KLE College of Pharmacy, Belagavi, organized a Poster Making competition on 15th March 2019.

Gender equality and women's empowerment are prerequisites for prosperous societies.

To begin a conscious shift towards such a future, we must understand that although gender is merely a social construct for identification, patriarchal systems and practices have made it a major basis of discrimination.

March 15th 2019 was scheduled as '**GENDER CHAMPION DAY**'.

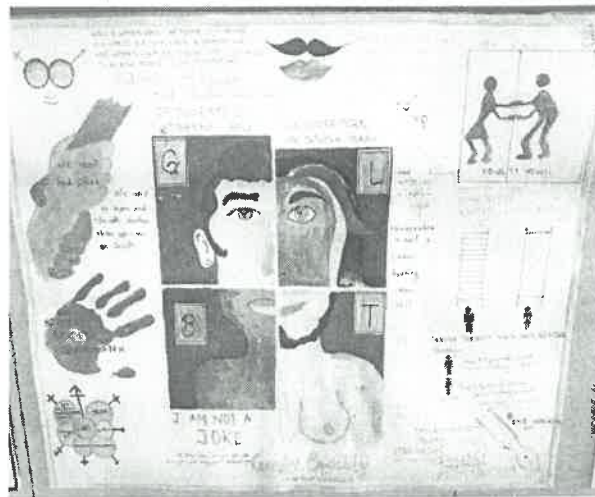

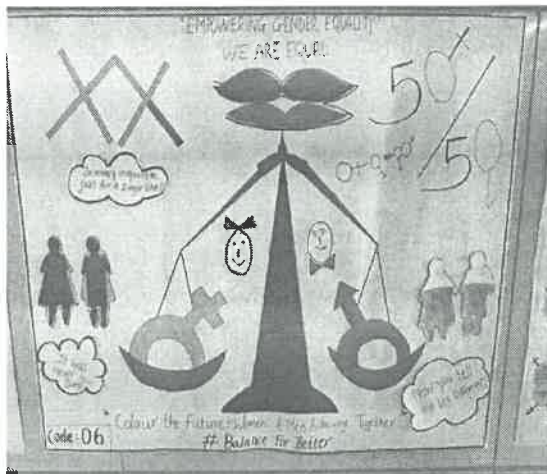

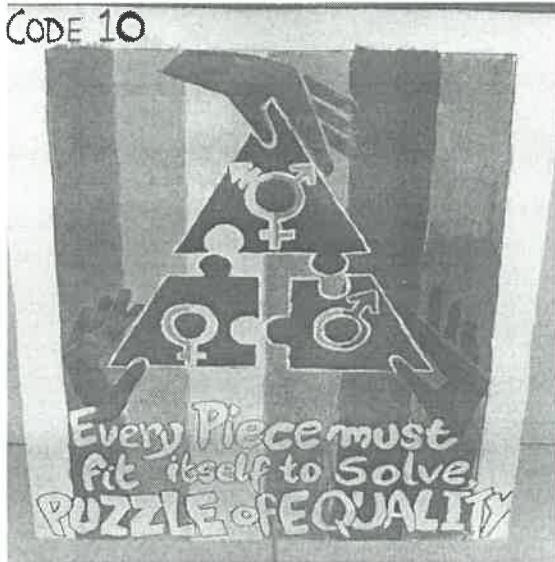

Gender champions of KLECOP organized the program on the theme: - Gender equality "**BALANCE FOR BETTER**"

Gender equality report 2020

Gender equality is a human right, but our world faces a persistent gap in access to opportunities and decision-making power for women and men. Globally, women have fewer opportunities for economic participation than men, less access to basic and higher education, greater health and safety risks, and less political representation. Guaranteeing the rights of women and giving them opportunities to reach their full potential is critical not only for attaining gender equality, but also for meeting a wide range of international development goals. Empowered women and girls contribute to the health and productivity of their families, communities, and countries, creating a ripple effect that benefits everyone.

The word gender describes the socially-constructed roles and responsibilities that societies consider appropriate for men and women. Gender equality means that men and women have equal power and equal opportunities for financial independence, education, and personal development. Women's empowerment is a critical aspect of achieving gender equality. It includes increasing a woman's sense of self-worth, her decision-making power, her access to opportunities and resources, her power and control over her own life inside and outside the home, and her ability to effect change. Yet gender issues are not focused on women alone, but on the relationship between men and women in society. The actions and attitudes of men and boys play an essential role in achieving gender equality.

Education is a key area of focus. Although the world is making progress in achieving gender parity in education, girls still make up a higher percentage of out-of-school children than boys. For the better understanding of this KLE Ayurworld women cell had organised a gender equality debate for BAMS students of KLEU BMK Ayurveda Mahavidhyalaya Belagavi. On December 23, 2020

Topic: "Challenges faced by women v/s men at work place"

There were two teams, one team speaking challenges of women and other team challenges for men . The whole of the event was co-ordinated by student Roopamanjari. The whole debate competition was conducted in 5 rounds and team A, speaking on challenges for women won the event.

Team A students: Miss. Maitrayi, Miss Asmita, Miss.Avani, Kum. Mahaveer

Team B students: Miss Sweta, Miss Aishwarya, Kum Sankalp, Kum. Sanjay

The whole of the event was co-ordinated by the co-ordinated by Dr.Usharani Sanu, co-ordinator women cell.

She never chose to be a soldier
so vulnerable in that moment
as she was a breaker by heart
not a fighter
Yet the world expected her to tough
unguarded and bare to the bone
as she mustered courage all alone
searching for the covid enemy that was nowhere to be seen, as if mocking her
Remembering her oath
and the sacrifices she must make
she held her only weapon
the stethoscope steady
With valor in her heart
and a deep breath in
she stepped forward into the battlefield
to one day come out a hero.

4. June 2020- Online Photography Competition was conducted where the topic was on the Mental health of Individuals on Pandemic.

5. Online Short Film making Competition was conducted for students on awareness of COVID-19 Pandemic, it was open topic where they could choose the perspective the way they want to look, to the situation either Mentally, Academically, socially.
