so as to provide the same during the accreditation / ranking process and a copy of the same is to be provided to IQAC. It can be easily done by having a functional alumni portal and an Incharge Faculty, who can communicate with the students through email or social media and ensure that the information is updated to the latest.

  etc. may be considered and tested on a pilot basis.
- The University has doubled the quantum of financial assistance / grant for various research activities including financial grant for publications, grant for research projects, conduct of conferences, attending conferences, etc. to boost and promote research culture / activities. The faculty and students should take advantage of these schemes.
- The University has been publishing various Journals and it is the responsibility of the members of the Editorial Board to ensure that quality of research articles / papers is maintained.
- It has been made mandatory on the part of the Post-Graduate students to publish one research article out of the dissertations. The Principals shall ensure compliance of the same with due emphasis on quality.

#### Resolution:

While taking note of the publications, it is now emphasized that only those articles that are in the UGC list will be taken into consideration. Further the publications have either plateaued or declined in most of the departments. The faculty should make efforts to publish articles of previously completed research studies and completed dissertations. Help of Health Mind experts may be taken for writing / submitting articles to good journals. The colleges where there are single digit publications have to take special efforts. Further to bring uniformity, publications from a particular calendar year should be presented i.e. (from 1st January to 31st December) or upto the date of meeting from 1st January.

Item No. 2: Review of work done for publication of Indian Journal of Health Sciences proposed to be published.

Dr. Harpreet Kour, Assistant Registrar and Managing Editor, KAHER's Indian Journal of Health Science and Bio-medical Research (KIJHBR) briefed the members as regards to work done for publication of KIJHBR and Calendar of Events for 2020, Journal of Scientific Society, Annual Report and KLEAN.

#### Resolution:

Resolved to take note of the same and appreciated the good work done by the publication team and Editorial Board members. However, it was noted that PG students while submitting the manuscript for publication to our Journal do not send them according to the specifications of the Journal. Many times the article is incomplete, poorly drafted with many mistakes and submitted in a very shoddy manner. This is a serious matter and needs urgent attention by all. It is found that the Post Graduate students and their guides are doing it purposely, punitive actions will have to be initiated against them.
