## Webinar overview:

Webinar was hosted by Dr M-S Ganachari sir on "FLIP CLASSROOM" in go to meeting software on 25<sup>th</sup> April 2020 at 12pm due to COVID-19 outbreak. The topic was really interesting, sir has explained how flip classroom helps the students to concentrate and keep them interested and busy. It helps the students as well as teachers as there is interaction involved.

Sir briefed about how technology becomes a helping tool for the teaching and need of the hour during lockdown period. Effectiveness of teaching & learning & the ways to engage students was explained by sir.

All the staff members attended this session and were benefitted.

Who are our students?

- They were born the day before yesterday, or so it may seem. Millennials have no memory of a world without the World Wide Web, cell phones, or personal computers.
- They are an Internet-surfing, IPodding, texting, Googling, Facebooking, and IMing generation.

Dr. M.S. Ganachari

## Report of the e-training program held on 16/03/19 and 14/09/2019

Learning objectives typically include research design, data collection, data analysis, interpreting data and reporting outcomes. Google Forms can help us to meet curriculum requirements. Teachers will be able to pose a meaningful research question, select a sample group from the population using an appropriate sampling technique, design a questionnaire without question bias, administer the survey, analyse the data using graphs, data tables, and pivot charts, and draw conclusions from the data. Google Forms is a useful tool for meeting objectives.

Google Forms offers many options for controlling answers provided by respondents. KLE College of Pharmacy, Bangalore organized a training session through IQAC, for development of e-content, on the topic "Using google forms for online evaluation, internal evaluation and data collection" on 16/03/2019. Dr. Subhas Karki, Principal of KLE College of Pharmacy, Bangalore welcomed the guest Mr. Chetan Jaiswal, Noitacude Educational Services Pvt. Ltd. It was made clear that Google Forms lets the faculty and students, collect data using multiple methods. At the end of the session vote of thanks was given by Dr. Mamatha A.

10 teachers were trained in the first session on 16/03/19 and 7 teachers were trained in 14/09/2019. So, a total of 17 teachers were trained in the year 2019.

## Report of the e- training program held on 06/07/2020

Based on numerous training attended, it is understood that various kinds of ICT are used in education, such as teleconferencing, email, audio conferencing, television lessons, radio broadcasts, interactive radio counselling, interactive voice response system, audiocassettes, CD ROMs to enhance a better learning process.

As we are living in a developing digital world, the virtual classroom is the real-time situation now. In a classroom, technology stimulates the learner and gets the learner involved in the learning methods. Especially in this COVID-19 pandemic, this is the need of the hour. This is because the use of ICT in education makes the skills and concepts linked with technologies and it makes the e-learning methods more interesting and entertaining and creates a digital platform together with audio, animations, videos and interactive sessions. Therefore, KLE College of Pharmacy, Bangalore organized a training session, for development of e-content, on the topic "*Creativity meets learning*" on 06/07/2020. The resource person was Mr. Ravishankar, Director of Maieutic Technologies Pvt. Ltd. He has 15 years of rich experience in the field. Dr. Raman Dang, Principal of KLE College of Pharmacy, Bangalore welcomed the guest Mr. Ravishankar. A presentation about e learning, content development, voice over audio, animations etc was introduced to the participants.

### About the Department:

The department Pharmacognosy is well equipped department that offers conducive learning environment, extensive training for and development of skills relevant to natural product research. Isolation, screening and characterization of plant and microbial secondary metabolites, plant tissue cultures of endangered medicinal plants and herbal formulations with focus on phytochemical screening of natural drugs. The department has produced trained human resources, quality post graduates and PhD scholars who are well placed in industry and academia. Faculties of the department have a strong teaching & research experience with good number of publications in the journals of national and international repute.

### About the Workshop:

Teaching, learning and evaluation are important components of any education system. Teaching should focus on making student learning process easier than to just implement a variety of teaching strategies, methods and techniques. The process of learning is complex and learning styles are varied. Learner support is a critical component of an effective learning environment. Many easy-to-use concepts and learning techniques that help students achieve their learning goals are developed by educational psychologists. Such concepts and techniques include, Student motivation, mentoring, Student Reflection, elaborative interrogation, self-explanation, inquiry-based learning, problem-based learning, project based learning, simulated learning and mnemonic learning. These learning techniques, when used properly, provide meaningful gains to students in terms of performance, achievement, and other challenging tasks students will encounter across their lifespan. This workshop will give guidance on newer and most effective learning strategies which in turn improve

### Resource persons:

Well reputed academic and management experts will deliver the lectures and share their views.

### Topics:

- Teaching methodologies for improving learning
- Use of technology in improving students learning
- Teaching beyond class room
- Effective student engagement and reflection
- Student motivation and mentoring.

### Eligibility:

The Workshop is open for all faculty members.

## Report of the e-training program held on 10/03/18 and 22/09/2018

Survey/Polling/Quizzes are lightweight online tools. These tools enable us create various surveys and questionnaires, from small and simple to large and complex. These tools allow us to create, distribute, and analyse online surveys and questionnaires with a friendly interface and powerful features. These tools give you everything we need to gather feedback.

Hence, KLE College of Pharmacy, Bangalore organized a training session, for development of e-content, on the topic "Survey/Polling/Quizzes" on 10/03/2018. Dr. Subhas Karki, HOD, Dept. of Pharmaceutical chemistry, KLE College of Pharmacy, Bangalore, welcomed Dr. A. J Rajamma, Associate Professor, Dept of Pharmacognosy, KLE College of Pharmacy, Bangalore. Information and demonstration of creating Survey/Polling/Quizzes was taught to faculty. This digital material will enhance a greater interactivity and strengthen a better understanding among students in education. At the end of the session vote of thanks was proposed by Dr. Mamatha A.

10 teachers were trained in the first session on 10/03/18 and 8 teachers were trained in 22/09/2018. So, a total of 18 teachers were trained in the year 2018.

## Report of the e-training program held on 19/03/17 and 12/09/2017

e-content provides an opportunity for the students to learn and enhance a better understanding in education. e-contents are known as electronic content or digital content in which it can be transmitted over a computer network such as Internet. e-content includes all kinds of content and it transforms traditional information to the increasingly sophisticated electronic tools with a combination of sounds, images and text. E-content requires a huge amount of creativity at both information and technology level. E-content could be a digital textbooks, workbooks, articles, videos or multimedia. Pedagogy describes the collected practices, processes, strategies, procedures and methods of teaching and learning. It also includes knowledge about the aims of instruction, assessment, and student learning

Content-related technology knowledge is the most important factor for technology integration in teaching and knowledge is referred to as technology pedagogical content knowledge. KLE College of Pharmacy, Bangalore organized a training session through IQAC, for development of e-content, on the topic "Online video and Pedagogical e-content creation" on 11/03/2017. Dr. S M Hipparagi, Principal of KLE College of Pharmacy, Bangalore welcomed the resource person Dr. G.S Prasanna, Associate Professor, Dept of Pharmacology KLE College of Pharmacy, Bangalore. The resource person explained that Information technology and the Internet are major drivers of research, innovation, growth and social change. The growth in Internet has brought changes in all walks of life including the education and stressed on creation of online videos for academic subjects and also gave an idea on creation of pedagogical tools and concluded that, e-content requires huge amounts of creativity both at 'information' level as well as the 'technology' level. At the end of the session vote of thanks was given by Dr. A J Rajamma from IQAC. 10 teachers were trained in the first session on 11/03/17 and 8 teachers were trained in 16/09/2017. So, a total of 18 teachers were trained in the year 2017.

## Report of the e- training program held on 21/03/15 and 12/09/2015

Information technology and the Internet are major drivers of research, innovation, growth and social change. The growth in Internet has brought changes in all walks of life including the education. E-content requires huge amounts of creativity both at 'information' level as well as the 'technology' level.

As ICT (Information and communication technology) became communication device KLE college of Pharmacy, Bangalore, organized training through IQAC, for development of e-content, on the topic "Documentation and presentation tools" on 21/03/2015. Resource person Dr. Purnima Ashok, Professor & HOD, Department of Pharmacology, KLE College of Pharmacy, Bangalore was welcomed by Principal Dr.S.M.Hipparagi. It was well understood that ICT in education play an important role especially among students. ICT in education makes the learners more motivated and engaged in learning process when the concepts and skills are linked with technology. At the end of the session vote of thanks was given by Dr.A J Rajamma from IQAC. 10 teachers were trained in the first session on 21/03/15 and 9 teachers were trained in 12/09/2015. ## Report of the e- training program held on 19/03/16 and 12/09/2016

ICT or e-Learning in education plays an important role especially among students. This is because the use of e-learning in education makes the learners more motivated and engaged in learning process when the concepts and skills are linked with technology. As a result, ICT mould the students or learners in an advance manner and it also helps to enhance or strengthen the learning experiences. E-learning is the process and e-content is the product in which it generally used to guide students through tele conferencing, email, audio conferencing, television lessons, radio broadcasts, interactive radio counselling, interactive voice response system, audiocassettes so on.

In view of utilizing the maximum of its potential in learning process, KLE college of Pharmacy, Bangalore arranged a training through IQAC, for development of e-content, on the topic "Audio and podcasting" on 19/03/2016. Dr. S M Hipparagi, Principal of KLE college of Pharmacy, Bangalore welcomed the resource person Dr. G.S Prasanna, Associate Professor, Dept of Pharmacology KLE College of Pharmacy, Bangalore. It was a realization to us that the changing of traditional textbooks to the digital materials is a growing trend among students which is used in education especially in higher education. At the end of the session vote of thanks was given by Dr. A J Rajamma from IQAC.

10 teachers were trained in the first session on 19/03/16 and 9 teachers were trained in 12/09/2016. So, a total of 19 teachers were trained in the year 2016.
