL accreditation and under the process of NABH accreditation.

## Save fuel derive

### Save Fuel-Save Country-Save Environment

1. Use public transport for commuting
2. Share vehicle among residents of same area
3. Use cycle, keep yourself and environment fit
4. Observe No Vehicle day
5. Carry lunch to reduce repeated use of vehicle
6. Use battery car/cart
7. Walking - health and environment friendly

## Future Plan

1. Wormi culture for waste management, adding more area for composting.
2. Planting 1000 tree in next 5 years.
3. Total water harvesting in all the campus of University.
4. No parking on double road, instead parking will be developed behind Dental college
5. Battery cart for full campus, facility will be extended to all visitors, patients, faculty and students.
6. All the lighting will be with LED. CFL and T5 fittings, electrical equipment with 5 star rating will be used.
7. More extensive use of solar panels.

APPEAL

Date: 6-7-2013

There are around 350 Employees & 500 Students daily attending duties and classes regularly in the institution. Besides two college buses running 5 trips a day, around 20 four-wheeler and 200 two-wheeler vehicles are being used for transport which amounts to huge fuel consumption.

It is proposed to initiate following conservative measures to reduce the fuel consumption

01. To utilize public transport wherever possible
02. Nearby employees and students, to utilize common transport i.e. if two students / staff are staying nearby, can use one vehicle every alternate month, week etc
03. Employees and staff residing nearby, to utilize cycle or else if not possible may use public transport
04. To use public transport atleast once in a week
05. Observing one day as "no vehicle" day
06. Employees and students staying faraway can bring lunch boxes to avoid afternoon trips

All the employees and students are requested to involve actively with constructive mind and to adopt the possible conservative measures.

The staff and students who adopted any of the above suggestions or any other method by which fuel consumption is minimized are requested to pass on the information to the undersigned with the details, so that the consolidated information and the volume of fuel saved will be published as KLE Ayurveda initiative so that other institutions may also adopt.

"Let us join hands to build our Nation"

To,

All Employees of College, Hospital & Pharmacy  
All Students - for information
