Feedback Obtained
<p>• Feedbacks are obtained from all the stakeholders like academic peers, alumni, students, external examiners and subject experts. • End of every academic year, feedback is obtained from students through validated format on the academic offerings which forms a vital input for design and redesign of the curriculum. Students also give the feedback on the infrastructural facilities, hostels, library and other learning resources. Analysis of this feedback is used for the betterment of facilities. • Analyses of feedbacks are carried out by computer aided software in all constituent units. • The analyses of feedbacks and specific recommendations by individual department regarding relevance, correctness and redesigning are forwarded to concerned Board of Studies and then to Academic Council for its consideration. • The analyses of feedbacks have helped to identify the strengths and weaknesses and the same is used to enhance the quality of services. The orientation programs on curriculum design and development and analyses of feedbacks using computer aided technology are conducted regularly by UDEHP. • Workshops on feedback assessment and analysis are also conducted. The feedbacks obtained from students have been utilized to bring about the contemporary change in the development of curriculum. The meetings of PTA are conducted regularly and feedbacks are obtained from the parents regarding the hostel facilities, academic performance, infrastructural facilities and other learning resources.</p>

### 2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The institution has a wellstructured tutor ward system for student support and mentoring. The functional features of the program are: To be compassionate and caring towards students. To create a healthy environment for students to nurture their academic talent through constant mentoring. To bring down the dropout rate, boost the morale of students by counselling and personal attention throughout the course. To create a homely environment free from harassment. To enable students in identifying skills, interests and aptitudes. To provide information about further course prerequisites, financial aid, academic planning, entrance examinations, etc. To provide information about specific occupations, career planning, conducting a job search, etc. Mentorship program is successfully being carried out in all the constituent units and has led to overall development in the academic performance and personality of students. The mentorship is completely managed by the faculty of the college through Contineo software. The mentor – mentee meeting is once a month on decided date and time or more if required. The software displays the name of the student, attendance and internal assessment marks. The mentor can review these and enter comments about the progress made by the student and suggestions and review if required any. Each student is allotted a mentor during the first year of admission to the UG course, which continues till the completion of course. Each mentor shall have a maximum of 15 mentees. Postgraduates are mentored by their respective guides. The mentors report to the faculty in charge of mentorship program about their meetings with the students. The students appraise their mentors with regard to their curricular and extracurricular activities on a quarterly basis. The mentors keep in contact with their parents and guardians

whenever necessary. Issues of personal nature are also addressed by the mentors. Senior students also act as mentors for junior students. The mentors meet the mentees regularly, record the proceedings and counsel them. The mentors update the mentee's parents directly or through the principal about the progress of the mentees. Aspects of Mentors Review of His / Her, Mentees Attendance. The mentors monitor the attendance of the mentees. Mentors advise and take necessary followup actions with regard to students. mentors also address the academic matters of mentees dealing with previous academic performance, internal assessment marks, semester/annual results and remedial classes, if necessary. mentor interacts with the mentees who have scored less in their internals and advises them to improve their performance. Parents /guardians are informed about the performance of their ward. Other areas of care The mentors also look into behavioural and discipline matters, health and overall development of the mentee as well as, extra and cocurricular achievements. Care and Counselling The mentor during the periodic review meeting counsels the students. In cases where expert care and counselling is required, the mentor consults the counsellor appointed at the university. The mentors encourage the mentees to develop and channelize their skills and talents through an appropriate forum or activity of the University sports, extension activities, workshops, conferences, association activities etc.

development activities of the students.

- Best scientist, research awards, provision of sabbatical leave encourage the faculty to pursue research, visits to higher research centres in premier institutions within the country and abroad.

#### Library, ICT and Physical Infrastructure / Instrumentation

- Wifi campus with automated library, resources like MedRC Server, Helinet, Science Direct, Access to Cochrane database, Institutional Repository, INFLIBNET, "Sakshat.ac.in", through NMEICT have made learning more meaningful and has been encouraging clinical learning/EBM practice.
- Information and Communication Technologies are integrated by way of networking, access to internet, virtual library and e learning resources. Institutions continue to be equipped with the ICT based devices to make learning a vibrant experience.
- Well equipped institutional buildings for academics, Quaternary care 2400 bedded hospital along with latest facilities have been able to provide health care to the needy of north Karnataka and neighbouring states.

#### Human Resource Management

- Institution has implemented e governance in areas of planning and development, administration, finance and accounts, student admission, support and examination.
- Admirable rate of retention of faculty for all programs speaks for excellent human resource management of the University that has taken care of the increased demand ratios for all programs seen over the years.
- University has well qualified pool of human resource. Emphasis of the University has been on employee's creativity to maximize his / her performance.
- GLP workshops sponsored by Ministry of Health Family Welfare under the scheme of Human Resource Development for Health Research are being conducted regularly.

### 6.2.2 – Implementation of e-governance in areas of operations:

E-governance area	Details
Planning and Development	plans for development of student, faculty and stakeholders is taken up at the start of the year. Any infrastructural augmentations, procurement of equipments etc. are planned at the beginning of the year

Administration	All circulars, intimations of the University are through email. HRMS software helps in e-governance.
Finance and Accounts	The finance section is automated. The office of finance uses Accounting software Tally ERP, ERP9, Mastermind software, Inward outward software, TA Bill soft wares for the routine work.
Student Admission and Support	Minimum human intervention is ensured in conduct of AIET. The software "Contentio" helps management of student attendance, internal assessment marks, eligibility to appear for summative exam, student feedback forms, student mentorship programme etc.
Examination	The examination section is completely automated. The software EMS is installed to manage the process of examination like, filling up forms, generation of hall tickets, viewing of exam results, generation of temporary marks sheets etc.

7.1.2 – Environmental Consciousness and Sustainability/Alternate Energy initiatives such as:

Percentage of power requirement of the University met by the renewable energy sources
<p>Maximum power requirement of the University is met by the natural energy resources. • Use of solar energy for quarters and hostels. • The administrative offices, student hostels and staff quarters are fitted with CFL bulbs, T5 fittings for conservation of energy. • Most of the major electrical equipment's used in the campus are energy efficient. • All buildings have standard sized windows and doors for good ventilation and lighting. • All the rooms have instruction boards to switch off fans, lights, and AC and computer terminals when not in use. Use of renewable energy • There is a central boiler unit which utilizes energy generated by incineration of hospital waste and which in turn, generates dry and saturated steam for the laundry, C. S. S. D and main kitchen equipment's and hot water to all wards and OTs. • Multiple solar panels for electricity and water heating. • Channelling the water from the roof into the ground and maintaining sink pits at different conducive places in the campus for recharging ground water. • Water recycling unit purifies the waste water, and the same is used in maintenance of the gardens and lawns in the campus. • NSS unit and community departments use the rain water harvesting model to educate the students and the society regarding rain water harvesting. Solar panels • The campus has solar panels at multiple places. • Solar water heaters are fitted in all the staff quarters and hostels. Efforts for carbon neutrality • Regular plantation of trees specially on birthdays. Presently, there are 12,000 trees in the campuses, which has increased absorption of carbon dioxide emitted in the atmosphere. It has provided an effective screen in covering carbon inflow. • The college has vehicle free zones and battery operated buggies for transportation. • Institutional vehicles undergo regular emission testing. • Most of the major electrical equipment's used in the campus are energy efficient which reduce CO2 emission. • Beautiful garden with musical fountain occupying an area of 21 acres. • Pharmacy colleges and Ayurvedic college of the University have herbal gardens. Total plants 6434, genera: 325, species 434, endangered plants 14 and rare plants 67. • Adequate measures are taken to protect the trees in the surrounding area of the institute. The</p>

biohazardous waste is managed effectively. • Waste disposal system in the hospital is based on the guidelines of NABL/NABH. • The staff and students are trained in waste disposal management. • The institutions strictly follow the state government rules for management of biohazardous waste. • The hospital has an incinerator which takes care of the biohazardous waste.

#### 7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

• The University has been conducting green audit of its campuses and facilities, and regularly formulates action plans to have an ecofriendly and green campus. • University maintains clean campus by adopting Swachha Bharat Abhiyan movement. Every Friday, all the faculty and staff members dedicate themselves and involve towards shramadan cleanliness drive for two hours for the same. Campus is certified 3rd 'Cleanest campus' in the country by MHRD. • University has an ecofriendly, vehicle free campus with battery operated vehicles for easy access of differentlyabled persons to the college and hospitals. • Green areas and Lung spaces in hospitals and college premises. • Lush green lawns and herbal drug plants in the campus. • Sprinklers are used for even and uniform watering of the lawns and reducing the heat in premises. • Water recycling unit purifies the waste water, and the same is used in maintenance of the gardens and lawns in the campus. • Sewage treatment plant of 1000 m3/day capacity is functional in the hospital which helps to utilize the sewage from the hospital using the activated sludge process by extended aeration system. Treated sewage after chlorination is pumped for gardening in hospital • The college has vehicle free zones and battery operated buggies for transportation. • Plantation of trees on birthday of faculty members • Campus is smoke / pollution free • Mobile free campus for students during office hours • Encouragement for use of recyclable plastic bags in the campus • Ban on use of tobacco and tobacco products in the campus • Recycling of plastic water bottles • Encouragement for use of bicycles and battery operated vehicles • The inmates of the campus conduct Plantation drives • The NSS unit conducts house to house training for segregation of waste for the inmates of the campus

#### 7.2 – Best Practices

##### 7.2.1 – Describe at least two institutional best practices

1. Faculty Development Programs: An initiative by University Objectives : a. To train the health science professionals in basics and advances in educational science and technology. b. To develop competence in clinical and educational research. c. To achieve excellence in patient care, through evidence based practice, clinical decision making and good clinical practice. d. To impart leadership qualities, social and executive communication skills in order to achieve continued professional excellence. 2. Context : Under the ambit of UDEHP, the educational subunits of the Constituent Colleges such as, Department of Medical Education (DOME), Departmental of Dental Education (DDE), Department of Ayurveda Medical Education (DAME), Department of Physiotherapy Education (DPE), Department of Nursing Education (DNE) and Department of Pharmacy Education (DPHE) conduct regular educational programmes to cater to the needs of the respective health science professionals. 3. Practice : • The professional development initiative for the faculty by UDEHP started soon after the establishment of University, one of its kind in the country. The DOME of JNMC is one of the earliest centers to begin faculty development training program in the year 1989. The said department has conducted ten international workshops in collaboration with University of Illinois, Chicago, USA. • To date, UDEHP has trained more than 5500 professionals under such educational

programs. • The Department has also catered to the needs of the postgraduate students by conducting both, basic and advanced training programs in research methodology and Medical Education Technology. • All staff have been trained towards outcomebased education. • Analysis of the feedback on these programs by the participants is highly encouraging and has shown that there is improved personal and professional development interms of, knowledge gain, skills acquired, enhanced communication, organizational and managerial skills. 4. Evidence of Success • Many of the innovative practices related to education, healthcare and research have been implemented at various levels, after they were learnt through faculty development programs, like practice of Evidence Based Health Care, implementation of OSCE/OSPE at internal examination, development of various curricula, incorporation of ICT in the classrooms, development of quality MCQ banks, etc. The innovative practices of UDEHP have been emulated by other higher education institutions. • DOME has been functioning as MCI recognized regional training centre in imparting basic medical education technology for teachers of 15 medical colleges ear marked by MCI. • DOME has also been recognized as a Nodal Center by MCI for training teachers of 39 medical colleges of Karnataka, Andhra, Telangana and Goa in advanced medical education technology. • Department of Pharmacy Education is approved by AICTE as National Nodal Centre for training of the teachers in pharmacy for the years 2010 to 2013. • Fourteen teaching modules for inservice staff nurses are regularly being conducted by UDEHP. 2.PUBLIC PRIVATE PARTNERSHIP IN HEALTH CARE AN INITIATIVE BY KLE ACADEMY OF HIGHER EDUCATION AND RESEARCH: TO TAKE THE ADVANCES IN HEALTH CARE TO THE UNREACHABLE Objectives a. To get insight into the community health profile. b. To provide the same quality of health care to the unreachable population as that is provided at corporate /advanced health facilities. c. To create awareness and educate the community about health / care. d. To update / improve the knowledge skills and attitude of the community health care providers e. To strengthen effective communication network between primary care facilities to tertiary care facilities f. To improve the overall health profile of the community. context: g. To achieve the Millennium Development Goal 4 and 5. h. Every health care institute must strive in preventing the deaths and disability by providing quality care. i. The main reasons for poor outcomes are 4 delays: i. Delay in seeking care ii. Delay in diagnosis iii. Delay in transfer iv. Delay in effective treatment at higher facility j. Need for comprehensive health care: which include dental, physiotherapy, pharmacy, ayurveda along with modern medicine. Practice • In 1999, the milestone collaboration was established between this institute (JNMC) and University of Illinois which helped to strengthen the collaboration. • Due to the experience of HRRCC - 215 and with some exposure to field research experience with ICMR since 1984, it was possible to practice. • The faculty underwent training in research methodology through ICMR by CDC 1996. • A public private partnership between the institute and district health administration made humble beginning to work with 21 sub center (ANM's) areas of 4 PHCs in Belgaum district from 2001on mesoprostoltrial. Now, it covers more than 18,83445 population and has reduced death rate drastically. The outcome was not a single maternal death in 1620 deliveries though there were >30 referrals. • Institute established the Research Foundation. • Important areas for improvement were identified • Faculty members are efficiently trained • Involvement of public sector workers in the team • Use of available facilities and system practices : village health committees, monthly meetings of staff, surveys, Married Woman of Reproductive Age (MWRA) (eligible couple), etc. were further strengthened. • Community health workers skills and knowledge updated by training. • Support and permissions from higher health officials - state district and local obtained • Involvement of elected representatives as ascertained. • Community awareness and education by series of meetings, discussions were arranged through health care providers • Proper network with peripheral health workers and central team

members and with district health administration with improved communication details was developed. • Provision of financial incentives for the extra work of CHWS and support staff was made. • Quality health care with human touch at the tertiary facility was provided. • Feedback was obtained and necessary corrective measures were taken. Evidence of success i. Not a single maternal death out of 1620 deliveries in Misoprostol. ii. Government of India brought the changes in its guidelines and accordingly misoprostol drug was included for prevention of postpartum hemorrhage, where injectable oxytocics are not available. iii. Now this Drug is used in more than 26 countries. iv. WHO included Misoprostol in essential drug list. v. ANM's guidelines recommended. vi. Published in LANCET in Oct2006 with impact factor of 39.53 and citation index of 254. First Breath Study : vii. Reduction in NMR and PNMR viii. Navajet Shishu Suraksha Karyakrama (National Program) is an outcome based on this study. ix. Innovative approaches to see and examine the newborn within 24 hours of birth. x. Process of tracking every pregnancy in the community was initiated in this study, xi. The results published in New England Journal of Medicine (NEJM) in 2010 with impact factor of 54.42 and citation index of 139. k. Emergency obstetric and new born care (EMNOC) i. The project Improved the skills and knowledge of CHW's in maternal and new born care. ii. It also improved home based life saving skills in the community members. iii. This project reduced PNMR, NMR and MMR in the local area thus, strengthening the NRHM programme. l. Maternal Newborn Health registry (MNH). i. More than 150000 pregnancies are enrolled and tracked up to 42 days after delivery with 99.9 follow up. ii. This is the basis of data for many interventions to take up in community. iii. Today, because of this we are able to provide the correct indices rates on 1. PreTerm Labor 2. Neonatal Mortality Rate early Late 3. Still birth rate 4. Maternal Mortality Rate. 5. Miscarriage rates, etc. m. Antenatal Corticosteroid Trial (ACT) i. Helped in identification of women with Preterm Labour (PTL) in the community. ii. Improved use of Antenatal Corticosteroid which improved the new born survival. iii. Promoted the activities of CHW's through pregnant women and mothers meetings. iv. Created awareness among the scientific community with reference to morbidity and mortality in babies born after the preterm period. v. Published in LANCET in Oct2014. n. Helping Babies Breathe (HBB) : i. This project developed the skills in CHW and care providers at various levels of healthcare facilities including, tertiary care facilities for new born resuscitation and care. ii. This improved the newborn survival iii. The daily practice of this program brought near perfection in the skills. iv. The success of this procedure made to incorporate this program into the curriculum. v. The manuscript based on this program is under review for publication. o. Preconceptional nutrition (women first): i. Promotes optimization of health of a woman before conception. ii. Reduces adverse pregnancy outcomes iii. Improves the maternal and newborn outcomes. iv. Ensures healthy baby to a healthy mother. 1 Today this PPP has become the role model for many national and international agencies for operational research in the community. 2 This has provided forum to conduct/implement through operational research to provide evidence based quality intervention to the unreachable with objective to improve the overall health care. 3 Newer simple devices were developed and being used. 4 Safe delivery kits are being provided 5 Blood loss measurement BRASSV Drape was developed. 6 Provision of international standard-Baby and women weighing scale, height measurement instrument to all PHC areas of this PPP. 7 Simple BP apparatus to measure blood pressure by ASHA's through CLIP TRIAL. 8 Importantly, this PP partnership brought up changes in curricular teaching learning methods and improved the research culture with many publications in high impact factor journals.

### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

KLE Society, the parent society of University was established in November 1916, is a public charitable trust registered under Bombay Trust Act 1860. It was started by seven dedicated Teachers and three founder patrons. The sole aim of KLE Society was to impart education to the socially and educationally backward region of North Karnataka and with the ideology of truth, love, service and selfsacrifice. Today, KLE Society is an organization with 254 institutions in various parts of the country of global reputation, imparting education from Kindergarten to Postdoctoral courses in almost all areas with a faculty strength of 16,000 teachers educating 1,25,000 students from all over the world for its philanthropy and charity. The society has empowered local community and has been providing excellent health care facilities. The KLE Academy of Higher Education and Research was established in 13th April, 2006. The vision of the University has been: "To be a university of excellence, ever in pursuit of newer horizons to build confident, knowledgeable, self-reliant global health care providers with global competencies through assured quality value based education, ethical patient care and research". Since its inception the Institution is striving to meet its Vision through various road maps, stringent discipline, adoption of newer technology both in teaching and health care. The Medical, Dental and Ayurveda hospitals deliver affordable, ethical healthcare to the needy and under privileged, to fulfil the societal obligation. The teaching hospital has been instrumental in revolutionizing healthcare in the region of North Karnataka and beyond by establishing a state of the art 2400 bed Hospital Medical Research Centre which has evolved into a quaternary care hospital catering to the needs of about 70,000 inpatients and 9 Lakhs outpatients, annually. Through Institute of Physiotherapy has rehabilitation center for artificial limbs, artificial prosthesis. The health care has also been able to reach the community by adoption of three primary health centres and three urban health centres to provide health services to the community. Hospital implements many Government funded projects. The University is well reputed in its research output with a sizable number of publications in reputed journals and patent in many health care products. It has a rich and vast scope for Community/ Epidemiological studies. It has a well managed MNH (Maternal and New Born Health) Registry for North Karnataka Population. The Scope of research and collaboration in Traditional Medicine and Integrated Medicine is plenty which can be well shared with any international Universities. Central Research Facility of KLE Ayurveda College has been recognized as approved ASU (Ayurveda, Siddha, Unani) Drug Testing Laboratory by Department of AYUSH, Government of India. One of the best practices of the University has been "To take the advances in health care to the unreachable." The concepts like PPH, First Breath Study, Emergency obstetric and new born care (EMNOC), Maternal Newborn Health registry (MNH). Antenatal Corticosteroid Trial, Helping Babies Breathe, Preconceptional nutrition (women first) through research unit have made remarkable impact on the community health and has policy decisions at National and International level to its credit.
