

## **Report on Quality initiatives, sustenance and enhancement of the IQAC**

Since its establishment in 2007 (before the first cycle of NAAC). IQAC has been looking into quality initiation, sustenance and enhancement measures in Institutions system and work process. IQAC has been making conscious, consistent efforts to bring in quality measures in academics, Research and administrative patterns. The catalytic activity of IQAC has been able to bring in following initiatives in the Institution's process.

The academic initiations and sustenance measures have been because of regular interactions with Office of Director, Academic Affairs, Controller of Examinations, and University Department of Education for Health Professions. The interactions have been able to define newer trends and job opportunities based on which many new programs have started. In the year 2023 16 such programs have started. The completely automated exam section has many reforms with latest one being e-pad exams.

The research quality initiatives and sustenance and enhancement measures have been due to continuous and regular interactions with R&D cell that functions based on UGC Guidelines. The Institution is now registered its IIC with MoE and has obtained a star rating. The campus has a new Institution Innovation Cell that has been established in association with IIT, Kanpur. The research seed grant has increased over the years.

The administration has been largely e-governance. All applications and correspondence of the University is paperless. The campus also has been sustaining and improvising the environment sustainability measures through its regular green and energy auditing's being done through Government approved auditor.
