KLE ACADEMY OF HIGHER EDUCATION & RESEARCH,
Deemed-to-be-University, Belagavi

Prospectus

2017-18

Chancellor

For nearly a century now, the KLE Society has rendered Yeoman services to the cause of education. The seed was sown in 1916 with the establishment of an institution in the educationally ill-served region of North Karnataka. Today, that one seed has grown into a virtual forest with over 250 institutions in its fold.

Over the years, the KLE Society has never lost sight of the purpose that saw it come into being “Learning that transforms individuals and in turn transforms society at large.” This deep rooted desire to make a positive difference has resulted in a range of institutions that span everything from kindergarten to post doctoral research.

In 2006, the KLE Society had the satisfaction of gaining recognition from the University Grants Commission (UGC) for the KLE Academy of Higher Education & Research. The University takes immense pride in its curriculum and endeavours to provide internationally accepted education and healthcare practices. A new chapter now dawns at the KLE Society with the launch of the KLE Technological University (Under Karnataka University Act, 2013)

Being at the helm today, I follow the foot steps of many illustrious predecessors who have nurtured the vision of the founders. I am humbled by all that has been achieved by those before me. The achievements are, however, a source of inspiration too, in the sowing of new seeds, while carefully tending what has already grown.
