CONGKAK

RULES AND REGULATION

Both players begin simultaneously by scooping up all the seeds in any house on their side. Each drops a seed into the next house and continues clockwise depositing one seed into every house thereafter. A player drops a seed into his storehouse each time he passes it but does not deposit any into his opponent's storehouse.

How the game continues, depends on where the last seed of each scoop is deposited.

If the seed drops into the player's own storehouse: the player scoops up the seeds from any of his houses and distributes them in the houses round the board but not in his opponent's storehouse.

If the seed drops into a house (on either side of the board) containing seed: The player scoops up all the seeds in that house and continues distributing them as described above.

If the seed drops into the player's house which is without seeds: The player is entitled to collect the seeds in his opponent's house directly opposite his own. These seeds collected from his opponent's house together with his last seed are deposited in his own storehouse. If the opponent's 'house' opposite his own is empty, he deposits only his last seed in his own storehouse. He forfeits his turn and stops playing. It is the opponent's turn now to distribute the seeds.

If the seed drops into an empty house belonging to the opponent: the player forfeits his turn and stops playing. He also forfeits his Seeds and leaves it in the opponent's house. It is the opponent's turn now to distribute the seeds.

The first round ends when a player has no more seeds in his house. The remaining seeds are awarded to his opponent.

Play resumes in the second round with players redistributing seeds from their own storehouse to their own houses. Beginning from left to right, seven seeds are placed in each house. If a player does not have sufficient seeds to fill his own houses, the remaining houses are left empty and are considered 'burnt'. The leftover seeds are deposited into his own storehouse. The opponent deposits excess seeds he has won into his own storehouse.

The loser gets to start the second round. Play is continued as before but players will bypass 'burnt houses' for instance no seeds are to be dropped into these houses. If a seed is accidentally dropped into a 'burnt house', it is confiscated and stored in the opponent's 'storehouse'.

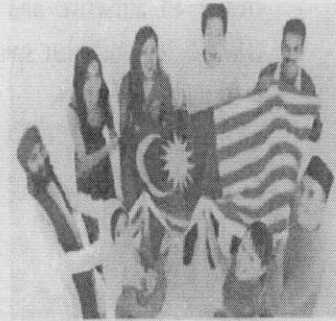

Play continues until one player loses all his 'houses' or concedes defeat.

MAKEOVER CHALLENGE

As Malaysia is made up of different ethnicities, we would like to cultivate the different cultures into this event.

Ethnics such as Bumiputra, Cina, Kadazan and Iban.

RULES AND REGULATIONS:

1. Time given: 1 hour
2. The group is minimum of 4 members and should consist of 1 male. (must consist of 1 Indian national)
3. Participant should dress up earlier and only makeover should be done in the time given.

MALAYSIAN EVENTS

1) CONGKAK

CONGKAK (PRONOUNCED CHONG-KAK) IS A GAME PLAYED ON A WOODEN BOAT-SHAPED BLOCK WITH TWO ROWS OF SEVEN CIRCULAR HOLES AND TWO LARGE HOLES AT BOTH ENDS CALLED "HOME".

THE GAME BEGINS WITH SEVEN GAME PIECES (SHELLS, MARBLES, PEBBLES OR SEEDS) IN EACH HOLE EXCEPT "HOMES" WHICH REMAIN EMPTY. CONGKAK REQUIRES TWO PLAYERS. EACH PLAYER CONTROLS THE SEVEN HOLES ON HIS SIDE OF THE BOARD AND OWNS THE "HOME" TO HIS LEFT. THE GOAL IS TO ACCUMULATE AS MANY PIECES IN YOUR OWN "HOME".

INITIAL POSITION								
0	7	7	7	7	7	7	7	0
	7	7	7	7	7	7	7	

ON A TURN, A PLAYER REMOVES ALL PIECES FROM ONE OF THE SEVEN HOLES ON HIS SIDE. HE THEN DISTRIBUTES THEM CLOCKWISE -- ONE IN EACH HOLE TO THE LEFT OF THIS HOLE -- IN A PROCESS CALLED SOWING. SOWING SKIPS AN OPPONENT'S "HOME" BUT NOT A PLAYER'S OWN "HOME".

IF THE LAST PIECE FALLS INTO AN OCCUPIED HOLE THEN ALL THE PIECES ARE REMOVED FROM THAT HOLE, AND ARE SOWN IN THE SAME WAY (CLOCKWISE FROM THAT HOLE) IN ANOTHER ROUND. THIS PLAYER'S (CURRENT) TURN ENDS WHEN THE LAST PIECE FALLS INTO AN EMPTY HOLE ON THE OPPONENT'S SIDE.

IF THE LAST PIECE SOWN FALLS INTO A PLAYER'S OWN "HOME" THEN ...

... THE PLAYER EARNS ANOTHER TURN, WHICH CAN BEGIN AT ANY OF THE SEVEN HOLES ON HIS SIDE.

IF THE LAST PIECE SOWN FALLS INTO AN EMPTY HOLE ON HIS SIDE THEN ...

... THE PLAYER CAPTURES ALL THE PIECES IN THE HOLE DIRECTLY ACROSS FROM THIS ONE, ON THE OPPONENT'S SIDE AND PUT THEM (PLUS THE LAST PIECE SOWN) IN HIS OWN "HOME". IF THE OPPOSING HOLE IS EMPTY, NO PIECES ARE CAPTURED.

THE OTHER PLAYER CHOOSES WHICH HOLE HE WISHES TO START FROM, REMOVES THE PIECES AND SOWS THEM - ONE IN EACH HOLE, CLOCKWISE FROM THAT CHOSEN HOLE. IF A PLAYER HAS NO PIECES ON HIS SIDE OF THE BOARD WHEN IT IS HIS TURN, THEN HE MUST PASS.

THE GAME ENDS WHEN NO PIECES ARE LEFT IN ANY HOLE ON BOTH SIDES OF THE BOARD.

BATIK

Batik is a technique of wax-resist dyeing applied to cloth. To make batik, selected areas of the cloth are blocked out by brushing or drawing hot wax over them, and the cloth is then dyed. The applied wax resists dyes and therefore allows the artisan to colour selectively by soaking the cloth in one colour, removing the wax with boiling water, and repeating if multiple colours are desired.

Rules and Regulations

- Each batch is required to submit one team of 5 members for entry
- Each team is expected to briefly explain their design to the judges
- Judging is based on creativity and presentation
- Time allotted: 2 hours (2.30pm-4.30pm)
- Date: 3rd February 2017
- Venue: Oral Pathology Hall
- Materials provided are as followed:
 - 1 metre white cloth
 - Acrylic paint (yellow, blue, red)

- Displaying all minor postings attendance prior to starting final year
- A gap between subjects during theory papers for finals. Back to back papers are very exhausting.
i.e. Medicine Paper 1, 2 gap Surgery Paper 1, 2
- It would definitely improve our results.
- Syllabus for internals should be consistent and posted up so we can have time to make study plans.
- Exam dates (Finals) should be displayed as early as possible. It would really help us plan ahead

MALYSIAN ART AND CRAFT CONTEST

This is a 10 person team based event. The team is tasked with constructing 2 different traditional crafts of Malaysia and painting a mini clay pot as well as decorating all of these in a specified time frame. The team which shows most creativity and meticulous finish wins the contest.

WAU KUCING

Participants are required to construct the following:

- Wau (Malaysian traditional kite), one of the traditional games of the Malays since hundreds of years. The game contains elements of authentic Malay culture. This can be seen in the form of patterns and designs available on the wau. Kite game has become a tradition of the game after the harvest. They play wau to relieve tiredness after working in the fields. They also feel happy while playing

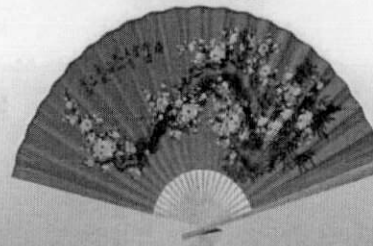

and see each other up there in some places, and their district will hold an annual festival and the most beautiful kite competition between districts. In Malaysia, there are many types of Wau tradition. Three types of kites lifted as National Traditional Wau is Wau Bulan, Wau Kucing and Wau Jala Budi

WAU JALA BUDI

- Chinese fan, an important cultural symbol of the Chinese population in Malaysia. Chinese hand fans were initially made with bird's feather, which gave them more graceful and

CHINESE FAN

heavenly phoenixes appearance when incorporated with dance movements at imperial ceremony. The best fan has surface of white silk from East China's Shan-Dong Province. Other than feather and silk fans, laborers use big round fans made out of grass in the summer to help to keep them cool. And in the society of aristocrats and scholars, fans were made from fine paper mounted on bamboo. Aristocrats and scholars found it interesting to paint their poetic and artistic expression on the surface. Those fans with a famous artist's painting or calligraphy would be highly prized.

Participants are required to paint / decorate the following:

- Indian Pot, which has been one of the most beautiful forms of expression. A piece of pottery has a visual message in its shape and color. In fact, being an agricultural country, pots for storage of water and grains were in demand. The real beginning of Indian pottery began with the Indus Valley Civilization which is still being an important traditional aspect of the Indians in Malaysia especially as kitchenware.
