

INSTRUMENT LIST AND SPECIFICATION

SL. NO	INSTRUMENTS	QUANTITY	SPECIFICATION
1	Trans Cranial Magnetic Stimulator	01	Repetitive and single stimulus TMS Machine All type of TMS coil with arm/applicator Patient chair Machine trolley
2	Supported ambulance system	01 (10-12 meters)	Gait training system Rail – 12 meters Gait suit/harness/sling – 02 Turn terminal system
3	Super inductive therapy	01	Machine with applicator (all) Protocols Display and software backup
4	Diabetic Mini foot package	01	Vascular Doppler Model Software Foot presser mapping mat with software (1-150 psi) Static and dynamic analysis facility IRR thermometer with software Sphygmomanometer, Monofilament/Trolley Foot care software Gait analysis
5	Intermittent Pneumatic compression device	01	IPC device Arm garment Leg garment Upper body jacket Lower body jacket
6	Force plate (BTS)	02	BIS system- high performance fully digital force platform P-6000 Force plate -02 POE injectors with accessories Installation kit and SMART capture license.
