TO WHOM IT MAY CONCERN

This is to state that Ms. Sainaz UK worked with us under the close supervision of Prof. Purthina Ashok, Professor, College of Pharmacy, KLE University, on a collaborative project to study the pharmacological effect of a drug combination for Type-2 diabetes. Her work involved initial acute and chronic toxicity studies of the drug combination as well as pharmacological profiling using standard biochemical and *in vivo* parameters in a rat model of type-2 Diabetes. I understand that this work formed a part of her *M.Pharm* research training, which she completed successfully. This letter is issued at her request.
