Dear Dr. Sujeet Kumar,

I am delighted to offer you a position in my laboratory (Functional Soft Nanomaterials Laboratory) at the Pusan National University, starting October 2nd, 2018 as a Postdoctoral Associate for a period of two years (10/02/2018-09/30/2020). Your salary will be 22,000,000 Won (KRW) per year (plus fringe benefits). Fringe benefits would be a health insurance aid (half of the total amount) and a severance pay (1-month salary per year).

My laboratory is focused on developing a platform technology by merging conventional micro-technology and emerging nano-technology to solve BIG problems in medicine and material science. Thus, we work very closely with clinicians and representatives in industry. Based on your impressive track record, I have very high expectations for your success in the coming years. I will do everything that I can to ensure that your experience in my laboratory serves as a pivotal stepping-stone to becoming a world leading medical scientist.

Yours Sincerely,

Seung Yun Yang
