CO-ORDINATORS REPORT ON Training Program

Title of the workshop: Online Faculty Training Program for JNMC faculty

Date: 30th April 2020 and 2nd May 2020
(10.00am to 1.00pm)

Name of the coordinator: Dr. Roopa M Bellad , Convener, MCI, Nodal Centre, J N Medical College, Belagavi.

Total number of participants registered: No. of faculty joined day 1– 215
& day 2-248

(Enclose the list of the participants)

In house: Given above

External: NA

Resource persons (Name, designation, address and contact details)

In house: Dr. Vivek Saoji, Hon. Vice Chancellor, KAHER,
Dr N S Mahantashetti, Principal, JNMC

Dr. Roopa Bellad, Prof of Pediatrics & Convener MCI, NC, JNMC Belagavi

Dr Sunita Patil, Prof of pathology

Dr. Sheetal Harakuni, Prof of Microbiology

Dr Jyothi Nagamoti, Prof of Microbiology

Dr. Nayana Hashilkar, Prof of Pharmacology

Dr Shama Bellad, Asso. Prof of ENT

Dr. Deepti Kadeangadi, Asso. Prof of Community Medicine

Dr. Somashekhar S Pujar, Asso. Prof of Forensic Medicine & Member Secretary-DOME

External: Nil

Highlights/ Lessons learnt of the topics discussed:-

CO-ORDINATORS REPORT ON PG Orientation Program

Title of the workshop: Research Methodology

Date: 1st to 2nd (Batch 1) & 8th to 9th (Batch 2) September 2020

Name of the coordinator: Dr Somashekhar S Pujar

Total number of participants registered: 188

In house: 188

External: NA

Online P. G. Orientation Program Part-1 Research Methodology

Venue: Conference Hall of DOME

**1st to 2nd (Batch 1) & 8th to 9th (Batch 2) September 2020 Objectives of the
Program**

By the end of the workshop the participants will be able to –

1. Develop a research proposal in the health sciences by
 - a. Defining the research question,
 - b. Choosing an appropriate research design,
 - c. Performing an electronic literature search,
 - d. Critiquing research publications,
 - e. Listing the dependent and independent variables,
 - f. Identifying the statistical measures for data analysis,
 - g. Stating the anticipated outcomes of the research project,
2. Present in groups a research project that they will develop during the program,
3. Submit an electronic version of the research proposal that they have developed during the program,

Day 1	
9.00 am – 09.15 am	Pre Test
9.15am -9.30 am	Welcome and Introduction of Participants Dr. Vijaya Dandannavar, Asso. Prof of Physiology / Dr. Vanishree Jabannavar, Asso. Prof of Biochemistry ATTESTED

CONTEXT

- A national forum to create blend of teaching, research or patient care and to call for, young pharmacists to get benefited for exploring careers at Hospital set-up, community, teaching and research institutes as well as other organizations throughout the world.
- The profession of Pharmacy where the role of pharmacist is evolving rapidly and driven by the challenges.
- This will provide an excellent platform for sharing knowledge and experience in pharmacy practice.
- The workforce demands of healthcare are influenced by the science that drives the development of rational use of medications with the help of the skilled resource.
- Hence, this colloquium will boost the skill, confidence and practice to create global leaders in healthcare.

OBJECTIVES

THE AIM OF THIS COLLOQUIUM IS TO:

- To construct a pharmacy practice model that focuses on advanced patient medication outcomes by mastering qualities like knowledge, skills, and attitude towards excellence in practice.
- To provide a platform to the young budding pharmacists to create a forum to explore current trends in academics, patient care and research in pharmacy.
- To provide an opportunity to delegates and students to interact with other health professionals and share their experience and knowledge applications in pharmacy profession.

TARGET PARTICIPANTS

- Faculty and students of pharmacy
- Pharm D V and VI year
- M Pharm pharmacy practice

D. TOTAL PARENTERAL NUTRITION:

- Total Parenteral nutrition therapy involves the intravenous administration of nutritionally sufficient and balanced formulations to supply essential nutrients to patients who are unable to tolerate oral or enteral feeding due to dysfunctional or inaccessible gastrointestinal tract, over the years.
- TPN has become an important primary and adjunctive therapy in various clinical conditions and disease states for both the acutely ill hospitalized patients and in the long term setting for selected patient in the home.
- TPN formulations can serve as a life sustaining option for premature infants and critically ill hospitalized patients and for patients who have permanent loss of the GI Tract such as with fistula and short bowel syndrome.

E. COMMUNITY PHARMACY:

- Community pharmacists are often on the first line of health care. In addition to dispensing medications and monitoring patients for adverse effects and interacting drugs, pharmacists provide important counseling services, such as the proper selection of over-the-counter medications and/or referral to other health care providers. Today's pharmacist also must be versed in alternative medicines.
- Students of pharm D are posted in Pradhan Mantri Bhartiya Jan Aushadhi started by KLE College of Pharmacy and dept. of Pharmacy Practice as it gives quality medicines at affordable prices and also an opportunity for the students to experience the practice in community setting and improve their knowledge and skills in various aspects like
 - Processing of prescriptions
 - Monitoring of drug utilization
 - Health promotion
 - Monitoring of medication errors
 - Dispensing of Medicines & Computer applications
 - Pharmaceutical care practices

ABOUT ALL INDIA COUNCIL FOR TECHNICAL EDUCATION

The All India Council for Technical Education (AICTE) was constituted in 1945 as an advisory body in all matters relating to technical education. Even though it had no statutory powers, it played a very important role in the development of technical education in the country. In view of the recommendations by Kothari commission by 1964, AICTE became a statutory body through an Act of parliament 52, in 1987. The Council, i.e. AICTE was established with a view to the proper planning and coordinated development of the technical education system throughout the country, the promotion of qualitative improvement of such education in relation to planned qualitative growth and the regulation and proper maintenance of norms and standards in the technical education system for matters connected therewith. (<https://www.aicte-india.org/>)

ABOUT KLES DR. PRABHAKAR KORE HOSPITAL & MEDICAL RESEARCH CENTRE

KLES Dr. Prabhakar Kore Hospital & Medical Research Centre, in collaboration with the prestigious Jawaharlal Nehru Medical College (JNMC) brings together a dedicated team of physicians, surgeons and healthcare specialists to provide healthcare and hospitality under one roof, thus giving it a perfect academic and professional blend. First successful Heart Transplant Surgery was performed at KLES Dr. Prabhakar Kore Hospital & MRC, Belagavi.

ABSTRACT SUBMISSION

AIMS AND OBJECTIVES

Invited abstracts of research work on the following areas for the poster presentation during the colloquium:

- Hospital VIKS development
- Medication safety
- Drug utilization / health services research
- Medication adherence
- Antimicrobial resistance

ABSTRACT SUBMISSION GUIDELINES

- Word limit: not more than 500 words
- Content abstract should be divided into following headings: Background, objective, methods, results, conclusions and keywords (5-8)
- Deadline: 1st November 2018, Monday
- Send the abstract to: klgpharmaceutics@016@gmail.com

POSTER PRESENTATION GUIDELINES

- Posters must be designed to fit a poster board approximately 1/1 (3 feet wide x 4 feet high)
- Presentation: 10-15 minutes
- Font size: 24pt / 36pt
- Font color: 30 and 40

POSTER PRESENTATION - ORAL PRESENTATION

19th to 20th of Dept of Pharmacy Practice and Pharmacology

COMPLIANCE

- The session is designed to be informal, engaging and to give participants a flavor of your research, interest, experience and questions (not a particularly interested audience)
- Don't present with a slide, it's better to have a summary slide and a poster slide
- Stick to the 10-15 minute time limit and the timing will be announced by the host
- Don't be too shy to ask questions with your colleagues, keep it simple and on time

GUEST LECTURE

Opportunities in Clinical Research

KLE College of Pharmacy, Belagavi, department of Pharmacy practice organized guest lecture on "Opportunities in Clinical Research" on 31/ 01/ 2020 in Anatomy Lecture Hall, JNMC, Belagavi

The guest lecture was inaugurated by Dr. B. M. Patil, Dr.Sunil S.Jalalpure, Principal KLE College of Pharmacy Belagavi, Dr. M.S Ganachari, head of department of Pharmacy practice introduced the speaker. Dr. B. M. Patil delivered lecture on Opportunities in Clinical Research. Around 153 Students and staff (B.Pharm 6th and 8th semester) 12 (Faculty of Department of Pharmacy Practice) the guest lecture.

Topic of the guest lecture: "The future of toxicity testing: A focus on in vitro methods"

Date: 12/01/2020

Guest lecture was organized by department of Pharmacology on 12/01/2020. Well come address and introduction of Dr. Anandhithy Paul Semm, consultant Toxicologist Bengaluru as resource person by Dr. N.A. Khadki HOD & Associate Professor Pharmacology Department and Professor Dr. B.M. Patil graced the programme. Resource person highlighted about "The future of toxicity testing: A focus on in vitro methods" topic presentation to be informed about different in vitro toxicity testing method which are present and novel approach in the era of toxicology. Also interacted with UG and PG students with special emphasis on clarifying their doubts.

Welcome address was given by Prof (Dr) M S Ganachari sir and introduced the chief guest & speakers for workshop. Sir provided the brief introduction and overview of one day workshop. Prof (Dr) Sunil Jalalpure sir gave the key note address on how biostatistics is important in research, which is needed in research to draw conclusions. He also briefed about the significance of biostatistics as it helps in determining the proper sample size in research & how it impacts on research especially in Pharmacy Practice & Pharmacology dept.

1st session Speaker: Dr S B Javali

Topic: Parametric tests of significance in Pharmaceutical Research

Dr S B Javali emphasized on how statistics plays a crucial role in research, planning and decision-making in the health sciences. Progress in technologies and continued research in computational statistics helps us to implement sophisticated mathematical models within software which can be handled by non-statistician researchers like students. The importance of hypothesis in research that how it helps us to draw conclusions was explained. Significance of P value in the research & various application of statistics was briefed out by Dr. Javali.

2nd session by Dr. Ashish Singh Parihar

Topic: Importance of SPSS in health research

The session was about mainly basic demo of SPSS software which helps us in complex statistical data analysis. The various input features of this software was explained. The software helps researchers to avoid routine mathematical mistakes and produce accurate figures in their research if they input all data correctly. Sir emphasized on importance of data collection as well that how it helps in interpretation of data.

3rd Session by Mr chetan R.I

Topic sigma plot software hands on training

Last session was very interesting and beneficial for everyone as it was a hands on training programme. Sir explained about handling of sigma plot software. The software is very easy to use and reliable. He demonstrated the various parametric test calculation like t-test, correlation analysis, regression analysis etc and how to interpret it graphically as well. He also provided information regarding trial version of this software.

One day Workshop
On
Importance of Biostatistics in Research
Department of Pharmacy Practice,
KLE College of Pharmacy, Belagavi - 590010
KLE Academy of Higher Education and Research (KAHER), Belagavi.

PROGRAMME DETAILS

Objectives: Biostatistics is involved in every step of research including trial design, protocol development, and data management and monitoring, data analysis and clinical trial reporting.

- Statistical knowledge helps to use the proper methods to collect the data.
- Employ the correct data analysis and effectively present the results.
- Statistics is a crucial process behind how make decisions based on data, and make predictions in Research.

SCHEDULE

REPORT ON
KAMHER Sponsored Workshop on "Drug Design and Development"
Dept. of Pharmaceutical Chemistry, K.L.E. College of Pharmacy, Belgaol,
held on 29th January 2020

The total number of participants in the workshop were 70, which included 14 outside participants and 56 in-house participants. There were 2 outside resource persons and 4 in-house resource persons. The workshop started at 9.30 am with a lecture by Prof. (Dr.) B. M. Pail, Principal, K.L.E. College of Pharmacy, Belgaol on the topic 'Computer Aided Drug Design'. The inaugural programme was scheduled at 10.00 am. The Chief Guest was Prof. (Dr.) V. A. Kothiwale, Registrar, K.L.E. Academy of Higher Education & Research, Belgaol. The inaugural programme involved welcome address & introduction to chief guest by Prof. (Dr.) M. H. Pail, introduction about work shop by Prof. (Dr.) Shankar G. Alegaon, lighting of lamp, Address by chief guest Prof. (Dr.) V. A. Kothiwale, Principal's remark by Prof. (Dr.) B. M. Pail and Vote of Thanks by Prof. (Dr.) M. S. Palled. Anchoing of the workshop was done by Dr. Preeti Salve. The inauguration was followed by tea break. The next lecture on Nanomaterials for biomedical application was from 10.45 - 12.00 noon by Prof. (Dr.) J. Manjanna, RCU, Belgaol. It was then followed by a lecture from 12.00-1.00 pm on QSAR by Prof. (Dr.) Ravindra Kulkarni, BharatiVidyapeeth's Poona college of Pharmacy, Pune. Everybody then dispersed for lunch break from 1.00 - 2.00 pm. The afternoon session began with a lecture by Prof. (Dr.) K. K. Hullahi, K.L.E. College of Pharmacy, Belgaol, on Drug discovery process from natural products. The next session was from 2.30-4.45 pm, by Prof. (Dr.) Shankar G. Alegaon on Molecular docking hands on training and by Mr. Pukar on Network pharmacology. The programme concluded with a victorious function and certificate distribution from Dr. M. B. Pail at 5:00 pm.

REVISED BASIC WORKSHOP ON MEDICAL EDUCATION TECHNOLOGY

26th-28th June 2018 Venue: Conference Hall of DOME

Time	Topics	Faculty
Day-1		
8:30am - 09.00am	Registration & Pre test	
9.00 am- 10.00 am	Introduction ice breaking and Group Dynamics	Dr. Deepti Kadeangadi, Asso. Prof of Comm. Medicine Dr. Jayasheela Bagi, Prof of Physiology
10.00 am- 10.15 am	Inauguration	
10:15am - 10.45am	System's Approach,	Dr. V.D. Patil, Registrar, KAHER & Prof of Pediatrics
10.45am - 11:00am	High Tea	
11.00am - 11:45am	Principles of adult learning, Learning process	Dr. A. S. Godhi, Professor of Surgery
11:45am – 12:15pm	Learning domains and progression of learning	Dr. Nayana Hashilkar, Professor of Pharmacology
12:15pm – 1:15pm	Objectives - Writing objectives - Developing objectives from competencies, linking learning and assessment with competencies	Dr. Sunita Patil, Professor of Pathology
1:15pm – 2:00pm	Lunch	
02.00pm – 02.45pm	Goals, roles and Competencies: CBME	Dr. Padmaja Walvekar, Professor & Head of Comm. Medicine
02.45pm – 03.00pm	The IMG – Goals, roles and Competencies	Dr. Sunita Patil, Professor of Pathology
3.00pm-4.00pm	Workshop on writing objectives	Dr. Somashekhar Pujar, Asso. Prof of Forensic Medicine
4:00pm – 4:15pm	Tea Break	
4:15pm – 5:00pm	Introduction to Assessment	Dr. Roopa Bellad, Prof of Pediatrics
5:00pm	Close	
Day-2		
9:00am – 09:40am	Interactive and Innovative teaching methods - -Large Group Teaching	Dr. Nayana Hashilkar, Prof of Pharmacology
9:40am – 10:20am	-Small Group (with demo)	Dr. Padmaja Walvekar, Prof & Head of Comm. Medicine
10:20am – 11:00am	-Appropriate use of media	Dr. Jyoti Nagmoti, Prof of Microbiology
11:00am – 11:15am	High Tea	
11:15am – 12:30pm	Choosing a teaching method for objectives and competencies - Workshop	Dr. Sheetal Harakuni, Professor of Microbiology
12:30pm – 1:15pm	Writing a lesson plan	Dr. Jyoti Nagmoti, Prof of Microbiology
1:15pm – 2:00pm	Lunch	
2:00pm – 2:30pm	Assessment planning and quality assurance	Dr. Sunita Patil, Professor of Pathology

Dr. V.A.Kothiwale
Registrar

KLE Academy of Higher Education and Research,
(Deemed-to-be-University u/s 3 of the UGC Act,1956)

CO-ORDINATORS REPORT ON PG Orientation Program

Title of the workshop: Research Methodology

Date: August 1st to 3rd August 2018 (1st batch) & 8th to 10th August 2018 (2nd batch)

Name of the coordinator: Dr. Padmaja Walvekar

Total number of participants registered: 81

In house: 81

External: NA

P. G. Orientation Program Part-1 Research Methodology

Venue: Conference Hall of DOME

August 1st to 3rd August 2018 (1st batch) & 8th to 10th August 2018 (2nd batch)

Objectives of the Program

By the end of the workshop the participants will be able to –

1. Develop a research proposal in the health sciences by
 - a. Defining the research question,
 - b. Choosing an appropriate research design,
 - c. Performing an electronic literature search,
 - d. Critiquing research publications,
 - e. Listing the dependent and independent variables,
 - f. Identifying the statistical measures for data analysis,
 - g. Stating the anticipated outcomes of the research project,
2. Present in groups a research project that they will develop during the program,
3. Submit an electronic version of the research proposal that they have developed during the program,

Day 1	
09.00 am – 09.15 am	Pre Test
09.15 am – 09.30 am	Welcome and Introduction of participants Dr. Vijaya Dandannavar , Asso. Prof of Physiology & Dr. Jayasheela Bagi , Prof of Physiology

ATTESTED

Date: 15.07.2018

NOTIFICATION

Sub: Constitution of Board of Studies in Pharm D
Ref: 1. This office Notification No. UA/BOS-21/2015-16, dated 01.07.2015
2. Minutes of 134th meeting of Syndicate held on 08.06.2018

Pursuant to the decision of 134th meeting of Syndicate held on 08.06.2018, the Board of Studies in Pharm D is constituted with the following members with immediate effect for a period of three years.

Chairman:

Dr. Nitin Mahurkar
Prof. of Pharmacology
HKE's Matrashree Taradevi Rampure Institute of
Pharmaceutical Sciences
Gulbarga

Members

02	Dr. Kiran Nagaraju Prof. of Pharmacy Practice Visweswarapura Institute of Pharmaceutical Sciences Bangalore.	03	Dr. Siddarth M. Biradar Associate Prof. Dpt. Of Pharmacy Practice BLDEA College of Pharmacy Bijapur.
04	Dr. Binai Shankar Professor of Pharmacy Practice Acharya B.M. Reddy College of Pharmacy, Bangalore	05	Dr. K. Ramkumar Head & Dept. of Pharmacy Practice Aditya College of Pharmacy Bangalore.
06	Dr. Shekhar Associate Professor Dept. of Pharmacy Practice Visweswarapura Institute of Pharmaceutical Sciences Bangalore.	07	Dr. Neelakanta Reddy Patil HOD of Pharmacy Practice HKE College of Pharmacy Gulbarga.
08	Dr. B.S. Kittur Prof of Pharmachemistry HSK College of Pharmacy Bagalkot.	09	Prof. Ashok Malpani Principal, Prof. of Pharmaceutics RMES College of Pharmacy Gulbarga.

KLE Academy of Higher Education and Research,
(Deemed to be University u/s 3 of the UGC Act, 1956)
Belagavi-590 010, Karnataka

KLE Society (Karnatak Lingayat Education Society) was started in 1916 by a group of young dedicated teachers and patrons. This Society aims to empower people through education and is well recognized for its quality education and health care services. Today, KLE Society manages more than 250 institutions with more than 1lakh student strength, and more than 16000 employees offering world-class education in Healthcare, Pharmacy and paramedical sciences, Engineering, Management, Law and Agriculture. The educational services include School, Pre-University, Graduate and Post Graduate education.

KLE Academy of Higher Education and Research is sponsored by KLE Society was established in Belagavi in 2006 to highlight the Society's commitment to healthcare and Science education. KAHER is recognized by University Grants Commission (UGC), reaccredited "A" grade by NAAC and placed in category "A" by MHRD, Govt. of India. KAHER provides internationally accepted education and healthcare practices, with impetus on research. University takes immense pride in its top class faculty, curriculum and well equipped infrastructure. The institutions of Medicine, Dentistry, Pharmacy Physiotherapy, Nursing, and Ayurveda are under the ambit of this university.

KLE College of Pharmacy, Belagavi: It was established in 1968 and was the first private Institution in Belagavi to start a professional course in Pharmacy. The institution is a constituent unit of KAHER, Belagavi which is reaccredited NAAC "A" grade by UGC. The high standards maintained and the relentless quest for excellence has taken the reputation of the college beyond Indian shores. We are also proud to share that the college has been ranked 22nd (all India) and 3rd in Karnataka by NIRF, MHRD, New Delhi.

This year our college is completing its 50 glorious years and the year 2018 is being celebrated as the Golden Jubilee Year. All the courses run by the institution are recognized by Pharmacy Council of India, All India Council for Technical Education and University Grants Commission. The college introduced D.Pharm in 1968, B.Pharm degree course in 1975, Post Graduation in 1988, Doctoral Degree from 2000 and Pharm.D. from 2014 and has received many prestigious research grants from funding agencies such as AICTE, DST, ICMR, and VGST Govt. of Karnataka etc.

About the Department:

The Department of Pharmaceutical Chemistry has been effectively involved in the impact of synthetic drug design and discovery. The department steadily attracts students by offering rigorous didactic experimental education curriculums. The pioneers of this department were rooted in synthetic, analytical, natural products chemistry, and computer aided drug design which includes molecular docking.

About the Workshop:

Molecular modeling has become a valuable and essential tool to medicinal chemists in the drug design process. Molecular modeling describes the generation, manipulation or representation of three-dimensional structures of molecules and associated physico-chemical properties. It involves a range of computerized techniques based on theoretical chemistry methods and experimental data to predict molecular and biological properties. The workshop aims to highlight the basics of Drug discovery and development in light of computational chemistry and the tools used in molecular modeling. This workshop provides an insight to molecular modeling with specific case studies and success stories with a briefing to the recent advances in the field of molecular modeling.

Resource persons:

Well reputed researchers and academic professionals, will deliver the lectures and share their views.

Topics :

- Drug discovery and development.
- Molecular Docking
- Computational Chemistry and its tools
- Recent advances in Molecular Modeling.

Eligibility:

The Workshop is open for all post graduates and faculty members.

Registration fee: Rs. 250/-

DD drawn in favour of *Principal, KLE College of Pharmacy, Belagavi* drawn on any nationalized bank, payable at Belagavi. Kindly fill in your details legibly in the application (Photostat copy of this is acceptable) and send the same to programme co-ordinator along with DD on/ before **12th October 2018**. The detailed schedule will be conveyed to you by electronic mail, once the application is received.

Please contact the Programme Co-ordinator for further details:

Title: Molecular Modeling

Venue: Seminar hall, KLE College of Pharmacy, Belagavi

Time: 09:00Am-05:00Pm.

Total No. of Participants : 35 + 10 staff members.

One day workshop was organized by the Department of Pharmaceutical Chemistry with the aim to train the Post graduates and Staff about the basics of the Molecular Modeling. The workshop commenced at 09:00 am Chief guest Dr. Bannappa Unger inaugurated the workshop with his introductory remarks and addressed the gathering with his knowledgeable words. Dr. B.M. Patil Principal KLE College of Pharmacy gave the presidential remarks and Dr. Meenaxi M Maste quoted the vote of thanks. Dr. M.B. patil Vice-Principal KLE College of Pharmacy and senior faculty of the other Departments were present on that occasion.

Speaker-1 **Dr. Manikantha Murari**
Assistant Professor
Department of Pharmaceutical Chemistry
MS. Ramaiah College of Pharmacy, MSRUAS, Bangalore

Dr. Manikanta is a young researcher in the Department of Pharmaceutical Chemistry. Sir has delivered a lecture on "Computational Chemistry tools and its applications in Drug Designing."

He emphasized upon the need of the computational chemistry in today's scenario and shared his knowledge about the target selection and identification.

Speaker-2 **Dr. Rakesh Somani**
Professor and Head
Department of Pharmaceutical Chemistry
VES College of Pharmacy, Mumbai

Dr. Somani has a wide research experience in the drug designing and molecular modeling sir had delivered a lecture on "Molecular Modeling : A case study". Sir had share a real molecular modeling experience and the problems associated with it and gave inputs on how to select and validate the target and trouble shoot the problems associated with it.

Speaker-3 **Dr. S.G. Alegaon**
Professor and Head
Department of Pharmaceutical Chemistry
KLE College of Pharmacy, Belagavi

ATTESTED

About College

KLE Society's College of Pharmacy was established in 1968 in the pleasant environs of J. N. Medical College, Belagavi with the aim of providing quality education in Pharmaceutical Sciences. The courses started with Diploma in Pharmacy (1968) followed by B. Pharm (1975), M. Pharm (1988), Ph. D Programs (2000), M.Sc. in Clinical Pharmacy (2013) and eventually Pharm. D (2014). The College of Pharmacy is run in a spacious & well-equipped building of its own with hostel, library and sport facilities. The Pharmacy curriculum is approved by Pharmacy Council of India (PCI), All India Council for Technical Education (AICTE) and the UG programme is accredited by the NBA (National Board of Accreditation), AICTE, New Delhi up to December 2014. The institution is the constituent unit of KAHER (Deemed to be university) Belagavi, which is accredited by NAAC "A" grade (2nd Cycle) by UGC, since January 2016.

College has placed in 22nd rank in India by NIRF, New Delhi for the year 2017-18. Research programs are in progress in the disciplines of Pharmaceutics, Pharmaceutical Chemistry, Pharmacognosy, Pharmacology, Pharmacy Practice and Pharmaceutical Quality Assurance. The college is adequately supported by well-qualified and well trained staff in every discipline. Every year notable contributions are made in the above fields since last 45 years, more than 500 research papers have been published and presented at various national and international conferences. The faculty members of the college have received more than 25 research grants from various national and state funding agencies and many research awards.

About the Conference

KLE College of Pharmacy, Belagavi is completing its 50 glorious years of its inception and the year 2018 is being celebrated as the Golden Jubilee Year. In view of this, KLE College of Pharmacy, Belagavi [Constituent unit of KAHER, Belagavi] is organizing a National Conference with an aim to bring together leading academic, scientists, industry person and research scholars to exchange and share their experience and recent advances in Pharmaceutical Science. The conference organizers have assembled renowned speakers and scientific sessions. It is particularly exciting time to be involved in Pharmaceutical Sciences discipline as we are seeing rapid advances in this field. We encourage professionals to participate, interact, come with queries and develop new collaborations.

Topics Covered

- **Dr. Vandana B. Patravale** : Novel Lipid Bioconjugates: In Silico Screening and Utilization for Delivery to Brain.
- **Dr. Malleshappa N. Noolvi** : Importance of Spectroscopic Studies in Drug Discovery and Development.
- **Mr. Rajendra Naik** : Local regulations for Research & Development Laboratories
- **Mr. Himank Narvekar** : Development of Generic Formulations for Regulated Market and Understanding Complex Generics & Its Role in Pharma Development.
- **Mr. Anant Naik** : Recent trends in Pharmaceutical Research and Technology Compliance & Regulatory Issues in Pharma Development

Day 1: Friday, 26th Oct. 2018

Breakfast	08:30 to 09:30 hrs.
Registration	09:00 to 10:00 hrs.
Conference Inauguration	10:00 to 11:00 hrs.
Tea Break	11:00 to 11:15 hrs.
Plenary Lecture Session - I	11:15 to 12:20 hrs.
"Novel Lipid Bioconjugates: <i>In Silico</i> Screening and Utilization for Delivery to Brain"	
Speaker: Dr. Vandana B. Patravale, Professor, ICT, Mumbai	
Chairperson: Dr. V. G. Jamakandi	
Co-Chairperson: Dr. V. P. Rasal	
Plenary Lecture Session - II	12:20 to 13:30 hrs.
"Importance of Spectroscopic Studies in Drug Discovery and Development"	
Speaker: Dr. M. N. Noolvi, Principal, SD Pharmacy College, Surat	
Chairperson: Dr. S. S. Khadabadi	
Co-Chairperson: Dr. M. S. Ganachari	
Lunch	13:30 to 14:30 hrs.
Poster Session	14:30 to 17:30 hrs.
Chairperson: Dr. J. K. Saboji	
Co-Chairperson: Dr. S. S. Karki	
Tea Break	15:30 to 15:45 hrs.
Entertainment Program	17:30 to 19:00 hrs.
Conference Dinner	19:30 Onwards

Two Days National Conference on
"Advances in Drug Discovery & Development"

26th & 27th October 2018
 Tentative Conference Schedule

Day 2: Saturday, 27th Oct. 2018

Breakfast	08:00 to 09:00 hrs.
Plenary Lecture Session – III	09:00 to 10:00 hrs.
"Local Regulations for Research & Development Laboratories"	
Speaker: Mr. Rajendra Naik, Ex. Dy. Director, Goa FDA	
Chairperson: Dr. I. S. Muchandi	
Co-Chairperson: Dr. B. C. Koti	
Plenary Lecture Session – IV	10:00 to 11:00 hrs.
"Development of Generic Formulations for Regulated Market and Understanding Complex Generics & Its Role in Pharma Development"	
Speaker: Mr. Himank Narvekar, Scientist, Unichem Lab. Goa	
Chairperson: Dr. M. V. Jali	
Co-Chairperson: Dr. P. M. Dandagi	
Tea Break	11:00 to 11:15 hrs.
Plenary Lecture Session – V	11:15 to 12:15 hrs.
"Recent Trends in Pharmaceutical Research and Technology Compliance & Regulatory Issues in Pharma Development"	
Speaker: Mr. Anant Naik, GM Quality, Unichem Lab. Goa	
Chairperson: Dr. A. P. Basavarajappa	
Co-Chairperson: Dr. V. S. Mastiholimath	
Prize Distribution and Valedictory function	12:15 to 13:00 hrs.
Lunch	13:00 to 14:00 hrs.

GUEST SPEAKERS

Novel Lipid Bioconjugates: In Silico Screening and Utilization for Delivery to Brain
Vandana B. Patravale

Department of Pharmaceutical Sciences and Technology, Institute of Chemical Technology,
Mumbai, India
vb.patravale@ictmumbai.edu.in

Selective uptake of cargo is an important prerequisite for site specific delivery. This becomes more challenging while targeting parasitic and/ or brain ailments due to additional barriers for drug delivery. To tackle this issue, we have utilized a holistic approach. To facilitate transport of drugs across the blood brain barrier (BBB) for management of neurodegenerative disorders and parasitic infections like malaria; multiple lipid bioconjugates with an inherent ability to circumvent BBB via active transport pathway were designed and synthesized. Using these lipid bioconjugates as a targeting ligand, actively targeted nanoformulations were developed for anti-alzheimer's drugs and antimalarial drugs. The nanoformulations with BBB targeted lipid bioconjugate showed enhanced brain permeation confirming the site specific delivery for actives via intravenous, nasal and topical routes. The systematic case studies will be discussed to exemplify this novel and promising 'Trojan Horse' platform for site specific delivery.

Recent trends in Pharmaceutical Research and technology
Mr. Anant Naik

General Manager Quality, Unichem Laboratories, Goa

Pharmaceutical research is currently the backbone of pharma industry. New molecules, dossiers, DMFs and ANDAs filed by us decides the future business of the company. Hence companies are using the strategies which will allow them to sustain in the competitive environment of Pharma market. This is more relevant in the developed markets like USA, Europe, Australia, Japan etc.

Thus it is apt at this moment to understand which are the areas and technology in which research scientist should work so that it will be relevant and can give business to the company.

The deliberation will cover the following areas:

1. Biosimilars
2. Osmotic drug delivery system
3. Nanotechnology
4. Continuous manufacturing
5. Novel drug delivery system
6. Transdermal drug delivery system
7. Recent technology in manufacturing

Compliance and regulatory issues in Pharma development
Mr. Himank Narvekar

Scientist, Unichem Laboratories, Goa

We all understand that the pharmaceutical industry is working in highly regulated environment. If we look at recent issues in Pharmaceutical industry, it is evident that compliance is playing a major role. Compliance to the regulatory requirement is essential while working even in development laboratories. If about five years back somebody in development lab was told to follow Good Laboratory Practices or Good Manufacturing Practices or Good Documentation Practices, the person would have said that it is not possible. However today it has become the need of the hour. ALCOA principle is essential in development laboratories to avoid data integrity issues and adverse findings during the audits.

The review of regulatory submissions in the form of dossiers or ANDAs are also becoming tougher day by day. Various new requirements are being added continuously and we as scientist need to know these requirements before we start development work to ensure that our product will get approved and will get commercialized.

We will deliberate on various compliance and regulatory issues currently faced by the pharma industry and measures adopted by different organisations to counter these issues.

Local Regulations for R & D Laboratories
Mr. Rajendra Naik,
Ex. Deputy Director, Goa FDA

The laboratories doing research work are also controlled by Food and Drugs control department. Though there may not be GMP inspections and manufacturing licenses required for development of drug substance or drug product, it does require licenses for manufacturing of trial batches or stability batches. Similarly if we wish to procure innovator products to compare with our products which is required as part of submission documents, we will need import permission. The bioequivalence studies are also essential part of regulatory submissions and are controlled by local drug regulatory authorities. These all requirements are defined in our regulations called as Drugs and Cosmetics Act and Drugs and Cosmetics Rules. We will discuss these requirements as part of this session.

IMPORTANCE OF SPECTROSCOPIC STUDIES IN DRUG DISCOVERY AND DEVELOPMENT

Dr. Malleshappa N. Noolvi,
Shree Dhanvantary Pharmacy College, Kim, Surat-394110

Drug discovery and development is a multi-step approach, from finding hits to lead optimization. To successfully go through all the stages like target identification, screening of lead molecules, identifying hit molecules, clinical trials of the lead molecules, etc., spectroscopic studies plays an important role in all the phases of drug discovery and development process. For exploring the drug discovery and development process, understanding of the structure of biological molecules that can target them. UV, IR, Nuclear Magnetic Resonance (NMR) spectroscopy plays a vital role in attaining the desired goal, with high success rate in screening use that knowledge to design drug candidates for curing diseases. Spectroscopy studies have been a very efficient and versatile tools in drug discovery and development as they can shed light on the compounds that can be used as potential drug candidates and verify the structure of the drugs, and provide molecular structure of the biomolecules, elucidate and verify the structure of the composition of drug (ligands). Since the clinically used drugs are typically natural or synthetic compounds, spectroscopy studies are quite useful in estimating the contamination profile of the drugs, describing the dynamics and kinetics of products, and exploring the metabolites of drugs in body fluids, or study the dynamics and kinetics of proteins on solid surfaces. The innovative approach of different spectroscopic techniques and their conformations in tablets. The combinations add to arsenal of tools for drug discovery and development in future.

ADDD_001

“Design and Characterization of Novel Aceclofenac Transfersomal Patch for Transdermal Delivery”

Naik .V.D., Dandagi P.M., Madhukar .S.M.

Department of Pharmaceutics, College of Pharmacy, KLE Academy of Higher Education and Research (Deemed to be University), Nehru Nagar, Belagavi - 10, Karnataka, India

In the present study deals with the formulation of aceclofenac transfersomal patch for trans dermal delivery. As Arthritis is a major cause of disability and morbidity particularly seen in older individuals. NSAID's are the cornerstone of musculoskeletal pain management used to reduce pain and inflammation in the treatment of Arthritis. The oral delivery of Aceclofenac has the potential to cause local irritation and gastrointestinal mucosal lesions due to its acidic character and also have low aqueous solubility, higher log value, pH dependent instability problems. NSAID's agents have limited transdermal permeation and skin irritation problems. Hence to overcome this drawback, a novel generation of elastic vesicle carrier systems [i.e. aceclofenac loaded Transfersomal Patch] was formulated to improve permeability of the drug. Aceclofenac was encapsulated into transfersome vesicle by Thin Film Hydration technique based on different ratios of Surfactant [such as Span-80 and Tween-80] and Lipid [Soya lecithin 30%] Formulations of Aceclofenac loaded Transfersome were incorporated into patch using Chitosan and PVP by solvent casting method. It was observed that Aceclofenac loaded Transfersomal Patch is having greater permeation of drug than normal patch. Thus, it can be concluded that, drug loaded carrier system of NSAID drug; Aceclofenac incorporated into patch can be a novel approach for treatment of arthritis through transdermal route with possibility of reduction of dose and frequency of administration.

ADDD_002

DESIGN DEVELOPMENT AND CHARACTERISATION OF MELT IN MOUTH TABLET CONTAINING ANTIFUNGAL AGENT FOR THE TREATMENT OF ORAL CANDIDIASIS

Parvatkar A, Gupta K, Godbole A.M, Somnache S

Department of Pharmaceutics, PES's Rajaram and TarabaiBandeekar College of Pharmacy FarmagudiPonda-Goa, 403401

The current study was designed to formulate and develop Miconazole nitrate melt in mouth tablet by direct compression method using solid dispersion technique to improve its solubility and dissolution rate. Miconazole belongs to the BCS class II drug with low solubility and high permeability. The solubility of Miconazole nitrate is improved by preparing solid dispersions containing various ratios of Miconazole nitrate: PEG 6000 by solvent evaporation method. The solubility profile of all the prepared solid dispersions were evaluated against pure Miconazole nitrate. The prepared solid dispersions were subjected to various evaluation parameters and the dispersion SD9 containing 1:0.1 ratio of Miconazole nitrate: PEG 6000 was found to be the best.

The melt in mouth tablet was prepared by incorporating SD9 formulation of solid dispersion and using direct compression method. All the formulations were subjected to various pre compression and post compression parameters. F9 formulation was found to be the best with an *in vitro* drug release of 91% at the end of 15 minutes.

Keywords: Miconazole nitrate, Solid dispersion, Melt in mouth, Direct compression

FORMULATION AND *IN-VITRO* EVALUATION OF CONTROLLED POROSITY OSMOTIC
DRUG DELIVERY SYSTEM OF AN ANTIRETROVIRAL AGENT

Pednekar A, Faldesai V, Gajare P
Department of Pharmaceutics, PES's Rajaram and Tarabai Bandekar College of Pharmacy
Farmagudi Ponda - Goa, 403401

The present study deals with the formulation and *in-vitro* evaluation of Controlled Porosity Osmotic Tablet (CPOOT) of Lamivudine. Lamivudine is a antiretroviral drug belonging to the class of Nucleoside Reverse Transcriptase Inhibitors (NRTIs). Lamivudine is a BCS class III drug having short biological half-life of 6 hrs. Thus Lamivudine is a suitable candidate for controlled porosity osmotic release system. The core coat tablets system was prepared using direct compression technique. The core tablet consists of HPMC K4M as sustain release polymer and Sodium Chloride as an osmotic agent. Dibasic calcium phosphate acts as a filler. Tale as glidant and Magnesium stearate as lubricating agent. The coat consists of Polyvinyl Acetate as membrane forming agent, Polyethylene Glycol 6000 as plasticizer, Sodium Chloride as osmogen. Ethanol as coating solvent and Povidone K30 as pore former. The three batches of coat tablets were prepared containing different concentrations of pore former (2%, 4% and 6%). Prepared formulations were subjected to precompression and post compression studies. The *in-vitro* release study revealed that the F3 formulation coated with 4% of Sodium Chloride as pore former showed acceptable sustained drug release characteristics i.e upto 18hrs.

Keywords: Lamivudine, Sustained Release, Pore former, Osmotic agents.

ADDD_004

Polymorphism in Paroxetine HCL- Solid state characterization and implications on solubility and dissolution

Sunkavalli Koteswara Rao, Dr. F. S. Dasankoppa, Mohammed Raqeeb, Vinay B Kumar
Department of pharmaceutics, college of pharmacy, KLE Academy of Higher education and Research
(Deemed to be university), Vidyanagar, Hubballi-580031, Karnataka, India

From the literature it was evident that paroxetine HCL exhibit polymorphism, crystals were formed using different solvents such as acetonitrile, n-butanol etc. and exposed to stress condition hence the objective of the present work was to study the effect of crystal formulation by using different solvents and to evaluate polymorphism transformation of the drug. The study also aims at attempt to understand the effect of different solvents to obtain crystals and stress condition (temperature and RH) on polymorphic transformation of paroxetine HCL and its implication on solubility and dissolution. Solvents like acetonitrile, n-butanol etc. were used to prepare crystals of paroxetine HCL by crystallization method. The drug was also exposed to stress conditions of temperature and humidity and evaluated for polymorphic transformations by dissolution, solubility, SEM, DSC etc. The dissolution study of pure drug, crystals and stressed drug was carried out in 0.1 M HCL at 50 rpm for 60 min. Among the prepared crystals and drug exposed to stress conditions, the crystals prepared from a particular solvent exhibited improved dissolution and solubility compared to other crystals and stress drug. DSC and XRD shows and indication of polymorphic transformations of paroxetine HCL during crystallization process from n-butanol. Among all these method, super saturation by cooling and cooling method using butanol as solvent shows crystals exhibiting higher melting point, high solubility and dissolution. Hence, this method was selected as optimized to achieve a better dissolution rate and further improving the bioavailability of the drug. The crystals prepared by crystallization method using n-butanol as solvent showed drug release of 92.28% in minutes.

Design formulation and evaluation of orodispersible tablet of antidiabetic drug
Andanesh C. Byahatti, Dr. F.S.Dasankoppa, Dr. H. N. Sholapur, M.Channabasavaraja,
SheetalSuragoud, MohseenArsikere

Department of pharmaceutics, college of pharmacy, KLE Academy of Higher Education and
Research (Deemed to be university), Vidyanagar, Hubballi-580031, Karnataka, India

The anti-diabetic (DPP IV) inhibitor comes under BCS class III having a plasma half-life of 12h. ODTs were prepared that disintegrates rapidly in oral mucosa and increases the bioavailability of the drug. The present study aims to design formulate and evaluate ODTs of anti-diabetic drug (DPP IV) inhibitor. ODTs were prepared by direct compression method using dibasic calcium phosphate as diluents and croscarmellose sodium as superdisintegrant. Formulation were designed using design expert software 2² full factorial design and considering calcium phosphate dibasic, croscarmellose sodium as variables. and dissolution time was taken as response.

FTIR studies reveal that there was no physico-chemical interaction between drug and excipients. Precompression parameters were carried out to study the powder flow characteristics in order to achieve tablets of uniform weight. The values were well within the permissible limits. The tablets were subjected to post compression evaluation parameters like thickness, weight variation and hardness, friability, wetting time, water absorption ratio, drug content uniformity, *in-vitro* disintegration and *in-vitro* dissolution studies.

Formulation DF1 containing 5% w/w croscarmellose sodium as superdisintegrant exhibited minimum disintegration time and wetting time 15.33±0.577 min and 23.55±1.556 min respectively and a maximum cumulative drug release of 96.04% at 15 min. Hence, DF1 formulation was the optimized formulation subjected to stability studies. The stability studies reveal that the formulation DF1 was stable when stored at 40±2°C/75±5%RH for one month

ADDD_006

Formulation and Development of *in-vitro* characterisation of chewable tablets containing an
antiemetic drug

ManerikarS, Arlekar R, Godbole A.M

Department of Pharmaceutics, P.E.S'S Rajaram and TarabaiBandekar College of Pharmacy
Farmagudi, Ponda Goa

Promethazine belongs to the class of phenothiazine group with a strong central anticholinergic action and has proven efficacy against motion sickness. Chewable tablet is required to be chewed in between the teeth before ingestion. The objective of the present study was to develop an effective formulation of Promethazine hydrochloride chewable tablets. Promethazine derivative has being widely used in the treatment of motion sickness. Promethazine chewable tablets were prepared by direct compression method using two super disintegrants such as cross carmellose and sodium starch glycolate. A total of six formulations were prepared and the tablet blend was evaluated for precompression parameters such as angle of repose, bulk density, tapped density, carr's index and hausners ratio. The formulated tablets were evaluated for dimensions, hardness, thickness, friability, disintegration and *in-vitro* drug release studies. The result showed that all the physical parameters were within the acceptable limits. FT-IR studies revealed that there was no interaction between the drug and the excipients. The *in-vitro* drug release study of formulation F4 showed 90.09% release at the end of 60 minutes. The drug release from F4 formulation was found to follow Korsmeyerpeppa's kinetics. Hence the study concludes that the formulation F4 showed best characteristic of chewable tablets.

FORMULATION AND EVALUATION OF GASTRORETENTIVE BILAYERED TABLETS OF AN ANTIBACTERIAL DRUG FOR THE TREATMENT OF HPYLORI

Dr. P. Nay R. Godbole A. M.

Department of Pharmaceutics, P.E.S.'s Rajaram and TarabaiBandeekar College of Pharmacy, FarmagudiPonda Goa -403401

The main objective of the present research work was to prepare gastroretentive bilayered tablet of antibiotic drug Clarithromycin two distinct release patterns to decrease dosing frequency and effective treatment against Helicobacter Pylori infection. The bilayered tablet of Clarithromycin formulated as immediate release layer and floating sustained release layer respectively. Clarithromycin floating sustained released layer was formulated by using HPMC K4M, HPMC K100M, Sodium bicarbonate and Citric acid were used as carbon dioxide generating agents which enable the tablet to float. Immediate release was formulated using superdisintegrants such as Croscarmellose and Sodium alginate (SSG). The prepared formulations were subjected to pre compression and post compression parameters. FTIR spectra of pure drug and physical mixtures revealed that there were no interactions confirming the compatibility of drug and other additives. Immediate release formulation IR3 and sustained release formulation SR3 showed least floating lag time and showed *in-vitro* drug release upto 24 hours compared to other formulations. Hence Gastroretentive Bilayered tablets of Clarithromycin were found to be the most suitable drug delivery in the treatment of Helicobacter pylori infection.

KEYWORDS Gastroretentive, Bilyayer tablet, Clarithromycin, Hydroxypropyl methyl cellulose

ADDD_008

FORMULATION, DEVELOPMENT AND IN-VITRO EVALUATION OF OSMOTIC DRUG DELIVERY SYSTEM FOR THE ADMINISTRATION OF AN ANTIHYPERTENSIVE DRUG

Naik V, Kunkolieker K, Godbole A.M.

Department of pharmaceutics, P.E.S.'s Rajaram and TarabaiBandeekar College of Pharmacy, FarmagudiPonda- Goa, 403401

In the present study floating osmotic tablets of Metoprolol Succinate were formulated by swellable core technology (SCT) and compression coating with floating layer to sustain the release of drug and deliver in the vicinity of its absorption site. Metoprolol Succinate is a freely water soluble drug which belongs to the class of Antihypertensive agents. It is absorbed mainly in the upper part of small intestine and has biological half-life of 3-4 hours which makes it as an ideal candidate for gastro retentive and controlled drug delivery system. In the present study core tablets of Metoprolol Succinate were compressed using different concentrations of Sodium Chloride as an osmotic agent with different swellable polymers as a retarding agent (HPMC E5, HPMC E15, HPMC K15M, HPMC K100M), and PVP K30 as the binder. Lactose monohydrate was used as the bulking agent, magnesium stearate was used as a lubricant and talc as an antiadherent. The tablets were coated with semipermeable membrane using cellulose acetate as the polymer and dibutyl phthalate as the plasticizer using acetone as the coating solvent. After drying the tablets were compression coated using HPMC K4M and Sodium bicarbonate mixture. This layer was used as a floating layer. Three orifices of 0.5 micrometer were drilled mechanically on the compression coated tablets. The best formulation F7 was selected which gave *in-vitro* drug release upto 14 hours with zero order drug release profile.

Key words- Swellable core technology, floating osmotic tablets, compression coated zero order drug release.

ADDD_009
Evaluation of Permeation Enhancing Activity of Some Permeation Enhancers for Transdermal Drug Delivery of Paliperidone

Sadashivaiah, R, Rohith, G, Satheesha Babu B.K.
Department of Pharmaceutics, Government College of Pharmacy, No. 2, P. Kalinga Rao Road, Subbaiah Circle, Bengaluru-560027, Karnataka, India.

The aim of the present study was to evaluate the permeation enhancing activity of isopropyl myristate, sodium laurylsulfate, ethanol and oleic acid through rat abdomen skin. The study included permeation of pure drug alone and with permeation enhancers. The received drug was subjected for authentication and determination of its purity by melting point, solubility, partition coefficient, ATR-FTIR, DSC, and HPLC. The results suggested that the received drug was authenticated as paliperidone and its purity at par with official pharmacopoeia. The *ex-vivo* skin permeation study for paliperidone was conducted in modified Franz diffusion cell. The 5% concentration of permeation enhancers were used. The flux, permeability coefficient and enhancement ratio of drug and with permeation enhancers were calculated. The enhancement ratio values of isopropyl myristate, sodium laurylsulfate, ethanol and oleic acid were determined to be 4.1, 3.43, 3.15 and 2.72, respectively. Isopropyl myristate has high permeation enhancing activity with the highest permeation flux of $13.383 \pm 1.042 \mu\text{g}/\text{cm}^2/\text{h}$ and enhancement rate was 4.1 folds higher than the pure drug indicating isopropyl myristate is to be better permeation enhancer than other permeation enhancers. The result reveals that the paliperidone can be formulated for transdermal patches with isopropyl myristate as a permeation enhancer for the treatment of schizophrenia.

ADDD_010
FLOATING MICROSPHERES AS GASTRO RETENTIVE FORMULATIONS FOR CONTROLLED RELEASE OF NIZATIDINE

Nilesh Gurav, Umashri Kokatamur, Rajashree Masareddy,
Amolkumar Kempwade, Ravindra Hiremath

Department of Pharmaceutics, KLES's College of Pharmacy, Akkol Road, Nipani - 591237

Present study deals with formulation and evaluation of gastro retentive microspheres of Nizatidine for site specific drug delivery for treatment of gastric ulcer. Nizatidine is histamine H_2 receptor antagonist which inhibits gastric acid secretion. Short biological half life (2-4 hrs) of Nizatidine results in decreased bioavailability which necessitates site specific controlled drug delivery. Emulsion solvent diffusion technique was used to prepare floating microspheres. The formulation was optimized using 3^2 factorial design by varying the levels of ethyl cellulose and HPMC concentration. Changes in % entrapment efficiency, % buoyancy and cumulative drug release were studied. SEM analysis was carried out. Particle size of floating microspheres was found to be in the range of 96.30 ± 2.10 to $244.23 \pm 3.18 \mu\text{m}$. The % drug content, % buoyancy and % entrapment efficiency were found to be $94.97\% \pm 2.54$, $95.39\% \pm 1.85$ and $85.88\% \pm 2.10$ respectively. The percentage cumulative drug release at the end of 12 hrs was found to be $87.57\% \pm 1.65$ which follows zero order release kinetics. SEM analysis has shown the spherical and porous structure of microspheres. Hence, from the data obtained, it can be inferred that, due to elevated % buoyancy, microspheres will remain at site of action for longer duration which results in controlled site specific drug delivery of Nizatidine. This confirms that floating microspheres based gastro retentive drug delivery system enhances therapeutic efficacy of drug.

Dear Sir,

Sub: Submission of PG seminar Report & Utilization certificate...
Ref: Your office letter No: KSTA/SLS/06/2018-19 dated: 18.07.2018

With reference to above cited subject, I am pleased to inform you that we have successfully

organized Post Graduate (PG) Seminar on *Nano Technology & Nano Pharmaceuticals* in

association with Karnataka Science & Technology Academy (KSTA) Bengaluru, Department of

Science & Technology Government of Karnataka on 15th & 16th October 2018

In this regard I am enclosing the brief report of the seminar along with necessary documents

pertaining to the events containing registration details, photographs, video CDs for your kind

reference and needful action. I am also submitting utilization certificate with audit report on

expenditure of funds. Kindly acknowledge the receipt of the report.

I thank Karnataka Science & Technology Academy (KSTA) and Department of Science and

Technology, Government of Karnataka, Bengaluru for their generous funding to organize this

program. Looking forward to have such kind of programs in future for the benefit of students and

researchers

Thanking you and regards

To develop programs to inculcate scientific temper among people, especially in rural areas of Karnataka.

- To create and disseminate knowledge base on science and technology through journals, newsletters & articles.
- Encouragement for basic science degree and post graduate students for higher learning.
- To enlighten students regarding frontier areas of science and technology and various opportunities.
- To support and organize conferences, seminars, workshops, exhibitions and quiz programs, *melas*, etc., related to science and technology propagation
- Award for lifetime achievement in S&T and science communication in Kannada
- To conduct refresher course and work shops for science teachers and Teaching faculty.
- To encourage science communication.

Aims of Programme (Special Lecture Series)

- o To disseminate knowledge in frontier areas of science and technology
- o To bring the awareness among the students regarding invention/ discoveries in the field of science and technology
- o To motivate and provide information regarding entrepreneurship development in science after PG

At the end of the lecture series, a quiz/ test will be conducted for the students on the topics of the lectures delivered and top three successful students will be awarded with the cash prize of Rs.10,000, Rs.6,000 and Rs.4,000 respectively.

Advanced Academic Training Programme

On

Anticoagulation Clinic "A Speciality practice"

Objectives:

The main objective of this training programme would be to impart quality education and practical learning to candidates.

Candidate would be able to learn about warfarin clinic concept, taking live clinical cases, ECG interpretations, CPR, X-ray interpretation, lab data interpretations and other clinical activities.

Date & Venue:

The training program took place on 3rd to 08th December 2018 at Anubhav Mantap, Dr. Prabhakar Kore Hospital and MRC, Belagavi, Karnataka.

Speakers:

The members of the training team were:

1. Prof. (Dr.) M S Ganachari, Professor and Head of Pharmacy Practice department, KLE COP, Belagavi
2. Prof. (Dr.) Ramesh Chavan, Professor, Dept. of Pathology, J N Medical College, Belagavi
3. Dr. Arathi Darshan, Professor & Head, Dept. of General Medicine, J N Medical College, Belagavi
4. Dr. Adarsh Bellad, HOD OF Biochemistry Lab, KLE Dr.Prabhakar Kore Hospital & MRC
5. Ms. Manjula G., Assistant Professor, Department of Pharmacy Practice, KLE COP, Belagavi
6. Mr. Kiran Majjigeri, Assistant Professor, Department of Pharmacy Practice, KLE COP, Belagavi
7. Dr. Satish Karoli, Assistant Professor , Department of Pharmacy Practice, , KLE COP, Belagavi
8. Dr. Anushree Deshpande, Assistant Professor , Department of Pharmacy Practice, , KLE COP, Belagavi
9. Dr. Prasad M. R, Assistant Professor & interventional Cardiologist, Dept. of Cardiology, J N Medical College, Belagavi
10. Dr. Madhav Prabhu, Associate Professor, Dept.of Medicine, J N Medical College, Belagavi
11. Dr. Jayaprakash Appajigol, Associate Professor, Dept.of Medicine, J N Medical College, Belagavi

| 11) Dr. Ramesh Bhandari, Asst. professor | 12) Mr. Uday Kumar PhD. Research Scholar |

Agenda:

The training team agreed a draft agenda prior to the training workshop (Attached as Annex 1)

Participants:

The training- workshop was attended by Pharm. D, Pharm. D (PB), M. Pharm. (Pharmacy Practice), Delegates from other college, PhD scholars & Faculty Staffs.

Total Participants – 60

External – 30 (Various institutions)

Internal – 30 (KLECOP, Belagavi)

Pharmacy Faculty Staff – 12

The Advanced Academic Training Program:

The training-workshop was opened with Inauguration Function by lightening the lamp by Chief Guest Dr. M.V. Jali, Medical Director and CEO, K.L.E's Dr. Prabhakar Kore Hospital and MRC, Dr. R.S Mudhol, Medical Superintendent, K.L.E's Dr. Prabhakar Kore charitable hospital, Dr. B.M Patil, Principal, KLE College of Pharmacy, Belagavi, Dr. M.B Patil, Vice-Principal, KLE College of Pharmacy, Belagavi, Dr. M.S. Valedictory function:-

In valedictory function Dr. M. S. Ganachari took review of all 6 days programme and delivered wonderful speech regarding the importance of attending such training. After that Dr. B. M. Patil had delivered their valuable experiences and finally the certificates were provided to the participants.

Outcome of Advanced Academic training:

Group activities made the participants more interactive among themselves and other resource persons (trainer). So it was helpful for the interactive session and this also helped to get basic and recent advances in the field.

Delegates are aware of coagulation as well as anticoagulation mechanism and also know the importance of anticoagulation clinic in the hospital setup where they can broaden their scope of Pharm. D as specialty practice in collaboration with the physician.

By advance academic training program, students are now capable to interpret the ECG, X-RAY & other laboratory interpretation and this interpretation skill builds their confidence to communication with other healthcare professionals.

Students also got exposed to bedside training, & this training gave an idea about how to analyze the patient and how to implement theoretical knowledge in practice. So it is very helpful for them during ward round.

Participants are aware of recent ICH – GCP guidelines and role & responsibility of IRB and Principal Investigators by merging the participants with the ICH-GCP Guidelines workshop participants.

SCHEDULE

Day 1: 03rd Dec. 2018 (Monday)

S.No.	Events	Speakers	Timings
1.	Welcome Address by	Prof (Dr) B.M Patil Principal, KLE College of Pharmacy, Belagavi	10:00 – 10:30
2.	Program overview	Prof (Dr) M S Ganachari Professor & Head of Department of Pharmacy Practice, KLE College of Pharmacy, Belagavi.	10:30 – 11:00
	Tea Break		11:00 – 11:15
3.	Program Plans	Prof (Dr) M S Ganachari	11:15 – 12:00
	Lunch Break		12:00 – 14:00
5.	Pathophysiology of clotting related diseases focusing on anticoagulation therapy	Dr. Ramesh Chavan Professor, Dept. of Pathology, JNMC, Belagavi	14:00 – 15:00
6.	Group Activity		15:00 – 16:30

Day 2: 04th Dec. 2018 (Tuesday)

S. No.	Events	Speakers	Timings
1.	Review/preview	By Volunteers	10:00 – 10:45
	Tea Break		10:45 – 11:00
2.	Trends in anticoagulants use: Review and Preview	Dr. Adarsh Bellad Asst. Professor, Dept. of Medicine, JNMC, Belagavi.	11:00 – 12:00
3.	Anticoagulation Clinic concept	Prof (Dr) M.S. Ganachari	12:00 – 13:00
	Lunch Break		13:00 – 14:00

ABOUT US

- K.L.E. Society's College of Pharmacy was established in 1968 in the pleasant environs of J. N. Medical College, Belgaum, with the aim of providing quality education in pharmaceutical sciences. The courses started with, Diploma in Pharmacy (1968) followed by B. Pharm (1975), M. Pharm (1988) and Ph.D Programme (2000) eventually the Pharm D Programme (2014).
- College of Pharmacy came under the K.A.H.E.R. as one of the constituent units, established in the year 2009-2010 and has NAAC 'A' (2nd Cycle) grade accreditation, 'A' category by MHRD, 62nd NIRF rank among all Indian university and 37th rank among all Indian Pharmacy institute by MHRD (Got).
- The pharmacy curriculum is approved by Pharmacy Council of India (PCI), All India Council for Technical Education (AICTE) and the UG programme is accredited by the NBA (National Board of Accreditation), AICTE, New Delhi.
- Dr. B.M. Patil is the principal of KLE College of Pharmacy. K.A.H.E.R. is supported by well-qualified and trained staff in every department.
- The college regularly conducts workshops, seminars and symposia. In the process, the college is recognized as a quality improvement programme (QIP) centre by AICTE. Workshops are conducted annually for pharmaceutical science teachers from the regions of Karnataka, Goa, and Maharashtra, Tamil Nadu, Andhra Pradesh and other states of India.

INTRODUCTION

Cardiology pharmacy plays an important role in the delivery of care to patients with cardiovascular disorders. Highly experienced

clinicians will be taking lectures on topics like Clinical Aspects of X-Ray interpretation, PT – INR monitoring, Bedside teaching, CPR-hands on training, Interpreting Lab Data, Anti-coagulation clinic Concept. However, cardiovascular disorders treatments become more complex, as the population ages, and the cardiac drug market increases, the need for knowledgeable health care practitioners has grown and the role of a clinical pharmacist has expanded to encompass all phases of patient care as part of the cardiac care team.

OBJECTIVES

- To serve as an authoritative supporting resource on the optimal use of medications and concept of Anticoagulation Clinic.
- To optimize outcome of the care of individual with cardiovascular disorder by providing evidence based, patient centered medication therapy as an integral part of interdisciplinary team.
- To involve the participants in the bed side discussion, group activities, case presentations, and role play etc.

PARTICIPANTS ELIGIBILITY

- Pharm D 5th and 6th year and Pharm.D (Post Baccalaureate), M. Pharm (Pharmacy Practice) students and newly recruited faculties, are eligible to participate. Restricted to only 15 participants

ACCOMMODATION:

Accommodation should be arranged by the participants themselves.

RESOURCE PERSONS:

Highly experienced Academicians and Cardiologists.

SEMINAR REPORT

Scope of Clinical Pharmacy at USA

Conducted by:

Department of Pharmacy Practice,
KLE College of Pharmacy, Belagavi

ATTESTED

Dr. V.A. Kothiwale
Registrar

KLE Academy of Higher Education and Research,
(Deemed-to-be University u/s 3 of the UGC Act, 1956)
Belagavi-590 010, Karnataka

Guest lecture was conducted in seminar Hall of KLE College of Pharmacy, Belagavi on 9th Jan 2019. Resource persons were alumni of our college one is Mr. Vikas Montora (B. Pharm 1992-1996) and another Mr. Ankur Parik (B. Pharm 1992-1996). Both of them gave a talk on Scope of Clinical Pharmacy in USA.

Mr. Vikas Montora

He has completed his B. Pharm from KLE College of Pharmacy, Belagavi in the year 1992-1996. After completing his B. Pharm he did MBA (1997-1999) in Pharmacy from Indian Education Society's of Pharma MBA, Mumbai.

In the year 2000, He worked as Pharmacy intern in USA. He became registered pharmacist at Florida in the year 2003. Then he worked as specialist Pharmacist in Cardio-vascular system until 2007. In the year 2007 both Mr. Vikas and Mr. Ankur started Pharmacy retail & Wholesale business.

Mr. Ankur Parik

He has completed his B. Pharm from KLE College of Pharmacy, Belagavi in the year 1992-1996. After completing his course he worked as Medical Representative in Glaxosmithkline Pharmaceuticals. In the year 1999 he went to USA and worked there as trainee. He became registered Pharmacist at Florida in 2001. Then both started Pharmacy retail and wholesale business.

Clinical pharmacists with advanced education & training who practice in all types of patient care settings have demand in USA. They participate as members of the health care team to provide high-quality, coordinated, patient-centered care to ensure that individuals and populations achieve the best possible

outcomes from their medications. Both of them highlighted the relationship between Clinical Pharmacist, Physician, Nurses and the patients in USA. They told that in USA, Clinical pharmacists assess medication-related needs, evaluate medication therapy, develop and implement plans of care, and provide follow-up evaluation and medication monitoring in collaboration with other members of the health care team.

ATTESTED

Belagavi-590 010, Karnataka

Both describe the process of examination in USA either as working (NAPLEX) or as a student (GRE) for further study. Moreover they told regarding the importance of IELTS & TOEFL while applying for the foreign countries.

Finally they encouraged to the students of Pharm. D, and M. Pharm. Pharmacy Practice to implement speciality Pharmacy in hospitals.

After this session they visited to department of pharmacy practice and site management office. Pharmacy Practice staffs interacted with them regarding the daily activities of the Clinical pharmacist like drug information, patient counselling, drug dose division, ADR Monitoring, identifying the drug related problems and health camp reports. Moreover they

discussed regarding how the clinical research activities are optimized for better learning in respect to USA.

K.L.E Society: Moment of change swept across the landscape of Karnataka and Maharashtra with the birth of KLE Society in 1916 by the vision of group of dedicated founders. This society is now acknowledged as phenomenon that has defined a meaning of quality education in the region. Today, K.L.E Society manages 267 institutions with student strength of more than 1.5 Lakh and 16,000 faculty offering world class education in Healthcare, Agriculture, Engineering, IT, Law, Pharmacy and other paramedical sciences.

KLE Academy of Higher Education and Research: Yet another chapter in the history of society was begun with a newly formed KAHER, sponsored by K.L.E Society, is recognized by University Grants Commission (UGC), reaccruited "A" grade by NAAC and placed in category "A" by MHRD, Govt. of India. KAHER takes immense pride in its curriculum and endeavors to provide internationally accepted education and healthcare practices. Setup in a sprawling campus and equipped with latest infrastructure and other facilities, KAHER is set to highlight the K.L.E Society's commitment to education for the world to see.

KLE College of Pharmacy, Belagavi: It was the first private institution in Belagavi to start a professional diploma course in Pharmacy in 1968. The college introduced B.Pharm degree course in 1975 and Post Graduation in 1988, Doctoral Degree from 2000 and Pharm.D. from 2014. College was accruited since 1999 by NBA, New Delhi. All the courses run by the institution are recognized by Pharmacy Council of India, All India Council for Technical Education and University Grants Commission. As the mark of recognition, the college has received a prestigious research project on the survey of medicinal plants of the Western Ghats, Indian Council of Medical Research (ICMR), VGST Govt. of Karnataka and also from government funding agencies like AICTE, DST, etc.

WORKSHOP REPORT

KLE College of Pharmacy, Belagavi

WORKSHOP ON "NEW TRENDS AND CONSOLIDATION PARAMETERS IN DRUG DELIVERY"

The workshop was conducted by Department of Pharmaceutics, KLE College of Pharmacy, Belagavi, on 20th September 2019.

56 Participants from different Pharmacy Colleges of Vijapur, Bagalkot, Nippani, Hubballi & Belagavi, 2 in house staff participated in the workshop.

Resource persons

DR.(SMT) F. S. DASANKOPPA. :

Topic: Product Quality through Consolidation Parameters" & "Application of DOE

MR. U. B. BOLMAL:

Topic: Similarity Factors Overview in Dissolution.

Hands on Training was conducted by

MR. CHETHAN: Starcom Information Technology - SYSTAT Software

DR. ARCHANA PATIL: Equipment's employed for Nanotechnology- Ultrasonic Probe
Sonicator & Nanotrac Particle size Analyzer

which was conducted in 3 groups monitored by faculty resource who were actively involved in training the participants.

The Programme was conducted as per the schedule, and the feedback from participants was received in the form of online Google form.

The Workshop concluded with Valedictory function.

Advanced Academic Training Programme

On

Individualized Dosage Preparation
"A Skill Based Programme"

Objectives:

The main objective of this training programme would be to impart quality education and practical learning to candidates.

Candidate would be able to learn reconstitution of drugs and dose division, Total Parenteral Nutrition, taking live clinical cases, ECG interpretations, CPR, X-ray interpretation, lab data interpretations and other clinical activities.

Module I : Bed side Teaching, X-ray Interpretation, ECG Interpretations, Lab data Interpretation and Fluid Management.

Module II : Reconstitution of drugs and dose division

Module III : Preparation of Total Parenteral Nutrition

Module III : Group Activities

Date & Venue:

The training program took place on 25th to 28th November 2019 at Anubhav Mantap, Dr. Prabhakar Kore Hospital and MRC, Belagavi, Karnataka.

Training Team:

The members of the training team were:

1. Prof. (Dr.) M S Ganachari, Professor and Head of Pharmacy Practice department, KLE COP, Belagavi
2. Dr. Manisha Bhandankar, Professor, Department of Neonatology, JNMC, Belagavi
3. Dr. Mahesh Kalloli, Consultant, Onco Surgeon, Department of Oncology, KLE's Dr. Prabhakar Kore Hospital and MRC
4. Dr. Sapna K, Consultant, Radiation oncologist, KLE's Belgaum Hospital
5. Dr. Arathi Darshan, Professor & Head, Dept. of General Medicine, J N Medical College, Belagavi
6. Dr. Adarsh Bellad, HOD OF Biochemistry Lab, KLE Dr.Prabhakar Kore Hospital & MRC
7. Ms. Manjula G., Assistant Professor, Department of Pharmacy Practice, KLE COP, Belagavi
8. Mrs. Sashikala Wali, Assistant Professor, Department of Pharmacy Practice, KLE COP, Belagavi
9. Mrs. Geetanjali Salimath, Assistant Professor, Department of Pharmacy Practice, KLE COP, Belagavi
10. Mr. Ashish Singh Parihar, Assistant Professor, Department of Pharmacy Practice, KLE COP, Belagavi

- 10) Dr. Ramesh Bhandari, Asst. professor
- 11) Ms. Aishwarya C Hiremath, Asst. Professor
- 12) Mr. Uday Kumar PhD. Research Scholar

Agenda:

The training team agreed a draft agenda prior to the training workshop (Attached as Annex 1)

Participants:

The training- workshop was attended by Pharm. D, Pharm. D (PB), M. Pharm. (Pharmacy Practice), Delegates from other college, Ph.D scholars & Faculty Staffs.

Total Participants – 84

External – 15 (Various institutions)

10 (B.M. Reddy Acharya Pharmacy College, Bangalore)

3 (KLE College of Pharmacy, Hubbli)

2 (TVM college of Pharmacy, Ballari)

Internal – 58 (KLE COP, Belagavi)

Pharmacy Faculty Staff – 10

Ph. D Scholar - 01

The Advanced Academic Training Program:

The training-workshop was opened with Inauguration Function by lightening the lamp by Chief Guest Dr. Manisha Bhandankar, Department of Neonatology JNMC, Belagavi, Dr. B. M. Patil, Principal, KLE College of Pharmacy, Belagavi, Dr. M. B. Patil, Vice-Principal, KLE College of Pharmacy, Belagavi, Dr. M. S. Ganachari, Professor and head, Department of pharmacy practice, KLE College of Pharmacy, Belagavi and other delegates.

Valedictory function:-

The valedictory function of Advanced Academic Training Programme was combined with the 2nd National Pharm. D Colloquium and certificates were provided after taking review of all 4 days programme from the participants.

Outcome of Advanced Academic training:

Group activities made the participants more interactive among themselves and other resource persons (trainer). So it was helpful for the interactive session and this also helpful to get basic and recent advances in the field.

Delegates are aware of Total Parenteral Nutrition as well as Reconstitution of the cytotoxic drugs and also know the importance of total parenteral nutrition in the hospital setup where they can broaden their scope of Pharm. D as specialty practice in collaboration with the physician.

By advance academic training program, students are now capable to interpret the ECG, X-RAY & other laboratory interpretation and this interpretation skill builds their confidence to communication with other healthcare professionals.

Students also got exposed to bedside training, & this training gave an idea about how to analyze the patient and how to implement theoretical knowledge in practice. So it is very helpful for them during ward round.

P. G. Orientation Program
Part-1 Research
Methodology

Venue: Conference Hall of DOME

August 1st to 3th 2017 (1st batch), & 7th to 9th 2017 (2nd batch)

Objectives of the Program

By the end of the workshop the participants will be able to –

1. Develop a research proposal in the health sciences by
 - a. Defining the research question,
 - b. Choosing an appropriate research design,
 - c. Performing an electronic literature search,
 - d. Critiquing research publications,
 - e. Listing the dependent and independent variables,
 - f. Identifying the statistical measures for data analysis,
 - g. Stating the anticipated outcomes of the research project,
2. Present in groups a research project that they will develop during the program,
3. Submit an electronic version of the research proposal that they have developed during the program,

Day 1

Day2	
09.00 am – 10.00am	Descriptive Studies Dr. Shivaswamy M S, Prof of Comm. Medicine
10.00 am – 11.30 am	Analytical Studies Dr Chandra Metgud , Professor. of Comm. Medicine / Dr. Asha Bellad, Asso. Prof of Comm. Medicine
11.30 am – 11.45 am	Tea Break
11.45 am – 12.45 noon	Clinical Trials Dr. Nayana Hashilkar, Prof of Pharmacology
12.45 noon – 01.45 pm	Lunch Break
01.45 pm – 03.30 pm	Critiquing Published Research, How to Present a Journal Article Dr. Jyoti Nagmoti , Prof & Head of Microbiology/ Dr Chandra Metgud, Professor. of Comm. Medicine
03.30 pm – 03.45 pm	Tea Break
03.45 pm – 4.30 pm	Seminar Presentation Dr. Sujata Jali , Prof. & Head of Pediatrics/ Dr. Sunita Patil, Prof of Pathology
4.30pm – 5.00pm	Professionalism Dr. Somashekhar Pujar, Asso. Pro of Forensic Medicine
5.00pm – 6.00pm	Resource time for group assignments
Day 3	
09.00 am – 10.30 am	Statistical Measures in Research Sri M D Mallapur , Asst. Prof of Comm. Medicine
10.30 am - 10.45 am	Tea Break
10.45 am – 12.00 noon	Statistical Measures in Research.....Continued Sri M D Mallapur , Asst. Prof of Comm. Medicine
12.00 noon – 1.15 pm	Art of writing synopsis Dr (Mrs.) N.S.Mahantashetti , Principal& Prof. of Pediatrics / Dr. Padmaja Walvekar, Prof of Comm. Medicine
1.15 pm – 1.30 pm	Counseling facilities for students Dr. Yasmeeen Nadaf , Student Counsellor, KLE University
1.30 pm – 2.15 pm	Lunch
2.15 pm – 3.45 pm	Presentation of proposals developed by the groups. (Faculty – Dr. Roopa Bellad , Prof of Pediatrics,/ Dr. Sunita Patil , Prof of Pathology/ Dr. Nayana Hashilkar , Prof of Pharmacology
3.45 pm – 04.00 pm	Tea Break
04.00 pm – 5.15 pm	Presentation of Individual Synopsis (Faculty – Dr. Roopa Bellad , Prof & Head of Pediatrics, Sri. M. D. Mallapur , Asst. Prof of Comm. Medicine & Dr. Padmaja Walvekar , Prof. of Comm. Medicine)

Quality Improvement Programmes

Conducted from 2000-2016

- Clinical Research Practice and Regulatory affairs
- Quality Assurance Methods & Strategies In New Drug Discovery
- Recent advances In Pharmacognosy
- Advances In molecular biology and pharmaceutical Biotechnology
- Quality Assurance And Pharmaceutical Regulatory Affairs - Challenges And Opportunities
- Trends In Pharmacology: Clinical trials & Toxicology
- Approaches for Drug discovery & development: Bioinformatics
- Nanotechnology & Other Innovative Methods
- Practice In New Millennium – Hospital, Clinical and Community Pharmacy
- Pharmacognosy: Phytochemistry and Drug discovery In 21st century
- Innovation In Pharmaceutical Technology and Drug Delivery System
- Advances And Techniques Involved In Pharmacological Research
- Pharmacy practice and clinical research
- Drugs for tomorrow: design and development
- Quality assurance of pharmaceuticals : meeting a major public health challenge
- Evidence Based Pharmacy Practice
- Current status & Future Perspectives in Pharmaceutical Technology
- Challenges and Opportunities In Pharmaceutical Technology & Formulation Development
- Current status & Future Perspectives in Herbal drug Research & Development
- Current Status and Future Perspectives In Pharmacology and Toxicology
- Clinical Implications of Pharmacy Practice From Bench Side to Bed Side
- Traditional Knowledge and Newer Approaches In Herbal Formulations
- Insights of innovative Technology and its applications in Pharmaceuticals
- Role of Analytical Techniques In Quality Assurance of Pharmaceuticals
- Recent Trends In Drug Discovery and Analytical Techniques

Duly filled Registration Form and DD should be sent to

ABOUT US

The KLE University was established on 13th April, 2006 as per the Ministry of Human Resource Development, Government of India, under the recommendation of University Grants Commission.

The University offers various Undergraduate, Postgraduate, Post doctoral fellowship and certificate programs in the faculties of Medicine, Dentistry, Pharmacy, Ayurveda, Physiotherapy and Nursing.

The professional achievements and standards set by the College have bestowed on it a reputation that has travelled beyond India. The College has signed MOU with Rhodes University, South Africa under which faculty members are exchanged, periodically & facilitates programme in Pharmacy Practice & Natural product research.

As part of its future plans, the institution is working towards international accreditation, a state of the art cell and Molecular Biology lab, a Bioinformatics Division will also be added to put the College on par with other International Institutions.

As the mark of recognition, the college has received prestigious research project on the survey of medicinal plants of the Western Ghats, Indian Council of Medical Research (ICMR), VGST Govt. of Karnataka and also from government funding agencies like AICTE, DST, etc.

OBJECTIVES

- To orient teachers in emerging areas of Drug Discovery.
- To sensitize the teachers in the current trends of Drug Discovery.
- Articulate a compelling vision to the future by encouraging and implementing non-traditional thinking to deal with traditional problems in an organization.
- To provide an opportunity for pharmacy teachers to improve their academic, technical and professional skills relevant to the needs of new millennium.
- Assist teachers to set high standards in training the students to achieving quality products in herbal industry and to lead a company/institute towards achieving global standards.
- To develop documentation/research writing expertise in the Pharma QA & QC Domain pertaining to herbal formulations.
- To provide a platform to discuss the various available alternatives techniques in pharmaceutical chemistry teaching.
- To upgrade their Knowledge towards Research in the area of drug discovery.

TOPICS TO BE COVERED:

1. Recent advances in formulation development
2. Impurity profiling of pharmaceuticals
3. Advanced Solid Dosage Manufacturing Processes
4. Stability testing protocol for pharmaceutical products
5. Challenges and strategies of formulating macromolecules
6. Recent trends and future of pharmaceutical packaging Technology
7. Regulatory and quality aspects of herbal drugs and standardization
8. Quality by Design (QbD) in product development
9. Future perspectives in pharmaceutical technology

PARTICIPANTS / ELIGIBILITY

- Teachers of all AICTE approved degree Pharmacy Colleges having less than / upto 10 years of teaching experience.
- Allowances will be paid as per AICTE norms.
- Number of Participants are restricted to 30 only.

ACCOMMODATION

Accommodation will be provided to the participants in hostel on request basis.

RESOURCE PERSON

Highly experienced faculty members from Academia & Pharmaceutical Industries

REGISTRATION

Registration Fee of Rs. 200/- (Two hundred only) should be sent by DD drawn in favour of Chief Co-ordinator QIP Cell, KLE University's College of Pharmacy, Belagavi.

ONE DAY WORK SHOP ON ROLE OF CLINICAL PHARMACIST IN MANAGEMENT OF RENAL DISEASES

Department of Pharmacy Practice

KLE College of Pharmacy, Belagavi-10

Date: 14th March 2018

INTRODUCTION

Renal disease, also known as nephropathy. Renal disease of both acute and chronic can be attributed to a variety of causes which include genetics, injuries and medicine. The damage is usually irreversible and can lead to ill health in CKD. Management of this disease is complex and needs to calculate dose according to renal impairment severity by using formula. In some cases dialysis or transplantation may become necessary.

Objectives

- To know the significant roles and responsibilities of clinical Pharmacist in management of renal disease
- To Explain procedures for performing dialysis
- To Design a treatment protocol for a CKD patient
- To calculate protein, calorie, and fluid intake for the patients.

Workshop coordinators (Department of Pharmacy Practice)

1. Prof (Dr.) M S Ganachari, Professor & Head
2. Mrs. Shashikala C Wali, Assistant Professor.
3. Mrs. Geetanjali S Salimath, Assistant Professor.
4. Ms. Manjula.G Assistant Professor.
5. Mr. Kiran Majjigeri, Assistant Professor.
6. Dr. Satish Karoli, Assistant Professor.

03rd May 2018

Under the auspices of
**University Department of
Education for Health
Professionals (UDEHP)**

Organized by

KLE Society (Karnatak Lingayat Education Society) was started in 1916 by a group of young dedicated teachers and patrons. This Society aims to empower people through education and is well recognized for its quality education and health care services. Today, KLE Society manages around 250+ institutions with more than 11 lakh student strength, and 16000+ employees offering world-class education in Healthcare, Pharmacy and paramedical sciences, Engineering, Management, Law and Agriculture. The educational services include School, Pre-University, Graduate and Post Graduate education

KLE Academy of Higher Education and Research is sponsored by KLE Society was established in Belagavi in 2006 to highlight the Society's commitment to healthcare and Science education. KAHER is recognized by University Grants Commission (UGC), reaccredited "A" grade by NAAC and placed in category "A" by MHRD, Govt. of India. KAHER provides internationally accepted education and healthcare practices, with impetus on research. University takes immense pride in its top class faculty, curriculum and well equipped infrastructure. The institutions of Medicine, Dentistry, Physiotherapy, Nursing, Pharmacy and Ayurveda are under the ambit of this

About the Department:

The Department of Pharmacy Practice is located at the K.L.E.S Dr. Prabhakar Kore Hospital and Medical Research Center, which is a 2400 bed multispecialty teaching hospital. The hospital has all the basic infrastructure along with a host of super specialties. Pharmacy practice is a branch in the pharmacy profession, which deals with the study of drug related problems at various setting like clinical, hospital and community pharmacies. This branch is a paradigm shift from product-oriented discipline, to patient oriented discipline. **Daily Activities:** Unit dosage preparation of Antifungal drugs, Anticancer drugs, Antihypertensive drugs, Antibiotics, etc. are done as per the requirement of patients. **Ward Rounds:** Ward rounds are performed on daily basis along with medical professionals including doctors, PGs, interns, nurses, etc. **Drug Information:** We have access to Micromedex as a source of drug information to

CHIEF CO-ORDINATOR

resolve the drug queries received by physician, nurses, PGs, etc.

About the Workshop:

In 2014, India re-established new guidelines and protocols for patient consent, patient reimbursement, and adverse events, and issued a directive that clinical trials could only be carried out at accredited centres. More checks and balances have been put in place for certification of sites, ethics committees. Central Drug Standards Control Office (CDSCO) has also issued GCPs inspection checklist recently in August 2016 and is helpful for sponsors and sites. Overall, this translates into better quality trials and cleaner data than what existed prior to the overhaul, the evolving process positively supports clinical research in India while appropriately balancing patient safety. With GCP and world-class investigators supported by a large patient base, clinical trials in India could be the solution that the industry is seeking for high quality data, expeditious study enrollments.

Eligibility:

- The Workshop is open for all faculty members.

Registration fee: Rs.300/-

DD drawn in favour of *Registrar, KLE University, Belagavi* drawn on any nationalized bank, payable at Belagavi. Kindly fill in your details legibly in the application (Photostat copy of this is acceptable) and send the same to following address along with DD on/ before **30th April 2018**. The detailed schedule will be conveyed to you by electronic mail, once the application is received.

1. Which factors particularly helped your learning to-day?

- CIOMS and SMO visit
- CIOMS reporting in clinical research
- Clinical research Analysis
- Both sessions are good
- ADR Reporting
- Visit to SMO, the setup, documentation, overall structure of SMO and its working pattern
- Approaches to clinical research was effective

ATTESTED

P. G. Orientation Program
Part-1 Research
Methodology

Venue: Conference Hall of DOME

August 1st to 3th 2017 (1st batch), & 7th to 9th 2017 (2nd batch)

Objectives of the Program

By the end of the workshop the participants will be able to –

1. Develop a research proposal in the health sciences by
 - a. Defining the research question,
 - b. Choosing an appropriate research design,
 - c. Performing an electronic literature search,
 - d. Critiquing research publications,
 - e. Listing the dependent and independent variables,
 - f. Identifying the statistical measures for data analysis,
 - g. Stating the anticipated outcomes of the research project,
2. Present in groups a research project that they will develop during the program,
3. Submit an electronic version of the research proposal that they have developed during the program,

11.45 am – 12.45 noon	Clinical Trials Dr. Nayana Hashilkar, Prof of Pharmacology
12.45 noon – 01.45 pm	Lunch Break
01.45 pm – 03.30 pm	Critiquing Published Research, How to Present a Journal Article Dr. Jyoti Nagmoti , Prof & Head of Microbiology/ Dr Chandra Metgud, Professor. of Comm. Medicine
03.30 pm – 03.45 pm	Tea Break
03.45 pm – 4.30 pm	Seminar Presentation Dr. Sujata Jali , Prof. & Head of Pediatrics/ Dr. Sunita Patil, Prof of Pathology
4.30pm – 5.00pm	Professionalism Dr. Somashekar Pujar, Asso. Pro of Forensic Medicine
5.00pm – 6.00pm	Resource time for group assignments
Day 3	
09.00 am – 10.30 am	Statistical Measures in Research Sri M D Mallapur , Asst. Prof of Comm. Medicine
10.30 am - 10.45 am	Tea Break
10.45 am – 12.00 noon	Statistical Measures in Research.....Continued Sri M D Mallapur , Asst. Prof of Comm. Medicine
12.00 noon – 1.15 pm	Art of writing synopsis Dr (Mrs.) N.S.Mahantashetti , Principal& Prof. of Pediatrics / Dr. Padmaja Walvekar, Prof of Comm. Medicine
1.15 pm – 1.30 pm	Counseling facilities for students Dr. Yasmeen Nadaf , Student Counsellor, KLE University
1.30 pm – 2.15 pm	Lunch
2.15 pm – 3.45 pm	Presentation of proposals developed by the groups. (Faculty – Dr. Roopa Bellad , Prof of Pediatrics,/ Dr. Sunita Patil , Prof of Pathology/ Dr. Nayana Hashilkar , Prof of Pharmacology
3.45 pm – 04.00 pm	Tea Break
04.00 pm – 5.15 pm	Presentation of Individual Synopsis (Faculty – Dr. Roopa Bellad , Prof & Head of Pediatrics, Sri. M. D. Mallapur , Asst. Prof of Comm. Medicine & Dr. Padmaja Walvekar , Prof. of Comm. Medicine)

Workshop on Quantitative Phytochemical Analysis

Internal Skill Development Program *Nipuna- 2017*

CRF is organizing an internal skill development program – "Workshop on Quantitative Phytochemical Analysis" on 12-14th August 2017 in ASU DTL.

Training Methods: Demonstration & hands on Training

Training areas:

UV Spectroscopy

Sugars – Total Sugars, Reducing Sugars, Non Reducing Sugars

Total Alkaloids

Total Flavonoids

Total Phenols/Tannins

Titrimetric analysis

Inorganic elements

Fe, Ca, Hg, S, Zn, Cu

Sugars – Total Sugars, Reducing Sugars, Non Reducing Sugars

Isolation & Estimation of phytochemicals

Curcumin

Resource Person: Dr. Prashant Kumar Jha MSc, PhD
HoD., Quality Control Dept.,
ALN Rao Ayurvedic Medical College, Koppa, Karnataka

Participants:

Dr Vedantam Giridhar
Dr Gundakalle M B
Mr Ajit Lingayat
Dr Santosh Patil
Dr Veena Kupati
Dr Shrutika Karoshi
Miss. Amruta Ekbote

*Dr R R U also
must attend*

Program Schedule:

Date & Time	Session No.	Topic
12-08-17 9:30- 1:00 PM	I	Preparation of Stock Solutions and Reagents
12-08-17 2:00- 5:00 PM	II	UV Spectroscopic studies - Sugars
13-08-17 9:30- 1:00 PM	III	UV Spectroscopy- Alkaloids, Flavonoids
13-08-17 2:00- 5:00 PM	IV	Isolation of Phytochemicals, UV Spectroscopy – Phenols
14-08-17 9:30- 1:00 PM	V	Titrimetric analysis – Inorganic elements – Ca, Zn, S
14-08-17 2:00- 5:00 PM	VI	Titrimetric Analysis- Hg, Fe, Cu & Sugars

Contact Number: 09742424407, 08265-223067

Career Objective

Result oriented, detailed professional with comprehensive experience in herbal medicines. Background includes consistent to positions of increased responsibilities. Fine hands with identification, cultivation and quality assurance of medicinal plants; extraction of phytochemicals; development of garden and fields for medicinal plants; pollution control by means of utilization of herbs, germplasm conservation, conservation of living beings; maximum utilization of workforce; giving back the maximum returns on money invested by the organization.

Qualification Summary

Ph.D. (Medicinal Plants), Postgraduates (Double) in Medicinal Plants and Ecology & Environment, Diploma in Management, Certificate in Intellectual Property Right.

Skills

Identification of Medicinal Plants morphologically, anatomically and chemically ~ Quality assurance (GAP to GMP) ~ Pollution Control ~ Diversity Maintenance of Plants ~ Development of garden and field for Medicinal plants ~ Conservation of Living being specifically Medicinal Plants ~ Utilization of Human workforce

Accomplishments

Facilitating Organization's growth, projects on development of medicinal plants garden and field, quality herbs, ecological balance, conservation of medicinal plants have successfully completed. Few of them are in progress.

Special Skills

1. Computer proficiencies
2. Answering multi-lined phone systems, taking dictation (include speed), transcription, typing etc. (Office-procedures)
3. Fluency in English, Hindi, Gujarati, Bhojpuri, Maithali and ability to translate, etc.

Research Experiences

On Medicinal Plants (Pharmacognosy and Taxonomy), Phytochemicals, Herbo-minerals, Ecology and Agricultural Sciences

ATTESTED

Dr. V.A. Kothiwale
Registrar

KLE Academy of Higher Education and Research,
(Deemed-to-be-University u/s 3 of the UGC Act, 1956)

DR. PRASHANT KUMAR JHA

Working Experience

1. Head cum Reader (Since September 2008), Quality Control of Drugs, ALN Rao Memorial Ayurvedic Medical College, Koppa, Dist.-Chikmagalur, Karnataka.
2. Editor, ARMARC, Journal, Published from ALN Rao Memorial Ayurvedic Medical College, Koppa, Dist.-Chikmagalur, Karnataka.
3. Five years (2002-2008) teaching experience of Medico-botany to M.Sc. (Medicinal Plants) 1st and 2nd year students
4. Two years (2003-2005) teaching experience of Pharmacognosy to B.Pharma (Ayu.) in Institute of Ayurvedic Pharmaceutical Science
5. One year (2004-2005) teaching experience of Environmental Science and Dravyaguna to B.Pharma (Ayu.) in Institute of Ayurvedic Pharmaceutical Science
6. Three months experience (2001) of working as Research Assistant in R&D department of Shree Baidyanath Ayurved Bhawan Pvt. Ltd., Patna
7. One-month experience (2002) as Research Assistant for an NGO related to conservation of plants and culture of High altitude.
8. Consultancy for Identification and Cultivation of Indian Medicinal Plants
9. Working with farmers of Jamnagar on Identification and Cultivation of Medicinal Plants for a NGO (Part time)
10. Worked for Project of Medicinal Plant in I.C.M.R. with Prof. M.G. Chahuan, Member, ICMR, New Delhi
11. Project Manager for uses of domestic herbal drugs, their preparations and cultivation of related herbs under an NGO (Part time)
12. R&D Manager on Consultancy basis for K.K. Herbal Industries, Sarvagya Pratishtha, Limbgaon, Nanded, Maharashtra
13. Consultancy for Medicinal Plant Cultivation and Herbal Drug Designing to Glow Pharma, 302, CHS, Kondogri, Andheri (East), Mumbai.

Educational Qualifications

1. **Ph.D.(Medicinal Plants, specialization in Pharmacognosy):** Granted in 2008, July, Gujarat Ayurved University, Jamnagar
2. Post Graduation: **M.Sc. (Medicinal Plants)**
Institute: Institute of Medicinal Plant Sciences (Now under PGT-SFC, IPGT & RA), Gujarat Ayurved University, Jamnagar.
Year of passing : August 2001
Grade : Ist Division
Percentage (M.Sc. 2nd year) : 72.4%
4. Post Graduation: 2 years **Post Graduate Diploma in Ecology and Environment**
Institute: Indian Institute of Ecology and Environment, New Delhi

ON
LABORATORY PROCEDURES

21st to 25th Nov 2017

Organized

By

Dr. Prabhakar Kore Basic science Research Centre

TRAINING SCHEDULE

Timing 9:30 am to 1:00 pm everyday

Date	Particular
21/11/17	Molecular Biology
22/11/17	Molecular Biology & Microbiology
23/11/17	Microbiology & Instrumental Analysis & Bio pharmaceuticals Laboratory
24/11/17	Instrumental Analysis & Bio pharmaceuticals Laboratory
25/11/17	Cell Culture & Natural Product Laboratory

ATTESTED

Dr. V.A.Kothiwale
Registrar

KLE Academy of Higher Education and Research,
(Deemed-to-be-University u/s 3 of the UGC Act, 1956)
Belagavi-590 010, Karnataka

Feature of Programme:

1) Hands on training on following Procedures & Instruments:

- a. Isolation of Genomic DNA from Blood and Quantification by Biophotometer.
- b. PCR: Programming, preparation of Master mix for PCR
- c. Media Preparation, plating, transferring culture from stock to liquid media and agar plate, ABST
- d. Well plate method, MIC result, Anaerobic chamber Demonstration.
- e. AAS: for metal estimation demonstration with standards
- f. Brookfield viscometer: Demonstration
- g. Dissolution test apparatus : Demonstration
- h. UPLC & HPLC Demonstration
- i. Vertical Diffusion cell System: Demonstration
- j. Revival of different cells & MTT Assay in cell culture.
- k. Extraction techniques by Soxhlet apparatus & Rotaevaporator.

2) Help in **update Knowledge** in field of **molecular Biology, Microbiology, High end instrumental analysis, Bio Pharmaceutics & Extraction techniques.**

3) **Updated information** about **various application** of above procedures & Instruments **in drug analysis.**

ONE DAY WORKSHOP

Chromatographic Techniques

The KLE University, KLE College of Pharmacy, Belagavi, department of Pharmacognosy in association with Dr. Prabhakar Kore BSRC, Belagavi organized one day workshop on "Chromatographic Techniques" on 15/07/2016 in Pharmacognosy and BSRC laboratories..

The workshop was conducted by Dr.K.K Hulatti and other staffs of KLE College of pharmacy and BSRC, Belagavi. Around 30, staffs from inside and outside college have benefited by this workshop.

Dr.K.K.Hulatti explained and demonstrated use and handling of instruments for various Chromatographic Techniques like Flash chromatography,HPLC and HPTLC

GUEST LECTURE

Opportunities and Challenges in Clinical Research

The KLE University, KLE College of Pharmacy, Belagavi, department of Pharmacy practice organized guest lecture on “Opportunities and Challenges in Clinical Research” on 16/ 08/ 2016 in College seminar hall.

The guest lecture was inaugurated by **Dr. B. M. Patil**, principal KLE College of Pharmacy Belagavi , **Dr. M.S Ganachari**, head of department of Pharmacy practice introduced the speaker **Dr.Appajigol**, KLE Hospital Belagavi . The guest speaker delivered lecture on Opportunities and Challenges in Clinical Research. Around 42 M. Pharm and Pharm d 2nd & 3rd year students have benefited with this workshop.

CO-ORDINATORS REPORT ON PG Orientation Program

Title of the workshop: Research Methodology

Date: August 10th to 12th 2015 (1st batch), & 17th to 19th 2015 (2nd batch)

Name of the coordinator: Dr. Padmaja Walvekar

Total number of participants registered: 91

In house: 91

External: NA

P. G. Orientation Program Part-1 Research Methodology

Venue: Conference Hall of DOME

August 10th to 12th 2015 (1st batch), & 17th to 19th 2015 (2nd batch)

Objectives of the Program

By the end of the workshop the participants will be able to –

1. Develop a research proposal in the health sciences by
 - a. Defining the research question,
 - b. Choosing an appropriate research design,
 - c. Performing an electronic literature search,
 - d. Critiquing research publications,
 - e. Listing the dependent and independent variables,
 - f. Identifying the statistical measures for data analysis,
 - g. Stating the anticipated outcomes of the research project,
2. Present in groups a research project that they will develop during the program,
3. Submit an electronic version of the research proposal that they have developed during the program,

Day 1	
09.00 am – 09.15 am	Pre Test
09.15 am – 09.30 am	Welcome and Introduction of participants Dr Shilpa Bhimalli, Asso. Prof of Anatomy
09.30 am – 10.15 am	Objectives of Postgraduate Medical Education Dr N. S. Mahantshetti, Principal & Prof of Pediatrics, JNMC
10.15 am - 10.30 am	Tea Break
10.30 am – 11.15 am	An approach to research in the health sciences. Dr A.S.Godhi, Prof. of Surgery
11.15 am – 12.15 pm	Ethical Issues in Research & Guidelines for Good Clinical Practice Dr N. M. Patil, Prof. of Psychiatry.
12.15 pm – 12.45 pm	Ethical Issues in Animal use in Research Dr. Vijaya Dandannavar, Asso. Prof of Physiology/ Dr. Nirmala Anand, Asst. Prof of Physiology
12.45 pm – 01.15 pm	Communication Skills – Dr. S. C. Metgud, Prof of Surgery
01.15 pm – 2.00 pm	Lunch Break
02.00 pm – 02.45 pm	The Eight Steps Approach to Design a Research Project. Dr. Roopa Bellad, Prof. & HOD of Pediatrics
02.45 pm – 04.00 pm	Defining the research question – Activity in groups Dr. S. S. Goudar, Prof of Physiology & Research Co-ordinator, UMKC, JNMC
04.00 pm – 4.15 pm	Tea Break
04.15 pm – 05.00 pm	Defining the research question – Activity in groups CONTINUES...
05.00 pm – 5.45 pm	Performing an Electronic Literature Search Dr. Vishwanath Pattanshetti, Asso. Prof of Surgery/ Dr. Bhagyashri Hunagund, Asso. Prof of Pathology

Day 2	
09.00 am – 10.00am	Descriptive Studies Dr. Padmaja Walvekar , Prof of Comm. Medicine / Dr. Shivaswamy M S, Prof of Comm. Medicine
10.00 am – 11.30 am	Analytical Studies Dr Chandra Metgud , Professor. of Comm. Medicine / Dr. Asha Bellad, Asso. Prof of Comm. Medicine
11.30 am – 11.45 am	Tea Break
11.45 am – 12.45 noon	Clinical Trials Dr. Padmaja Walvekar , Prof. of Comm. Medicine/ Dr. Nayana Hashilkar, Asso. Prof of Pharmacology
12.45 noon – 01.45 pm	Lunch Break
01.45 pm – 03.30 pm	Critiquing Published Research, How to Present a Journal Article Dr Chandra Metgud , Professor. of Comm. Medicine / Dr. Jyoti Nagmoti, Prof & Head of Microbiology
03.30 pm – 03.45 pm	Tea Break
03.45 pm – 4.30 pm	Seminar Presentation Dr. Sujata Jali , Prof. of Pediatrics / Dr. Sunita Patil , Asso. Prof of Pathology
4.30pm – 5.00pm	Professionalism Dr. Roopa Bellad , Prof. & HOD of Pediatrics / Dr. Somashekhar Pujar, Asso. Pro of Forensic Medicine
5.00pm – 6.00pm	Resource time for group assignments
Day 3	
09.00 am – 10.30 am	Statistical Measures in Research Mr M D Mallapur , Asst. Prof of Comm. Medicine
10.30 am - 10.45 am	Tea Break
10.45 am – 12.00 noon	Statistical Measures in Research.....Continued Mr M D Mallapur , Asst. Prof of Comm. Medicine
12.00 noon – 1.15 pm	Art of writing synopsis Dr (Mrs.) N.S.Mahantashetti , Principal& Prof. of Paediatrics / Dr. Padmaja Walvekar, Prof of Comm. Medicine
1.15 pm – 1.30 pm	Counseling facilities for students Dr. Yasmeen Nadaf , Student Counsellor, KLE University
1.30 pm – 2.15 pm	Lunch
2.15 pm – 3.45 pm	Presentation of proposals developed by the groups. (Faculty – Dr. Roopa Bellad , Prof & Head of Pediatrics,/ Dr. Sunita Patil , Asso. Prof of Pathology/ Dr. Nayana Hashilkar , Asso. Prof of Pharmacology
3.45 pm – 04.00 pm	Tea Break
04.00 pm – 5.15 pm	Presentation of Individual Synopsis (Faculty – Dr. Roopa Bellad , Prof & Head of Pediatrics, Mr. M.D.Mallapur , Asst. Prof of Comm. Medicine & Dr. Padmaja Walvekar , Prof. of Comm. Medicine)

ABOUT US

- K.L.E. Society's College of Pharmacy was established in 1968 in the pleasant environs of J.N. Medical College, Belgaum, with the aim of providing quality education in pharmaceutical sciences. The courses started with Diploma in Pharmacy (1968) followed by B.Pharm (1975), M. Pharm (1988) and Ph.D Programme (2000) eventually the Pharm D Programme (2014).
- College of Pharmacy came under the K.L.E. University as one of the constituent units, established in the year 2009-2010 and has NAAC 'A' grade accreditation.
- The pharmacy curriculum is approved by Pharmacy Council of India (PCI), All India Council for Technical Education (AICTE) and the UG programme is accredited by the NBA (National Board of Accreditation), AICTE, New Delhi.
- Dr. V.P. Rasal is the principal and Dr. B.M. Patil is the Dean, Faculty of the Pharmacy. KLE University is supported by well-qualified and trained staff in every department.
- The college regularly conducts workshops, seminars and symposia. In the process, the college is recognized as a quality improvement programme (QIP) centre by AICTE. Workshops are conducted annually for pharmaceutical science teachers from the regions of Karnataka, Goa, and Maharashtra, Tamil Nadu, Andhra Pradesh and other states of India.
- The college has signed an MOU with Rhodes University South Africa, University of Illinois (UIC) and University of Missouri (UM) at Columbia, Goa College of Pharmacy Goa for exchange of faculty and research students to conduct innovative programmes in post graduate and post doctoral research. UIC and UM mainly concentrate on PG diploma in clinical research and Nano medicine.
- As part of its future plans, the institution is working towards international accreditation. A state-of-the-art Cell and Molecular Biology Lab, Bio-Informatics division, is envisaged to enhance the college to be on par with other international institutions

INTRODUCTION

Candidates would be able to learn oncology pharmacy practice aspects, live clinical cases, medical

terminologies, clinical pharmacy aspects including drug information, ADR monitoring, hospital pharmacy, community pharmacy, and some other important clinical activities. Highly experienced clinicians will be taking these topics. Clinical Aspects of X-Ray examination, Fluid management, CPR-hands on training, Interpreting Lab Data.

OBJECTIVES

- Serve as an authoritative resource on the optimal use of medications used to treat individuals with cancer.
- Optimize the outcomes of the care of individuals with cancer by providing evidence-based, patient-centered medication therapy as an integral part of an interdisciplinary team.
- Manage and improve the medication-use process in oncology patient care areas.
- Demonstrate excellence in the provision of training or educational activities for health care professionals and health care professionals in training.
- Promote health improvement, wellness, and cancer prevention.
- Sustain the ongoing development of expertise and professionalism in the practice of oncology pharmacy.
- Conduct oncology pharmacy practice research.
- Function effectively in oncology settings participating in clinical investigations.

PARTICIPANTANTS ELIGIBILITY

- Faculty members working in AICTE approved institutions having Pharmacy Practice background.

RESOURCE PERSONS:

Highly experienced faculty members from Academics and Clinical side.

KLE UNIVERSITY
Reaccredited with 'A' Grade By NAAC

KLE University's College of Pharmacy, Belagavi, India
Cordially invite you for the inaugural Ceremony of the
20th National Convention of Society of Pharmacognosy
26th & 27th March 2016

**NEWER APPROACHES FOR DEVELOPMENT AND PROMOTION OF
NATURAL PRODUCTS**

Chief Guest
DR. PRABHAKAR B. KORE ^{MP}
Hon'ble Chancellor, KLE University & Chairman, KLE Society.

Guest of Honour
PROF. (DR.) CHANDRAKANT KOKATE
Vice-Chancellor, KLE University & National Advisor SOP

PROF. (DR.) V. K. DIXIT
President, Society of Pharmacognosy
Will preside over

PROF. (DR.) S. P. VYAS
Professor, Department of Pharmaceutical Sciences
Former Vice-Chancellor, H.S. Gour Vishwavidyalaya, Sagar, MP
Shall deliver the key note address

We request your esteemed presence on this occasion

Venue
KLE Centenary Convention Centre

20th National Convention of Society of Pharmacognosy
Program Schedule

Day 1, Saturday, 26th March 2016	
7:30 - 9:00 hrs	Registration and Breakfast
9:30 - 11:00 hrs	Inaugural Function - 20 th ISP Convention
11:00 - 11:30 hrs	Opening Ceremony of Exhibition & Tea Break @ KLECCC Lounge
11:30 - 12:00 hrs	Keynote Address
12:00 - 12:30 hrs	Plenary Lecture - 1
12:30 - 13:00 hrs	Plenary Lecture - 2
13:00 - 13:30 hrs	Plenary Lecture - 3
13:30 - 14:30 hrs	Lunch Break @ Foyer
14:30 - 18:00 hrs	Visits To Group-I : KLEU Dr. Prabhakar Kore Basic Science Research Centre [BSRC] Regional Medical Research Centre [ICMR] KLEU Shri BM Kankanawadi Ayurveda Mahavidyalaya Group-II: KLEU Shri B M Kankanawadi Ayurveda Mahavidyalaya KLEU Dr. Prabhakar Kore Basic Science Research Centre [BSRC] Regional Medical Research Centre [ICMR] Group-III: Regional Medical Research Centre [ICMR] KLEU Shri B M Kankanawadi Ayurveda Mahavidyalaya KLEU Dr. Prabhakar Kore Basic Science Research Centre [BSRC]
17:30 - 18:30 hrs	Executive Committee Meeting
18:30 - 19:30 hrs	Entertainment Program by KLE University's College of Pharmacy Students
20:00 hrs Onwards	20 th National Convention of Society of Pharmacognosy Banquet @ KLE University Musical Fountain Garden
Day 2, Sunday, 27th March 2016	
9:30 - 10:00 hrs	Plenary Lecture - 4
10:00 - 10:30 hrs	Plenary Lecture - 5
9:30 - 11:30 hrs 11:45 - 13:45 hrs	Poster Session - I Poster Session - II
11:00 - 11:20 hrs	Tea Break
11:30 - 13:30 hrs	Panel Discussions <i>" Restructuring of Post Graduate Programme in Pharmacognosy "</i>
13:30 - 14:30 hrs	Lunch Break @ Foyer
14:30 - 15:30 hrs	Valedictory Function
15:30 - 16:00 hrs	High Tea

Emerging Molecular Paradigms in Modern Pharmacognosy

Prof. S. P. Vyas

Former Vice Chancellor, Dr. Hari Singh Gaur Vishwavidyalaya, Sagar [MP]

Abstract

With emergence of molecular biology; genetic engineering system biology and high throughput screening techniques, the traditional pharmacognosy has undergone great transformation. Knowledge in the area of proteomics; metabolomics and genomics has further expanded the scope of research and judicious applications of evolving technology in the development and bio-prospecting of herbal technology in particular and pharmacognosy in general. Herbal therapeutics which could encave a central place in modern medicine due to limited to no side effects and possibilities of hyphenation to be more effective combinatorial approach, entails for systematic explorations for identification, lead determination, effective extraction; bioassay guided fractionation, Clinical evaluations and eventually formulation development adjuvanted with novel drug delivery approaches.

The genetic engineering is one of the most reliable techniques used in fast identification of plants and plants based raw materials and also it effectively discriminates between adulterants and pure drugs; with minute details of species as well. The popularly and successfully used techniques include RAPD, AFLP, ISSP, VNTR, SNP etc. thus, species variation and active principle yield can be detected. Likewise, hyphenation of genetic techniques with modern analytical technique such as capillary electrophoresis, HPTLC, HPLC, RAMAN spectroscopy GC mass etc can be used for quantitation of biomarker and precisely in standardization of herbal formulations. It is pertinent to discourse on genetic transformations and transgenic medicinal plants using the methods based there on plant can be used as bioreactors for MAbs and other plantibodies synthesis and production and also to make them pest and herbicide resistant and more so for taming the engineered immunology in order to enable them resist the viral infection. Realization of fact that heterologous protein can be expressed in plants; the edible vaccines have been developed for mucosal immunization. It is now possible to manipulate the secondary metabolite production via up regulation of key enzyme(s) and repression of other pathways. The herbal therapeutics have extensively been studied for effective and improved therapeutic efficiency using novel drug delivery systems and nanotechnology; they include phytosome, smart bomb(s), nanoparticles, glycospheres, liposomes, transferosomes etc. However, there stands a number of nagging questions to be answered and an algorithm of problems to be squared up to make herbal drug formulations to be more effective and acceptable.

Issues in scientific validation of Traditional Medicines

S.L. Hoti

Scientist 'G' and Director-in-Charge,
Regional Medical Research Centre (ICMR), Nehru Nagar, Belagavi

The familiarity of humankind with plant species producing food, medicine, essential oil etc. dates back to beginning of civilization. This dependency of man on the plants around him made him to acquire the knowledge of medicinal properties of many plants by trial and error. WHO reports state that 70% of global population still rely on this traditional systems of medicines for its primary healthcare. Though these traditional systems of medicines, mostly plant based drugs, are acceptable, popular and believed to be having lesser side effects, their scientific validation is far from the reality in most of the cases. This is not only hindering the globalization of our vast traditional knowledge, but also resulting in decreasing usage, leading towards extinction of this ageold information base. Therefore, combined efforts are required from all the stakeholders to protect, revive and globalize the diminishing wealth of herbal healing tradition.

The prime concern with the traditional medicines, especially the ethnomedicine, is its safety. Traditional/herbal medicinal products are often regarded to be safe based on the rationale that they are derived from natural sources. This may not be true, as it evidenced that, there are several plant materials, which are lethal to humans. Similarly, the acclaimed efficacy of traditional medicines in several cases are not proven and need to be scientifically evaluated.

The quality of the herbal medicines/preparations is a major issue, which is discussed very often. Most of the time, the quality of the final intended preparation is not achieved, because of the quality of the crude drug or starting material. Hence the correct identity and quality assurance is required for the starting plant materials. The quality of these materials also dependent on the soil and geoclimatic conditions, which influence the variation in their chemical properties, including the level of heavy metals. In addition, the problems of adulteration and substitution is also one of the major problems in mainstreaming of traditional medicines.

The efforts on developing SOPs for traditional preparations, evaluating their stability and shelflife are required for standardizing these preparations. The well designed pre-clinical studies for the safety and efficacy of these preparations and well controlled clinical evaluations are also required for providing the scientific basis for these traditional formulations, which is lacking for most of these practices.

With the changing scenario and global resurgence of herbal and traditional medicines, the unexplored gold mines of Indian traditional practices have to be explored to provide their benefits not only to the local community, but to cater the health needs of the globe at large.

Role of Ethno-medicine in Make-in India and Start-up India

Director, Nature-Ved Health Care, Pune - 411045

Abstract:

Ethnomedicinal plants have been identified and used throughout human history. Plants have the ability to synthesize a wide variety of chemical compounds that are used to perform important biological functions, and to defend against attack from predators such as insects, fungi and herbivorous mammals. Around 12,000 such compounds have been isolated so far a number estimated to be less than 10% of the total. Ethnomedicine, the study of traditional human uses of plants, is recognized as an effective way to discover future medicines. In 2001, researchers identified 122 compounds used in modern medicine which were derived from "ethnomedical" plant sources; 80% of these have had an ethnomedical use identical or related to the current use of the active elements of the plant. Some of the pharmaceuticals currently available to physicians are derived from plants that have a long history of use as herbal remedies. Examples of such drugs include aspirin, digoxin, quinine, and opium.

In India, Ayurvedic medicine has used many herbs such as turmeric possibly as early as 1900 BC. Earliest Sanskrit writings such as the Rig Veda, and Atharva Veda are some of the earliest available documents detailing the medical knowledge that formed the basis of the Ayurveda system. Many other herbs and minerals used in Ayurveda were later described by ancient Indian herbalists such as Charaka and Sushruta during the 1st millennium BC. The Sushruta Samhita attributed to Sushruta in the 6th century BC describes 700 medicinal plants, 64 preparations from mineral sources, and 57 preparations based on animal sources.

Make in India is an initiative launched by the Government of India to encourage multi-national, as well as national companies to manufacture their products in India. It was launched by Prime Minister Narendra Modi on 25 September 2014. India would emerge, after initiation of the programme in 2015, as the top destination globally for foreign direct investment, surpassing the United States of America as well as China. The major objective behind the initiative is to focus on job creation and skill enhancement in 25 sectors of the economy. The initiative also aims at high quality standards and minimising the impact on the environment. The initiative hopes to attract capital and technological investment in India.

Startup India campaign is based on an action plan aimed at promoting bank financing for start-up ventures to boost entrepreneurship and encourage start ups with jobs creation. The campaign was first announced by Prime Minister Narendra Modi in his 15th August, address from the Red Fort. It is focused on to restrict role of States in policy domain and to get rid of "license raj" and hindrances like in land permissions, foreign investment proposal, environmental clearances. It was organized by Department of Industrial Policy and Promotion (DIPP).^[2] A startup is an entity that is headquartered in India which was opened less than five years ago and have an annual turnover less than ₹25 crore (US\$3.7 million).^[3] The government has already launched PMMY, the MUDRA Bank, a new institution set up for development and refinancing activities relating to micro units with a refinance Fund of ₹200 billion (US\$3.0 billion). The initiative is also aimed at promoting entrepreneurship.

Bio-medical Informatics in Herbal Medicine Research

Dr. Subarna Roy

Scientist E (Dy Director), Regional Medical Research Centre, Indian Council of Medical
Research, Dept. of Health Research (Govt of India), Nehru Nagar, Belagavi 590 010

Recent boom in the information technology has cast its spell in all branches of scientific research and it had its own imprint on research on herbal medicines as well. Exponential improvement in computational ability of processors coupled with the simulations and modelling of structures enabled the possibility of carrying out *in silico* studies like 'docking' whereby finding possible leads and targets and their interactions have become easy. As more and more structures of chemicals and drugs were deciphered and more and more number of proteins were sequenced, the robustness and precision of computer-aided simulations increased. This has resulted in saving of valuable time and resources and of course unnecessary sacrifice of a large number of animals. AutoDock, SwissDock, Schrodinger, Gold, Discovery Studio, etc are just some of the examples for molecular docking studies.

Designing leads using computer aided tools are becoming more and more popular. Some of the popular databases which are used extensively include, but not limited to the TCM database, Super Natural II, Natural Products Alert (NAPRALERT), Cardiovascular Disease Herbal Database (CVDHD), Naturally occurring Plant based Anticancerous Compound-Target (NPACT, TCMGeneDIT, Traditional Chinese Medicine Integrated Database (TCMID) etc. Ayusoft and Traditional Knowledge Digital Library (TKDL) are two of Indian attempts. The utilities of these databases are discussed.

The utilization of these biomedical informatics resources in development of several new approaches to drug discovery such as the subtractive genomics approach, QSAR studies, etc. Use of bio-medical informatics in drug discovery through reverse pharmacology approach promises better chance of success and in less time. The likely drugs from presently used herbals and botanicals are tested *in silico* against known or predicted/simulated targets and those that successfully pass the tests are taken further for *in vivo* and *in vitro* studies thereby saving a lot of time for screening several candidates for certain activity.

The advent of fast computing and generation of high-throughput data in the last five years has helped in building a tremendous resource that can be utilized by the herbal drug industry to its best interest. Whole genome sequences of organisms including humans are freely available and can be transcribed *in silico* into corresponding proteins. Differences can be found by comparing diseased

and non-diseased sequences and these can be used as targets. Data has become so abundant now that complete networks of reactions are made available in resources like Patrick and there are options to play with this network by selectively switching off or switching on certain reactions which can be done by introduction of a drug. The whole genome resource doubles every 6 months and presents with an excellent opportunity for utilization in discovering new drugs, drug interactions, etc.

Unfortunately, despite the large amount of research done in India, dissemination of information had been limited so far, partially because of relatively few number of standard and reputed journals in the field, and partially because of lack of the right resource to archive results and outputs of research in herbal medicines. Many of the research findings from India have ended up with publications in fake and substandard journals which are mushrooming. There is no standard resource that collates and archives research findings in medicinal plants into easily retrievable form like what PubMed does for modern medicine. It is unfortunate for a country like India that despite having centuries of practise of Ayurveda and producing the leaders in Information Technology the world over, our country does not have a single comprehensive database that collate all research and information available on Indian medicinal plants as one digital resource/archive. The Chinese, on the contrary have gone much ahead in building platforms like the TCM databases. The Biomedical Informatics Centre of RMRC has taken initiatives in developing a digital archive of scientifically validated traditional /herbal medicines that aims to provide a one-stop information on the extent of research carried out on medicinal plants of India in the drug validation pipeline following the reverse pharmacology / ethnobotany approach. It is expected that these efforts would prevent duplication of work and save time and resources. It will help in harvesting the results of whatever research has been carried out so far and take them into translational mode. It is also expected that 'practice to laboratory' validation would help in emergence of cost effective healthcare.

New Bio-active Molecules from Indian flora [terrestrial and marine] and their pharmaceutical applications

Dr. K. Suresh Babu,
Senior Scientist
Natural Products Chemistry Division,
Indian Institute of Chemical Technology, Hyderabad-500 007, INDIA
Email: suresh@iict.res.in

Concurrent with human civilization, plants have been their true companions as source of medicine. These plants have contributed significantly in discovery, design and development of several modern medicines. Recent move of society towards nature for the treatment of various diseases where there is no satisfactory cure in modern medicine has diverted the attention of natural/medicinal chemists and biologists to unravel their chemical characteristics and biological activities together in order to define their therapeutic potential in the light of modern pathobiological understandings. This move has led collectively to rediscover, design and refine the therapeutic application of medicinal plants.

During last eight years, we have studied several medicinal plants/marine flora guided by *in vitro* based bioassays to delineate the chemistry of medicinal plants responsible for biological activities. This effort has led to identify several potent multiple active medicinal plants, their active fractions and synergistic molecular compositions. We have identified particularly, several free radical scavengers, cytotoxic and α -glucosidase inhibitory principles present in substantial yields in Indian flora. Presence of multiple active phytochemicals in rich concentrations in some of the medicinal plants therefore offers exciting opportunity for development of novel therapeutics and also provides scientific justification for their use in traditional medicines. The lecture covers isolation and biological activities of various new molecules isolated from natural sources viz medicinal plants and marine flora/fauna.

20th National Convention of Society of Pharmacognosy on “Newer Approaches for Development and Promotion of Natural Products”

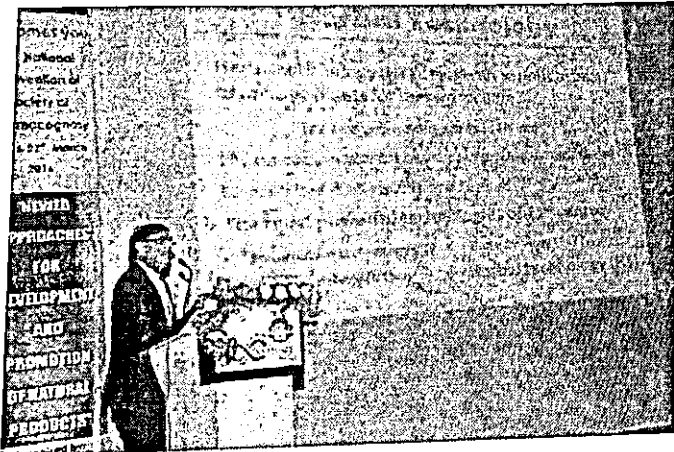

20th National Convention of Society of Pharmacognosy on “Newer Approaches for Development and Promotion of Natural Products” was organized on 26th & 27th March 2016 at Jirige Memorial Hall, JNMC Campus, Belagavi. The convention was conducted in association with Regional Medical Research Centre (ICMR), Belagavi. The program was inaugurated by Dr. Prabhakar Kore, Hon. Chancellor, KLE University and Dr. C. K. Kokate, Vice Chancellor, KLE University. Over 300 delegates from different parts of India and abroad has actively participated in the convention. More than 100 scientific posters have been presented by the research students and staff. On this occasion Dr. Sunil Jalalpure, Executive Committee Member, Society of Pharmacognosy (Karnataka Brach) has received Best Branch Award from Dr. V.K. Dixit, President, Society of Pharmacognosy.
