2015-2016

Students Research projects

Short term projects.

Please mention Completed (C) ; Ongoing (O)

JNMC	Undergraduate Projects				Postgraduate Projects	
	Name of student	Title	Name of student	Title		
	Dr. Samikasha Dubey	A comparative study for selection of anterior teeth by correlating the combined width of six maxillary anterior to the combined erred distance measured on occlusal rims for Indian and Malaysian population.				
Dr. Veena Benakatti (C)	Evaluation of effect of surface treatment of intaglio of retention of complete cast crowns cemented with different cements – An in vitro study.					
Dr. Divya Goel (C)	To evaluate & to compare the effect of different surface treatments & color stability on the stability of metal ceramic restorations.					
Dr. Aditi Mehndiratta (C)	Evaluation of tooth form with respect of the shape of face in students of KLE V.K. Institute of using an auto CAD software : A descriptive study					
Dr. Kirandeep Kaur (C)	Evaluation of most reliable posterior reference point of Ala trays line in relation with Hamular Notch Incisive papilla plane in males and female edentulous patients - A cephalometric study					
Dr. Supriya Shetye (C)	A comparative evaluation of delayed linear dimensional change of these commercials available type I VI high shength gypsum products. As an invitro study					
Dr. Ruta Jadhav (O)	Effect of surface characteristics on the microbial adhesion on various implant abutment materials- An vitro study					
Dr. Dolly Gupta (O)	Visual and Instrumental evaluation of reliability of clinical ceramic restoration with dental shade guide by two distinct observer population – An observational study					
Dr. Suvidha S (O)	To Evaluate and compare the effect of different curing cycles on residual monomer porosity and flexural strength of denture base resin: An invitro study

JNMC	Undergraduate Projects		Postgraduate Projects	
	Name of student	Title	Name of student	Title
	Dr. Heena Sharma (O)	Comparative Evaluation of the effect of commercially available two different forms of denture cleansers on Denture biofilm in diabetic and Non – Diabetic patients – An in vivo study.		
	Dr. Resha Uday (O)	Comparative Evaluation of Anti – Candida effect flexural strength and water sorption of heat cure resin enforced with silver nanoparticles and conventional heat cure resin : An in vitro study		
	Dr. Vimal Munot (O)	Effect of Surface Characteristics on the Microbial adhesion on Various Implant abutment Materials – An In vitro study.		
	Dr. Alisha Saldanha (O)	Comparative evaluation of the marginal and Internal Gap of cobalt Chromium copings fabricated from two different waxing and investment techniques – An invitro study.		
	Dr. Bishakha Singh (O)	A study to evaluate and compare the efficacy of silver zeolite as an antimicrobial agent in acrylic and silicone based soft liners used in complete denture patients an in vivo study.		
	Dr. Pallavi Luthra (O)	Comparative evaluation of Properties of novel formulation of denture adhesive with commercially available denture adhesive – An in Vivo study.		
	Dr. Deepali Rane (O)	To Evaluate the effect of probiotics on the prevalence of Oral candida organisms in denture wearers – an in vivo study		
	Dr. Rijuta Virman (O)	Comparative evaluation of the dimensional accuracy of cast partial denture frameworks fabricated by conventional technique and light cure wax technique - an In vitro study		
	Dr. Smita Karindi (O)	To compare the effectiveness of 2% alkaline glutaraldehyde and microwave irradiation on predominant oral pathogens in complete denture wearers. An in Vivo study		
	Dr. Aditi Mahajani (O)	Assessment Of Pre Diabetic And Type 2 Diabetic Risk Among Patients Diagnosed With Chronic Periodontitis.
