She never chose to be a soldier,  
so vulnerable in that moment  
as she was a healer by heart,  
not a fighter.  
Yet the world expected her to triumph,  
unguarded and bare to the bone  
as she mustered courage all alone  
searching for the covid enemy that was nowhere to be seen, as if mocking her.  
Remembering her oath  
and the sacrifices she must make,  
she held her only weapon -  
the stethoscope, steady.  
With vigor in her heart  
and a deep breath in,  
she stepped forward into the battlefield,  
to one day come out a hero.

## 2. ROLE OF PHARMACISTS IN PATIENT COUNSELLING AND DRUG INFO !!

**PHARMACY COUNSELLING !!**

**DRUG INFORMATION**

Medicines are the most common intervention in health services in the developed world. Patients require information to help them use their medicines safely and effectively and to participate in the management of their health.

**CLINICAL PHARMACIST.**

Health focused on prevention of complications and clinical care in individuals and promoting health equity among people and global State.

Clinical pharmacists play a significant role by providing high quality evidence based pharmaceutical care of drugs!!

**PATIENT COUNSELLING!**

Pharmacists should take every opportunity to counsel patients about their treatment regimens and ensure that patients clearly understand the proper use of their medication.

Establishing a caring relationship encourages patients to seek counsel!!

**ACADEMIC PHARMACIST.**

Academic pharmacists are full-time faculty members of an educational institution. They are involved in teaching and training of future generations of pharmacists and pharmaceutical scientists!!
